Life as an Experiment Zdenek Penkala, 2009-03-26 We cannot live a full life unless we know who we are unless we know the essence of our being The sciences which have been immensely helpful in the way in which we live our lives have been helpless when it comes to telling us how our life should be lived and what its

meaning is Accepting any philosophical or religious belief on the other hand limits our freedom to learn directly from personal knowledge of reality as any preconceived ideas do not only alter its perception but limit the spectrum of possibilities to which our reason can be applied To those who do not surrender their right to decide for themselves what reality is life offers a unique opportunity to apply their insights both in the worlds within and without and either validates or disproves their findings If they are true to themselves the continuous feedback life offers will reveal to them unique characteristics of our mind which are otherwise limited by its own beliefs

Between Humanist Philosophy and Apocalyptic Theology Paul R. Hinlicky, 2016-06-16 Samuel Stefan Osusky was a leading intellectual in Slovak Lutheranism and a bishop in his church In 1937 he delivered a prescient lecture to the assembled clergy The Philosophy of Fascism Bolshevism and Hitlerism that clearly foretold the dark days ahead As wartime bishop he co-authored a Pastoral Letter on the Jewish Question which publicly decried the deportation of Jews to Poland in 1942 in 1944 he was imprisoned by the Gestapo for giving moral support to the Slovak National Uprising against the fascist puppet regime Paul R Hinlicky traces the intellectual journey with ethical idealism's faith in the progressive theology of history that ended in dismay and disillusionment at the revolutionary pretensions of Marxism Leninism Hinlicky shows Osusky's dramatic rediscovery of the apocalyptic the mother of Christian theology and his input into the discussion of the dialectic of faith and reason after rationalism and fundamentalism

Before Auschwitz Paul R. Hinlicky, 2013-06-27 What can Christian theology in North America learn from the rise of Nazism in Germany in the 1920s and 1930s This book explores an explosion of scholarship in recent decades that has reopened questions once thought to be settled about the relationships between Nazism Liberalism and Christianity In the process of criticizing the retrospective fallacy and urging a properly hermeneutical historiography its method in historical theology causes us to reflect back upon our tacit commitments suggesting that we are closer to fascism than we are aware and that although the devil never shows its face twice in exactly the same way the particular hubris of grasping after final solutions along biopolitical lines that is the racially scientific

version of fascism that was Nazism is and remains near at hand today within our horizon of possibilities unrecognized in just the ways that it was unrecognized by Germans before Auschwitz The book takes a fresh look at the theology of Adolf Hitler and finds themes that are disturbingly familiar It summons to the renewal of Christian theology after Christendom in the form of critical dogmatics where the motif of the Beloved Community replaces the fallen idol descended from Charlemagne

Relational Concepts in Medicine, 2020-05-18 **Dignidad y consecuencias** Vasil Gluchman, 2014-10-22 El objetivo de este libro es dar a conocer un pensamiento original que tiene su origen en un espacio distinto del acostumbrado fundado a través de una lengua y unas tradiciones que si bien compartimos parcialmente sus diferencias son tan notables que parecen garantizar la inteligibilidad Pero el esfuerzo creativo del eticista eslovaco Vasil Gluchman y su voluntad itinerante han facilitado la expansión de sus ideas en el mundo de habla inglesa y en los ámbitos académicos del hemisferio norte Consideramos que a partir de la traducción autorizada de tres de sus artículos complementados con un estudio introductorio de L E Misseri se puede dar una imagen de esta teoría que parece adecuada a la mutabilidad e incertidumbres de la era de la información Era caracterizada por la caída en descrédito de los grandes relatos y los sistemas filosóficos con pretensiones holísticas de extrema rigurosidad

The Politics of Accommodation and Resistance in the Black Church Rupe Simms, 2000 This study argues that the church has the capacity of fostering ideological resistance to the dominant order and therefore making a profound contribution to the sociopolitical liberation of black Americans By developing this position using quantitative research methods in three African American churches the work confirms the reality of this potential showing that a counter hegemonic approach to church in the black community is possible This is significant because many politically active scholars even African American radicals disparage the institution as a politically destructive hegemonic organisation that misuses social and economic resources
