The Growing Trend of Living Small Ella Harris, Mel Nowicki, Tim White, 2023-01-31 This book examines the growing trend for housing models that shrink private living space and seeks to understand the implications of these shrinking domestic worlds Small spaces have become big business Reducing the size of our homes and the amount of stuff within them is increasingly sold as a catch all solution to the stresses of modern life and the need to reduce our carbon footprint Shrinking living space is being repackaged in a neoliberal capitalist context as a lifestyle choice rather than the consequence of diminishing choice in the face of what has become a long term housing crisis What does this mean for how we live in the long term and is there a dark side to the promise of a simpler more sustainable home life *Shrinking Domesticities* brings together research from across the social sciences planning and architecture to explore these issues From co living

developments to the Tiny House Movement self storage units to practices of de-stuffification and drawing on examples from across Europe North America and Australasia the authors of this volume seek to understand both what micro living is bringing to our societies and what it may be eroding
