The End of an Era? Robert Mugabe and a Conflicting Legacy Mawere Munyaradzi, Ngonidzashe Marongwe, 2018-09-17 Arguably one of the most polarising figures in modern times has been Robert Gabriel Mugabe the former President of the Republic of Zimbabwe The mere mentioning of his name raises a lot of debate and often times vicious if not irreconcilable differences both in Zimbabwe and beyond In an article titled Lessons of Zimbabwe Mahmood Mamdani succinctly captures the polarity thus It is hard to think of a figure more reviled in the West than Robert Mugabe and his land reform measures however harsh have won him considerable popularity not just in Zimbabwe but throughout southern Africa This together with his recent stylised ouster speaks volumes to his conflicted legacy The divided opinion on Mugabe's legacy can broadly be represented first by those who consider him as a champion of African liberation a Pan Africanist an unmatched revolutionary and an avid anti imperialist who literally spoke the truth to Western imperialists On the other end of the spectrum are those who seemingly paying scant regard to the predicament of millions of black Zimbabweans brutally dispossessed of their land and human dignity since the Rhodesian days have differentially characterised Mugabe as a rabid black fascist an anti white racist an oppressor and a dictator Drawing on all these opinions and characterisations the chapters ensconced in this volume critically reflect on the personality leadership style and contributions of Robert Mugabe during his time in office from 1980 to November 2017 The volume is timely in view of the current contested transition in

Zimbabwe and with regard to the ongoing consultations on the Land Question in neighbouring South Africa It is a handy and richly documented text for students and practitioners in political science African studies economics policy studies development studies and global studies

New Armies from Old Roy Licklider, 2014-04-15 Negotiating a peaceful end to civil wars which often includes an

attempt to bring together former rival military or insurgent factions into a new national army has been a frequent goal of conflict resolution practitioners since the Cold War. In practice however very little is known about what works and what doesn't work in bringing together former opponents to build a lasting peace. Contributors to this volume assess why some civil wars result in successful military integration while others dissolve into further strife, factionalism and even renewed civil war. Eleven cases are studied in detail: Sudan, Zimbabwe, Lebanon, Rwanda, the Philippines, South Africa, Mozambique, Bosnia, Herzegovina, Sierra Leone, Democratic Republic of the Congo and Burundi, while other chapters compare military integration with corporate mergers and discuss some of the hidden costs and risks of merging military forces. *New Armies from Old* fills a serious gap in our understanding of civil wars, their possible resolution and how to promote lasting peace and will be of interest to scholars and students of conflict resolution, international affairs and peace and security studies. **From Cold**

This volume covers the key foreign affairs activities of the administration. The essays examine major areas of the Bush foreign policy record. Included are papers on international trade, the Middle East, Latin America, Somalia, Bosnia, arms control and U.S. base closing. Scholars, students and other researchers involved with the policies of the Bush administration will find this a useful resource. *Know Thy Enemy* Barry R. Schneider, Jerrold M. Post, 2003 Profiles the personalities and strategic cultures of some of the United States' most dangerous international rivals. *Delivering Land and Securing Rural Livelihoods* Francis Gonese, Michael Roth, 2003 *The Impact of Policy in African Agriculture* William Kenneth Jaeger, 1991 Policy in Sub-Saharan African countries is linked with the region's agricultural performance. Exchange rate policies, high taxes on agriculture and government control of export marketing are associated with the deterioration in agricultural export performance in 1970-87. And the policy reforms of the late 1980s where sustained and effective are linked with increased agricultural productivity.

Ndlovu-Gatsheni, Pedzisai Ruhanya, 2020-10-21 This book is the first to tackle the difficult and complex politics of transition in Zimbabwe with deep historical analysis. Its focus is on a very problematic political culture that is proving very hard to transcend. At the center of this culture is an unstable but resilient nationalist military alliance crafted during the anti-colonial

liberation struggle in the 1970s Inevitably violence misogyny and masculinity are constitutive of the political culture Economically speaking the culture is that of a bureaucratic parasitic primitive accumulation and corruption which include invasion and emptying of state coffers by a self styled Chimurenga aristocracy However this Chimurenga aristocracy is not cohesive as the politics that led to Robert Mugabe s ousting from power was preceded by dirty and protracted internal factionalism At the center of the factional politics was the first family Robert Mugabe and his wife Grace Mugabe This book offers a multidisciplinary examination of the complex contemporary politics in Zimbabwe taking seriously such issues as gender misogyny militarism violence media identity modes of accumulation the ethnicization of politics attempts to open lines of credit and FDI national healing and the national question as key variables not only of a complete political culture but also of difficult transitional politics
