*Rumors of Indiscretion* Lawrence J. Nelson, 2003 Annotation In March 1929 a questionnaire was distributed among University of Missouri students to measure their attitudes toward marriage. Students were instructed to answer the questions as best they could then drop their responses into any campus mailbox for delivery to the Bureau of Personnel Research. *Rumors of Indiscretion* explores how a college senior's psychology class project, a seemingly innocuous questionnaire, could cause a statewide uproar that attracted national attention. The questionnaire quickly brought to the notice of the University of Missouri's dean of women, soon found its way into the university president's office, the local media, and even the Missouri legislature. Many people, never having read the questionnaire, were forced to rely on rumors or excerpts in the newspapers about what it actually contained. Yet a cry arose for the expulsion of the students and professors responsible for this, as one headline labeled it, "filthy questionnaire." The controversy surrounding the questionnaire drew lines between young and old, with the rising generation challenging the Victorian ideas of those who were frightened by this coming of age of America during the Jazz Age. Nelson brings out the historical significance of this episode by placing it into two contexts: the history of the University of Missouri and the culture war in America during the 1920s. He argues that the 1920s were a time of continuity as well as change in Missouri and the United States. What was actually lost was Victorianism and its mandate for an orderly culture in which each member had a sharply defined role, violations of which carried societal consequences. The youth of this time rebelled against the constraints of such a society. Many sought change, but few were what would later be called radicals. Nelson uses the University of Missouri episode to demonstrate that while Victorianism's unrealistic notions were lost, tradition *The Story of Civilization: The Reformation* Will Durant, 1935 **Ontario Library Review**, 1926

**History of Modern Cremation in Romania** Marius Rotar, 2013-01-11 Cremation as a means of managing the post mortem body was reintroduced to Europe at the end of the eighteenth century but would not become common practice until the second half of the nineteenth century. This was a major development with multifaceted implications which generated heated debate. Initially armed with a variety of arguments: hygienic, economic, aesthetic, and philosophical arguments citing freedom of conscience, and will the advocates of modern cremation who tended to come from the social and cultural elite

sought to impose their new model This brought them into conflict with the traditional structures and patterns of burial and thus with the Church which had of course originally ended the practice of cremation The present study is a history of cremation in Romania beginning with the emergence of cremationist ideas in 1867 and taking the reader up to the present day It analyses the following key periods the second half of the nineteenth century and early twentieth century the Interwar period Romania then being the first Orthodox country in the world to possess a crematorium which provoked a vehement reaction against cremation on part of the Orthodox Church the Communist period when no new crematoria were built even though the Communist regime proclaimed itself to be atheist and the post Communist period     *Among Our Books* Carnegie Library of Pittsburgh, 1929     List of Doctoral Dissertations in History Now in Progress at Universities in the United States and the Dominion of Canada , 1914     **A Psychoanalytic History of the Jews** Avner Falk, 1996 This includes the evolution of the Hebrew religion as a projective response to the inner conflicts produced by the human family the sociopsychological development of the Israelite kingdoms in Canaan the fascinating duality of Jewish life in the Diaspora and the emotional ties of the Jews to their idealized motherland from the Babylonian exile to modern political Zionism     *An Underground Education* Richard Zacks, 1999-04-20 The best kind of knowledge is uncommon knowledge Okay so maybe you know all the stuff you re supposed to know that there are teenier things than atoms that Remembrance of Things Past has something to do with a perfumed cookie that the Monroe Doctrine means we get to take over small South American countries when we feel like it But really is this kind of knowledge going to make you the hit of the cocktail party or the loser spending forty five minutes examining the host s bookshelves Wouldn t you rather learn things like how the invention of the bicycle affected the evolution of underwear Or that the 1949 Nobel Prize for Medicine was awarded to a doctor who performed lobotomies with a household ice pick Or how Catherine the Great really died Or that heroin was sold over the counter not too long ago For the truly well rounded intellectual nothing fascinates so much as the subversive the contrarian the suppressed and the bizarre Richard Zacks auto didact extraordinaire has unloosed his admittedly strange mind and astonishing research abilities upon the entire spectrum of human knowledge ferreting out endlessly fascinating facts stories photos and images guaranteed to make you laugh gasp in wonder and occasionally shudder at the depths of human depravity The result of his labors is this fantastically illustrated quasi encyclopedia that provides alternative takes on art business crime science medicine sex lots of that and many other facets of human experience Immensely entertaining and arguably enlightening *An Underground Education* is the only book that explains the birth of motion pictures using photos of naked baseball players Richard Zacks is the author of *History Laid Bare* Love Sex and Perversity from the Ancient Etruscans to Warren G Harding which was excerpted in classy magazines like *Harper s* and earned the attention of the even classier *New York Times* which noted that Zacks specializes in the raunchy and perverse The Georgia State Legislature voted on whether to ban the book from public libraries He has studied Arabic Greek Latin French Italian and Hebrew and received the Phillips Classical Greek Award at

the University of Michigan He has also told his publisher that he made a living in Cairo cheating royalty from a certain Arab country at games of chance although the claim remains unverified His writing has appeared in the New York Times The Atlantic Monthly Time Life Sports Illustrated The Village Voice TV Guide and similarly diverse publications Zacks is married and busy warping the minds of his two children Georgia and Ziegfield He resides in New York City and can be reached via e mail at rzacks echonyc com

Crusaders and Crusading in the Twelfth Century Giles Constable, 2016-12-05 Crusading in the twelfth century was less a series of discrete events than a manifestation of an endemic phenomenon that touched almost every aspect of life at that time The defense of Christendom and the recovery of the Holy Land were widely shared objectives Thousands of men and not a few women participated in the crusades including not only those who took the cross but many others who shared the costs and losses as well as the triumphs of the crusaders This volume contains not a narrative account of the crusades in the twelfth century but a group of studies illustrating many aspects of crusading that are often passed over in narrative histories including the courses and historiography of the crusades their background ideology and finances and how they were seen in Europe Included are revised and updated versions of Giles Constable's classic essays on medieval crusading along with two major new studies on the cross of the crusaders and the Fourth Crusade and two excursions on the terminology of crusading and the numbering of the crusades They provide an opportunity to meet some individual crusaders such as Odo Arpinus whose remarkable career carried him from France to the east and back again and whose legendary exploits in the Holy Land were recorded in the Old French crusade cycle Other studies take the reader to the boundaries of Christendom in Spain and Portugal and in eastern Germany where the campaigns against the Wends formed part of the wider crusading movement Together they show the range and depth of crusading at that time and its influence on the

*History vs. Apologetics* David Cymet, 2012-07-10 Set within the context of the political and ideological developments of the time History vs Apologetics examines the role played by the Catholic Church in the rise and consolidation of the Third Reich and in particular with regard to the Nazi persecution of the Jews Distanced in the beginning the Catholic Church and the Nazi party drew closer as Hitler's popularity increased At the ratification of the Concordat in Rome a commitment not to interfere with the Nazis Final Solution to the Jewish Question was traded for a verbal promise from Berlin to exclude the baptized converts While the Nazi government violated the Concordat at every turn the Church kept zealously its promise Pope Pius XII never mentioned the persecuted Jews by name and denied any knowledge of the annihilation of the Jews Even after the war Pius XII refused to condemn anti-Semitism and Germany's role in the Holocaust Instead the Vatican engaged in the protection of genocide perpetrators and assisted in their mass escape David Cymet's comprehensive critical analysis of the polemical literature on the topic makes it possible to separate legitimate history from apologetic allegations and misrepresentations bringing to light key elements of Church policy that is intentionally misinterpreted by apologists By surveying the Church's policy from just before the rise of Nazism to the present Cymet demonstrates how the Nazis were able to turn the Catholic Church into their ally in their war against the Jews      **The Triumph of Hate** Christopher Vasillopoulos, 2012 Explains the religious philosophical sociopolitical and historical roots of the rise of Hitler and his movement P 4 of cover      The Role of Unexpected Events in Stories Andrea Smorti, 2022-11-11 This book stems primarily from the intention to make public the seminar entitled Narratives and Cultural Psychology held by J Bruner and C Feldman in May 2000 in Florence This seminar represents the point of view of these two authors at an important moment in their scientific and human careers on two themes narratives and interpretative communities The central concept on which this book works is the Aristotelian concept of peripeteia which born in the world of art is developed by Bruner in the field of cognitive and cultural psychology and by Feldman in the concept of interpretative community Thus the first purpose of this book is to analyze the role and usefulness of this concept in the study of the world of stories and culture The second aim of this book is to explain clarify and comment on the concept the theoretical assumptions and the key words used by the two authors while also exploring the issues addressed In this way the author wanted to reflect on what contribution this seminar offers today to the theme of narratives and cultural psychology and what the future prospects might be This book is aimed at students and scholars interested in exploring the role that stories play in human culture      *The Statesman's Year-book* ,1929
