Story Of World War II:

The Story of World War II Henry Steele Commager, Donald L. Miller, 2010-05-11 Drawing on previously unpublished eyewitness accounts prizewinning historian Donald L Miller has written what critics are calling one of the most powerful accounts of warfare ever published Here are the horror and heroism of World War II in the words of the men who fought it the journalists who covered it and the civilians who were caught in its fury Miller gives us an up close deeply personal view of a war that was more savagely fought and whose outcome was in greater doubt than readers might imagine This is the war that Americans at the home front would have read about had they had access to the previously censored testimony of the soldiers on which Miller builds his gripping narrative Miller covers the entire war on land at sea and in the air and provides new coverage of the brutal island fighting in the Pacific the bomber war over Europe the liberation of the death camps and the contributions of African Americans and other minorities He concludes with a suspenseful never before told story of the atomic bombing of Nagasaki based on interviews with the men who flew the mission that ended the war

Total War Peter Calvocoressi, Guy Wint, 1972 For the millions who lived through World War II on home or battle front the realization alone that more than fifty years have passed since the war's beginning is startling but to the postwar generation this century's great war has remained singularly remote TOTAL WAR is its first comprehensive history Drawing on remembrance personal experience and a distinguished record of scholarship and journalism the authors have skillfully sifted a massive body of accumulated fact and conflicting interpretation to sketch the background to the war describe its military progress and political momentum and examine its often surprising consequences It was a war of civilians of ideology and of technology as much as of military

strength or economic resources and important sections of TOTAL WAR deal with the international politics that shaped basic war aims with the human drama that grew out of personal commitments to resistance or collaboration and with the broader social and scientific changes which were wrought by or in spite of the war **World War II Reader's Digest**,2003-09-30

World War II the most catastrophic conflict in history was the first truly total war and the first in which in many countries civilians faced dangers every bit as great as those endured by the combatants When it ended more than 70 million people across the globe were dead among them some 400 000 Americans and more than half a million citizens of Great Britain or the British Commonwealth and Empire It can be easy to forget that the war was fought and won by ordinary men and women whose experiences collectively form the truest recollection of these vast events WWII The People s Story combines text based largely on eyewitness accounts from major archives in the US and Britain with audio CDs that use actual recordings from the same archives Comprehensively illustrated in colour and monochrome the narrative draws on the reminiscences of servicemen and civilians men women and children who lived through the most momentous years of the twentieth century The accompanying recordings feature the voices of veterans and survivors as they actually describe events bringing to life the human experience of those years fraught with danger terror and grief Before the light of me **History of World War II.** Tim Cooke,Edward Horton,Christer Jorgensen,2005 Presents a comprehensive discussion of the origins events campaigns and personalities of World War II A World at Arms Gerhard L. Newsweek: A masterful account of history's most destructive conflict. *Publishers Weekly*: *Great American World War II Stories* Tom McCarthy, 2024-06-04. Here are stunning long-buried stories that give proof to the words Admiral Chester Nimitz used to describe the hero Marines on Iwo Jima: Uncommon valor was a common virtue. Painstakingly selected from the most moving battle accounts about American heroism and breathtaking courage during the largest war in world history, this anthology brings readers to the front lines in inspiring detail. Courage, duty, and honor became watchwords for Americans in combat, most of whom were volunteer soldiers, sailors, and Marines. Freedom and principle mattered more than their own lives. Moving, emotional, and gripping, *Great American WWII Stories* offers hidden gems from major battles like Iwo Jima and Okinawa. It puts readers on Omaha Beach during D-Day. But here also is the story of USS Nautilus which engaged the Japanese on fourteen different patrols from the Battle of Midway to the liberation of the Philippines. Here too is the story of Operation Tidal Wave, the bloodiest air battle in the history of war, and a gripping account of American paratroopers isolated behind enemy lines fighting the elite German SS in Normandy after D-Day. *Great American WWII Stories* is a magnificent collection of gripping accounts of battles, great and small. It is tribute to Americans who were willing to risk it all, and in many cases did.

A Short History of World War II James L. Stokesbury, 2009-10-13. *A Short History of World War II* is essentially a military history, but it reaches from the peace settlements of World War I to the drastically altered postwar world of the late 1940s. Lucidly written and eminently readable, it is factual and accurate enough to satisfy professional historians. *A Short History of World War II* will appeal equally to the general reader, the veteran who fought in the War, and the student interested in understanding the contemporary political world.

History Comics: World War II Kate Hannigan, 2023-10-31. Turn back the clock with *History Comics*. In this volume, learn how millions of Americans joined the fight by working assembly lines, growing vegetables, and collecting scrap metal during World War II. When we think of war, we often focus on the battlefields. But during the war years of 1941 to 1945, Americans at home did whatever they could to support the troops and defeat the Nazis. While millions of soldiers ship out to fight on battlefronts in Europe and the Pacific, millions of men, women, and children step into new and exciting roles in cities and towns all across the United States. Four curious kids take us into factories, farms, and even kitchens to show what the fight on the home front looks like up close.

Behind the great powers, global military conflict, and infamous battles are more than 100 incredible stories that bring to life the Second World War. During the six years of war, there were countless little-known moments of profound triumph and

tragedy bravery and cowardice and good and evil These amazing and unbelievable stories of brotherhood redemption escape and civilian courage shed new light on the war that gripped the entire world Experience the action through the eyes of people like Lieutenant Jacob Beser who was aboard both the Enola Gay and Bock's Car and felt the force of the shockwave that nearly destroyed the planes after dropping the H bombs that obliterated Hiroshima and Nagasaki Professor William Miller who collapsed during a death march of POWs in Germany and was saved by the same man who had rescued him from what would have been a fatal car wreck in Pennsylvania five years earlier The brave civilians who answered the British Admiralty's call to help rescue an army from Dunkirk during the height of a dangerous battle and sailed small fishing boats into relentless German fire ultimately saving 335 000 men from This is the perfect book for any history buff looking for the untold stories of military and civilian daring during World War 2 World War II Michael J. Lyons, 2004 Author Michael J Lyons has drawn from the vast array of new historical literature to update this fourth edition He has increased his coverage of the Holocaust as well as German occupation policies along with both collaboration and resistance among various European peoples Readers will find an expanded chapter on the home fronts of the leading belligerent powers greater attention to Japan in the period preceding the war as well as a discussion of the bitter hatred that characterized the conflict between Americans and Japanese in the Pacific Lyons also focuses more fully on the Allied D Day landings along the coast of Normandy in June 1944 and on the hardships of the common fighting man during the conflict In addition to numerous photographs thirty five revised maps contribute to the reader's understanding of military campaigns The extensively revised bibliographical essay provides a wealth of suggestions for additional reading Classic Stories of World War II John Steinbeck, James A. Michener, Kurt Vonnegut, Norman Mailer, J. G. Ballard, 2018-05-08 A collection of the greatest stories ever written about World War II World War II brought grief and destruction but it also inspired some of the most impassioned literature in history Classic Stories of World War II includes excerpts from novels such as James Jones's *From Here to Eternity* and Joseph Heller's *Catch 22* as well as real life accounts of the Battle of Britain by Guy Gibson and the exploits of the French Resistance by Nancy Wake More than a dozen riveting stories of the war from esteemed authors are featured providing the reader with a rich variety of perspectives that will bring a new understanding of this global conflict *World War II, Film, and History* John Whiteclay Chambers II, David Culbert, 1996-10-10 The immediacy and perceived truth of the visual image as well as film and television's ability to propel viewers back into the past place the genre of the historical film in a special category War films including antiwar films have established the prevailing public image of war in the twentieth century For American audiences the dominant image of trench warfare in World War I has been provided by feature films such as *All Quiet on the Western Front* and *Paths of Glory* The image of combat in the Second World War has been shaped by films like *Sands of Iwo Jima* and *The Longest Day* And despite claims for the alleged impact of widespread television coverage of the Vietnam War it is actually films such as *Apocalypse Now* and *Platoon* which have provided the most powerful

images of what is seen as the reality of that much disputed conflict But to what degree does history written with lightning as Woodrow Wilson allegedly said represent the reality of the past To what extent is visual history an oversimplification or even a distortion of the past Exploring the relationship between moving images and the society and culture in which they were produced and received World War II Film and History addresses the power these images have had in determining our perception and memories of war Examining how the public memory of war in the twentieth century has often been created more by a manufactured past than a remembered one a leading group of historians discusses films dating from the early 1930s through the early 1990s created by filmmakers the world over from the United States and Germany to Japan and the former Soviet Union For example Freda Freiberg explains how the inter racial melodramatic Japanese feature film China Nights in which a manly and protective Japanese naval officer falls in love with a beautiful young Chinese street waif and molds her into a cultured submissive wife proved enormously popular with wartime Japanese and helped justify the invasion of China in the minds of many Japanese viewers Peter Paret assesses the historical accuracy of Kolberg as a depiction of an unsuccessful siege of that German city by a French Army in 1807 and explores how the film released by Hitler's regime in January 1945 explicitly called for civilian sacrifice and last ditch resistance Stephen Ambrose contrasts what we know about the historical reality of the Allied D Day landings in Normandy on June 6 1944 with the 1962 release of The Longest Day in which the major climactic moment in the film never happened at Normandy Alice Kessler Harris examines The Life and Times of Rosie the Riveter a 1982 film documentary about women defense workers on the American home front in World War II emphasizing the degree to which the documentary's engaging main characters and its message of the need for fair and equal treatment for women resonates with many contemporary viewers And Clement Alexander Price contrasts Men of Bronze William Miles's fine documentary about black American soldiers who fought in France in World War I with Liberators the controversial documentary by Miles and Nina Rosenblum which incorrectly claimed that African American troops liberated Holocaust survivors at Dachau in World War II In today's visually oriented world powerful images even images of images are circulated in an eternal cycle gaining increased acceptance through repetition History becomes an endless loop in which repeated images validate and reconfirm each other Based on archival materials many of which have become only recently available World War II Film and History offers an informative and a disturbing look at the complex relationship between national myths and filmic memory as well as the dangers of visual images being transformed into reality
