everywhere with actors portraying him in variously believable performances and it has become the popular notion that bigfoot is both dangerous and horny Indeed bigfoot is out there stalking lover s lanes and is even more lonely than those frightened teenagers that he sometimes interrupts Bigfoot tall and strong as he is makes a poor leading man in the movies with his awkward personality and typically anti social behavior He doesn t care a skunk s gland how many movies or commercials are made about him without any royalties whatsoever being paid To him Bigfoot Nation is all about style a lifestyle shall we say that keeps bigfoot on the fringes of society gently creeping into our dreams Join David on a wild ride from the very first bigfoot reports in the 1800s to right now Chapters include 1800 to 1899 The Wildmen of the Frontier The Oldest Bigfoot Photo 1900 to 1940 The Pre War Years 1950 to 1990 The Post War Years The Skunk Apes of Swamp Nation Bigfoot in the Southwest 2000 to 2020 Post Millennial Bigfoot more Includes 16 pages of color photos that document Bigfoot Nation

**Squatch Files** John Kuykendall,2018-07-29 There is no greater mystery in the annals of the unexplained in America than Sasquatch the creature most commonly known as Bigfoot Reports of giant man and ape like monsters have been documented all over the country although primarily in the forested regions of the Pacific Northwest There are many tales of giant hairy figures in every state in America although the traditional Bigfoot is believed to roam the vast regions of California Oregon Washington Idaho and the western edge of Canada The narrative that follows will include history and lore from a variety of locations Although most mainstream scientists maintain that no such creatures exist and short of an actual specimen their minds will not be changed it is not inconceivable that undiscovered creatures could be roaming this wide region of mountains and forests There are areas here that have been almost completely untouched by man and where few signs of the modern world can be found even today

*Bigfoot* Joshua Blu Buhs, 2009-08-01 Last August two men in rural Georgia announced that they had killed Bigfoot. The claim drew instant feverish attention leading to more than 1 000 news stories worldwide despite the fact that nearly everyone knew it was a hoax. Though Bigfoot may not exist, there's no denying Bigfoot mania. With *Bigfoot*, Joshua Blu Buhs traces the wild and woolly story of America's favorite homegrown monster. He begins with nineteenth century accounts of wildmen roaming the forests of America, treks to the Himalayas to reckon with the Abominable Snowman, then takes us to northern California in 1958 when reports of a hairy hominid loping through remote woodlands marked Bigfoot's emergence as a modern marvel. Buhs delves deeply into the trove of lore and misinformation that has sprung up around Bigfoot in the ensuing half century. We meet charlatans, pseudo scientists and dedicated hunters of the beast, and with Buhs as our guide, the focus is always less on evaluating their claims than on understanding why Bigfoot has inspired all this drama and devotion in the first place. What does our fascination with this monster say about our modern relationship to wilderness, individuality, class, consumerism and the media? Writing with a scientist's skepticism but an enthusiast's deep engagement, Buhs invests the story of Bigfoot with the detail and power of a novel, offering the definitive take on this elusive beast.
