forget Deming's themes revolve around deception and self-deception, loneliness and good intentions gone awry. Most of his stories occur just before or after the Civil War. In almost every story, however, Deming shows his characters looking back towards the mountains from the Mohawk or St. Lawrence Valley or from lonely settlements on the edge of the forest or across Lake Champlain. Few Adirondack writers have been so convincing in conveying the keen isolation of life in the northern forest and its peculiar effects on the human mind. The wilderness community is cruel, fostered by ignorance and isolation. In the end, the mountains, seemingly a neutral back drop against which individuals confront a collective morality, are the real source of his inspiration.

Contested Terrain Philip G. Terrie, Phillip G. Terrie, 1999 This work shows how expectations about land use combined with interactions with nature have defined the Adirondacks. Outlining the disputes for the control of the land, the author introduces the key players from the residents, landholders to preservationists and developers.
