history of European civilization from Wyclif to Calvin 1300 1564 **The Alphabet Versus the Goddess** Leonard Shlain, 1999-09-01 This groundbreaking book proposes that the rise of alphabetic literacy reconfigured the human brain and brought about profound changes in history religion and gender relations Making remarkable connections across brain function myth and anthropology Dr Shlain shows why pre literate cultures were principally informed by holistic right brain modes that venerated the Goddess images and feminine values Writing drove cultures toward linear left brain thinking and this shift upset the balance between men and women initiating the decline of the feminine and ushering in patriarchal rule Examining the cultures of the Israelites Greeks Christians and Muslims Shlain reinterprets ancient myths and parables in light of his theory Provocative and inspiring this book is a paradigm shattering work that will transform your view of history and the mind Journey of Promise Charles W. Allen, 2014-05-24 What did Thomas Jefferson believe about the divine purpose of the United States of America What compelling role did the Puritans play in setting the stage for the American Revolution What profound affect did Native Americans have on the forming of our constitution All of these questions and

much more are answered in this fascinating work Little known information is contained within these pages about the beginnings of our country through the founding of the Massachusetts Bay Company in Sempringham England Journey of Promise covers the highlights of events that led to Puritan England and New England and ultimately the founding of the United States of America Included are several short biographies of key Puritans including Henry Dunster first President of Harvard University Anne Bradstreet first American poet and elect lady and John Elliott apostle to the Native Americans Charles also sheds light on four of our founding fathers John Adams Thomas Jefferson George Washington and Benjamin Franklin and their religious beliefs and influences on our nation If you want to learn detailed knowledge about the people who founded and believed in this nation that is not taught in schools and is not widely published this book is a valuable addition to your personal library *The Renaissance* Will Durant,Ariel Durant,1953 A history of civilization in Italy from the birth of Petrarch to the death of Titian 1304 to 1576 *The Church and Western Culture* Tom Streeter,2006-10 To live meaningfully in the present and to plan wisely for the future means building on the past This kind of understanding is important when it comes to questions concerning both faith and culture In the development of the Western world there has been a dynamic relationship between the church and civilization in general This interplay has produced a rich heritage and foundations affecting governments economics family life education the arts literature science the practice of religion and many other areas The church has played a major role and cannot be brushed aside as secondary or irrelevant to our present lives It is especially important that followers of Christ know the church's history Today there is neglect almost disdain for history This is sad because history really is about us There is a common nature shared by people in every age who face over and over the same issues opportunities problems and the same mortality In our ancestors we see ourselves They are there for us to learn from to teach us lessons that help keep us from the same mistakes and inspire us to strive for the good and the great The past is more than just names events and dates It is filled with actual people with real lives possessed of important thoughts and ideas that should be carried into the present This book claims that knowledge of these people and past events is necessary if we are to know ourselves maintain our sanity and find our way Western Representations of the Muslim Woman Mohja Kahf,1999 Veiled secluded submissive oppressed the odalisque image has held sway over Western representations of Muslim women since the Enlightenment of the eighteenth century Yet during medieval and Renaissance times European writers portrayed Muslim women in exactly the opposite way as forceful queens of wanton and intimidating sexuality In this illuminating study Mohja Kahf traces the process through which the termagant became an odalisque in Western representations of Muslim women Drawing examples from medieval chanson de geste and romance Renaissance drama Enlightenment prose and Romantic poetry she links the changing images of Muslim women to changes in European relations with the Islamic world as well as to changing gender dynamics within Western societies *Romanticism and the Object* L. Peer,2009-12-07 Why are material objects so prominent in European Romantic literature both as symbol and

organizing device This collection of essays maintains that European Romantic culture and its aesthetic artifacts were fundamentally shaped by object aesthetics an artistic idiom of acknowledging through a profound and often disruptive use of objects the movement of Western aesthetic practice into Romantic self projection and imagination Of course Romanticism in all its dissonance and anxiety is marked by a number of new artistic practices all of which make up a new aesthetics accounting for the dialectical and symbolistic view of literature that began in the late eighteenth century Romanticism and the Object adds to our understanding of that aesthetics by reexamining a wide range of texts in order to discover how the use of objects works in the literature of the time *Morality After Calvin* Kirk M. Summers,2016-09-28 Morality after Calvin
