proven to heal our relationship with food and our bodies from New York Times bestselling author of Unwinding Anxiety Sometimes it feels as if there are as many ways to struggle with food as there are foods to eat Craving habit emotions boredom stress anxiety or just the simple fact that a box of donuts seems to be omnipresent in the break room free food can lead to feeling out of control around food While anxiety feels like something that happens to us the pull of food seems like something we should be able to handle After all we have to eat But it s not that simple The result of this constant struggle

and then giving in or giving up is a toxic cocktail of shame and self judgment that makes it feel like it is impossible to change our behavior The Hunger Habit is based on Judson Brewer s deeply researched plan proven to help us understand what is going on in our brains so that we can heal the guilt and frustration we experience around eating This is not a diet book pretending not to be a diet book The step by step program focuses on training our brains to tap into awareness to change our relationship with food and eating shifting it from fighting with ourselves to befriending our minds and bodies There is no willpower calorie counting or restricted eating Setbacks are a good thing The key is to learn how to work with our brains rather than resisting our impulses and to adopt an attitude of self kindness rather than self judgment Grounded in cutting edge neuroscience and Brewer s several decades of clinical practice as a psychiatrist The Hunger Habit is both accessible and compassionate It will finally help you break out of food jail and reclaim your life
