*Between God and Beast* Avraham Balaban, 2011-11-30 In *Between God and Beast* Avraham Balaban argues that Oz's fiction has from the outset followed Jung's psychological theory The major psychic processes that are depicted throughout Oz's prose are typically Jungian For example the treasure hunt which is the deep structure of many of Oz's stories and novels reflects the search for the self in which all the vying forces of one's psyche coexist peacefully Oz uses many of the symbols of the treasure as well as of the self as they are presented by Jung Many of the symbols examined in this study have never before been discussed in articles about Oz's writings Balaban also devotes a considerable portion of his study to the religious dimension of Oz's work as well as the impact of his personal life on his writings Balaban reveals that from the beginning Oz's work has moved in two directions it demonstrates an unceasing effort to delve ever deeper into the dark side of consciousness while heightening the contrast between the opposing elements vying within his protagonists and it consistently attempts to bring those oppositions to peaceful coexistence and even to a fruitful mutual relationship
