Story Of Meadowlark:

The Meadowlark's Song Phyllis Amoth Dirks, 2005-03-14 Only in this generation had Albert and his family been Mennonites Sometimes they struggled with the tenets of this new faith far more restrictive than the Lutheranism of their early years Along with the stresses of adhering to this new way of life one that effectively cut them off from communication even with close relatives who lived nearby was the added struggle of living through the years of the Dustbowl when for all who lived on farms through those times the wolf of poverty was always at the door Ultimately the decision of the family to leave the land of the beloved family homestead was made both harder and easier by the economic realities of that historic time

The Salish People and the Lewis and Clark Expedition Salish-Pend D'Oreille Culture Committee, Elders Cultural Advisory Council, Confederated Salish and Kootenai Tribes, 2008-07-01 On September 4 1805 in the upper Bitterroot Valley of what is now western Montana more than four hundred Salish people were encamped pasturing horses preparing for the fall bison hunt and harvesting chokecherries as they had done for countless generations As the Lewis and Clark Expedition ventured into the territory of a sovereign Native nation the Salish met the strangers with hospitality and vital provisions while receiving comparatively little in return For the first time a Native American community offers an in depth examination of the events and historical significance of its encounter with the Lewis and Clark Expedition The Salish People and the Lewis and Clark Expedition is a startling departure from previous accounts of the Lewis and Clark Expedition Rather than looking at Indian people within the context of the expedition it examines the expedition within the context of tribal history The arrival of non Indians is therefore framed not as the beginning of the history of Montana or the West but as only a recent chapter in a far longer Native history The result is a new understanding of the expedition and its place in the wider context of the history of Indian white relations Based on three decades of research and oral histories this book presents tribal elders recounting the Salish encounter with Lewis and Clark Richly illustrated The Salish People and the Lewis and Clark Expedition not only sheds new light on the meaning of the expedition but also illuminates the people who greeted Lewis and Clark and despite much of what followed thrive in their homeland today

The Missouri River Basin is home to thousands of bird species that migrate across the Great Plains of North America each year marking the seasonal cycle and filling the air with their song In time immemorial Native inhabitants of this vast region established alliances with birds that helped them to connect with the gods to learn the workings of nature and to live well This book integrates published and archival sources covering archaeology ethnohistory historical ethnography folklore and interviews with elders from the Blackfoot Assiniboiné Mandan Hidatsa Arikara and Crow communities to explore how relationships between people and birds are situated in contemporary practice and what has fostered its cultural persistence Native principles of ecological and cosmological knowledge are brought into focus to highlight specific beliefs practices and concerns associated with individual bird species bird parts bird objects the natural and cultural landscapes that birds and people cohabit and the future of this ancient alliance Detailed descriptions critical to ethnohistorians and ethnobiologists are accompanied by thirty four color images A unique contribution The Winged expands our understanding of sets of interrelated dependencies or entanglements between bird and human agents and it steps beyond traditional scientific and anthropological distinctions between humans and animals to reveal the intricate and eminently social character of these interactions
