## **Storyteller American Storytelling:**

**Storyteller** Ramon Royal Ross,1996 Nearly four decades since its original publication this book is still enhancing the revival of storytelling across the American landscape Every person has a story *The Storytellers' Journey* Joseph Daniel Sobol,1999 This is the seed of The Storytellers Journey Joseph Daniel Sobol s history of the past thirty years of American storytelling In this compelling examination of the contemporary search for myth Sobol explores the social and psychological roots of the storytelling revival and the ever resurgent power of the storyteller Drawing on interviews with dozens of storytellers around the country Sobol paints the revival as part of a larger process of cultural revitalization He traces the growth of the preeminent revival organization the National Association for the Preservation and Perpetuation of Storytelling NAPPS and details the individual passions the organizational politics and the economic social and mythic forces that have combined to transform a ragtag assemblage of enthusiasts into a national and international network of arts professionals A seemingly chance encounter between a restlessly ambitious high school teacher and a coonhunting tale on the car radio sets off a chain of inspirations that changes the face of a small southern town touches lives across America and revitalizes a homely but treasured art form Storytelling Coach Doug Lipman,2006-10-12 Lipman outlines his basic coaching principles guidelines for emotional safety the four primary obstacles to success and suggestions for overcoming these challenges

*Transformation of the Storyteller's Identity and Role Through the American Storytelling Movement* Rachel Parkinson,2001 *The Storyteller's Guide* William Mooney,1996 Guide to becoming a better storyteller with advice from more than fifty of America s best known storytellers who answer questions about such issues as creating original stories controlling stage fright marketing and setting fees and using storytelling in the library and classroom Homespun Jimmy Neil Smith,1988 The storytelling craze is growing by leaps and bounds In this wonderfully eclectic collection Ray Hicks spins a Jack tale Jackie Torrence tells a Brer Rabbit story and Spaulding Grey recites the pleasures and terrors of buying an old house **Telling the American Story** Livia Polanyi,1985 This book explores the complexity of story text Its thesis is that one can elicit the world view of a people from a close structural analysis of their narrative discourse It is the first methodological explanation of how stories can be used as a source of cultural data and an illustration of how to do a rhetorically close analysis of a story text A theory of narrative structure is presented which leads to a conversationally based definition of what can properly be called a story Who Says? Carol L. Birch,Melissa A. Heckler,1996 In the last two decades the storytelling movement has gained momentum both as an educational tool and an entertainment form But the revival is so young that there is no common vocabulary for discussing it Contemporary storytelling has its roots in the oral and literary traditions Performances are often judged according to the aesthetics of print theater or music even television and film *Ready-to-tell Tales* Bill Mooney,1994 A multicultural collection of traditional tales contributed by more than forty of America s most experienced storytellers with tips for telling the stories **You Don't Know Jack** Kevin D. Cordi,2019-02-11

Jack and the Beanstalk Little Jack Horner and Jack the Giant Killer are all famous tales and rhymes featuring the same hero a character who often appears in legends fairy tales and nursery rhymes Unlike moralizing fairy tale heroes however Jack is typically depicted as foolish or lazy though he often emerges triumphant through cleverness and tricks With their roots traced back to England Jack tales are an important oral tradition in Appalachian folklore It was in his Appalachian upbringing that Kevin D Cordi was first introduced to Jack through oral storytelling traditions Cordi s love of storytelling eventually led him down a career path as a professional storyteller touring the US for the past twenty seven years In addition to his work as a storyteller Cordi worked a second job in an unrelated field a high school teacher and for many years he kept his two lives separate Everything changed when Cordi began telling stories in the classroom and realized he was connecting with his students in ways he had not previously Cordi concluded that storytelling storymaking and drama can be used as systems of learning instead of as just entertainment In *You Don t Know Jack A Storyteller Goes to School* Cordi describes the process of integrating storytelling into his classroom Using autoethnographic writing he reflects upon the use of storytelling and storymaking in order to promote inquiry and learning He argues that engaging with the stories of others discovering that one voice or identity should not be valued over the other and listening especially listening to stories of difference are of utmost importance to education and growth

**Storytelling In Daily Life** Kristin Langellier,Eric Peterson,2004-01-08 Storytelling is perhaps the most common way people make sense of their experiences claim identities and get a life So much of our daily life consists of writing or telling our stories and listening to and reading the stories of others But we rarely stop to ask what are these stories How do they shape our lives And why do they matter The authors ably guide readers through the complex world of performing narrative Along the way they show the embodied contexts of storytelling the material constraints on narrative performances and the myriad ways storytelling orders information and tasks constitutes meanings and positions speaking subjects Readers will also learn that narrative performance is consequential as well as pervasive as storytelling opens up experience and identities to legitimization and critique The authors multi leveled model of strategy and tactics considers how relations of power in a system are produced reproduced and altered in performing narrative The authors explain this strategic model through an extended discussion of

family storytelling using Franco Americans in Maine as their exemplar They explore what stories families tell how they tell them and how storytelling creates family identities Then they show the range and reach of this strategic model by examining storytelling in diverse contexts a breast cancer narrative a weblog on the Internet and an autobiographical performance on the public stage Readers are left with a clear understanding of how and why the performance of narrative is the primary communicative practice shaping our lives today

**Stories, Storytellers, and Storytelling** Tom Vine,Sarah Richards,2022-12-15 This book advances social scientific interest in a field long dominated by the humanities stories and storytelling Stories are a whole lot more than entertainment oral narratives novels films and immersive video games all form part of the sociocultural discourses which we are enmeshed in and use to co construct our beliefs about the world around us Young children use them to learn about the world beyond their immediate sensory experience and even in an era of interactive electronic media the bedtime story remains a cherished part of most children s daily routine Storytelling is thus the first abstract formal learning method we encounter as human beings It is also probably transcultural perhaps even an immanent part of the human condition Narratives are at heart sequences of events and presuppose and reinforce particular cause and effect relationships Inevitably they also construct unconscious biases prejudices and discriminatory attitudes Storying a term we use in this book to encompass stories storytellers and storytelling is complex and this book seeks to make sense of it
