Strabo Geography S 15 16:

Strabo's Geography Strabo, 2024-06-11 A lively new translation of Strabo's complete Geography an encyclopedic guide to the ancient world of the first century CE connecting it with the world of the twenty first century Strabo's Geography is an encyclopedic description of the ancient world as it appeared to a contemporary observer in the early Roman empire Information about taming elephants collecting saffron producing asphalt and practicing yoga is found alongside accounts of prostitution volcanic activity religious festivals and obscure eastern dynasties all set against the shifting backdrop of political power in the first century CE Traveling around the Mediterranean Strabo gathered knowledge of places and people supplementing his firsthand experiences with an immense amount of reading to create a sweeping chronicle that attempts to answer the implicit questions Who are we and Where do we come from Sarah Pothecary's new translation of Strabo's complete Geography makes this important work more accessible relevant and enjoyable than ever before Conveying the informal lively and almost journalistic style of Strabo's Greek this translation connects the ancient and modern worlds by providing modern names and maps for places mentioned in the text a generous page layout and marginal notes allowing readers to appreciate Strabo's work directly and immediately The result mimics what Strabo was doing two thousand years ago relating the rapidly changing present of his original readers to their own ancient past A remarkably modern translation of a revealing window on the ancient world this is essential reading for anyone interested in how we look at both antiquity and the world today

Babatha's Orchard Philip F. Esler, 2017-02-09 In 1961 archaeologists discovered a family archive of legal papyri in a cave near the Dead Sea where their owner the Jewish woman Babatha had hidden them in 135 CE at the end of the Bar Kokhba revolt Babatha's Orchard analyzes the oldest four of these papyri to argue that underlying them is a hitherto undetected and surprising train of events concerning how Babatha's father Shim'on purchased a date palm orchard in Maoza on the southern shore of the Dead Sea in 99 CE that he later gave to Babatha The central features of the story untold for two millennia relate to how a high Nabatean official had purchased the orchard only a month before but suddenly rescinded the purchase and how Shim'on then acquired it in enlarged form from the vendor Teasing out the details involves deploying the new methodology of archival ethnography combined with a fresh scrutiny of the papyri written in Nabatean Aramaic to investigate the Nabatean and Jewish individuals mentioned and their relationships within the social ethnic economic and political realities of Nabatea at that time Aspects of this context which are thrown into sharp relief by Babatha's Orchard include the prominence of wealthy Nabatean women and their husbands financial reliance on them the high returns and steep losses possible in date cultivation the sophistication of Nabatean law and lawyers the lingering effect of the Nabateans nomadic past in lessening the social distance between elite and non elite and the good ethnic relations between Nabateans and Jews

South Arabian Long-Distance Trade in Antiquity George Hatke,Ronald Ruzicka,2021-02-01 South Arabia is one of the least known parts of the Near East It is primarily due to its remoteness coupled with the difficulty of access that South Arabia remains so under explored In pre Islamic times however it was well connected to the rest of the world Due to its location at the crossroads of caravan and maritime routes pre Islamic South Arabia linked the Near East with Africa and the Mediterranean with India The region is unique in that it has a written history extending as far back as the early first millennium BCE a far longer history than that of any other part of the Arabian Peninsula The papers collected in this volume make a number of important contributions to the study of the history and languages of ancient South Arabia as well as the history of South Arabian studies and will be of interest to scholars and laypeople alike Geographers of the Ancient Greek World: Volume 1 D. The Geographical Guide of Ptolemy of Alexandria Duane W. Roller, 2023-12-15 This volume offers a detailed study of Ptolemy of Alexandria's Geographical Guide whose eight books contain a wealth of geographical information unavailable elsewhere and represent the culmination of the Greco-Roman discipline of geography Written near the middle of the second century AD the Geographical Guide is the most anomalous of the surviving works of ancient geographical scholarship but offers a vivid record of the expansion of geographical knowledge in antiquity Roller examines this peculiar text which offers unique data about explorations in the far reaches of the inhabited world from Thule and Hibernia in the northwest to Kattigara in the southeast and from Sericea in northeastern Asia southwest into central Africa He positions the Guide within the tradition of ancient geography and gives close attention to the reason why Ptolemy wrote the guide and how it contributes to the genre of geographical scholarship There is also an emphasis on the topographic and ethnic material within the Guide that is new or unique especially explorations in sub-Saharan Africa and knowledge of the world beyond India Because the Guide was written over half a century after the previous extant geographical work the first books of Pliny's Natural History the book also assesses how knowledge of geography changed during this period This work is an essential text for students and scholars of ancient geography and is also of interest to anyone working on the cultural history of the Roman Empire during this period

Berenike and the Ancient Maritime Spice Route Steven E. Sidebotham,2011-02-02 The legendary overland silk road was not the only way to reach Asia for ancient travelers from the Mediterranean During the Roman Empire s heyday equally important maritime routes reached from the Egyptian Red Sea across the Indian Ocean The ancient city of Berenike located approximately 500 miles south of today s Suez Canal was a significant port among these conduits In this book Steven E Sidebotham the archaeologist who excavated Berenike uncovers the role the city played in the regional local and global economies during the eight centuries of its existence Sidebotham analyzes many of the artifacts botanical and faunal remains and hundreds of the texts he and his team found in excavations providing a profoundly intimate glimpse of the people who lived worked and died in this emporium between the classical Mediterranean world and Asia *Inscriptions and Their Uses in Greek and Latin Literature* Peter Philip Liddel,Polly Low,2013-09-26 From the archaic period onwards ancient literary authors working within a range of genres discussed and quoted a variety of inscriptions This volume offers a wide ranging set of perspectives on the diversity of epigraphic material present in ancient literary texts and the variety of responses both ancient and modern which they can provoke Cultivating Nature Sarah R. Hamilton,2018-04-15 Winner of the 2019 Turku Book Award from the European Society for Environmental History The Albufera Natural Park an area ten kilometers south of Valencia that is widely regarded as the birthplace of paella has long been prized by residents and visitors alike Since the twentieth century the disparate visions of city dwellers farmers fishermen scientists politicians and tourists have made this working landscape a site of ongoing conflict over environmental conservation in Europe the future of Spain and Valencian identity In *Cultivating Nature* Sarah Hamilton explores the Albufera s contested lands and waters which have supported and

been transformed by human activity for a millennium in order to understand regional national and global social histories She argues that efforts to preserve biological and cultural diversity must incorporate the interests of those who live within heavily modified and long exploited ecosystems such as the Albufera de Valencia Shifting between local struggles and global debates this fascinating environmental history reveals how Franco's dictatorship Spain's integration with Europe and the crisis in European agriculture have shaped the Albufera its users and its inhabitants

The Children of Noah Raphael Patai, 2021-02-09 Here the late Raphael Patai 1910 1996 recreates the fascinating world of Jewish seafaring from Noah's voyage through the Diaspora of late antiquity In a work of pioneering scholarship Patai weaves together Biblical stories Talmudic lore and Midrash literature to bring alive the world of these ancient mariners As he did in his highly acclaimed book *The Jewish Alchemists* Patai explores a subject that has never before been investigated by scholars Based on nearly sixty years of research beginning with study he undertook for his doctoral dissertation *The Children of Noah* is literally Patai's first book and his last It is a work of unsurpassed scholarship but it is accessible to general readers as well as scholars An abundance of evidence demonstrates the importance of the sea in the lives of Jews throughout early recorded history Jews built ships sailed them fought wars in them battled storms in them and lost their lives to the sea Patai begins with the story of the deluge that is found in Genesis and profiles Noah the father of all shipbuilders and seafarers The sea according to Patai's interpretation can be seen as an image of the manifestation of God's power and he reflects on its role in legends and tales of early times The practical importance of the sea also led to the development of practical institutions and Patai shows how Jewish seafaring had its own culture and how it influenced the cultures of Mediterranean life as well Of course Jewish sailors were subject to the same rabbinical laws as Jews who never set sail and Patai describes how they went to extreme lengths to remain in adherence even getting special emendations of laws to allow them to tie knots and adjust rigging on the Sabbath *The Children of Noah* is a capstone to an extraordinary career Patai was both a careful scholar and a gifted storyteller and this work is at once a vivid history of a neglected aspect of Jewish culture and a treasure trove of sources for further study It is a stimulating and delightful book

Roman Conquests: Egypt & Judæa John D. Grainger, 2013-07-16 Egypt was the last of the Macedonian Successor states to be swallowed up by Roman expansion The Ptolemaic rulers had allied themselves to Rome while their rivals went down fighting However Cleopatra s famous love affair with Marc Antony ensured she was on the wrong side of the Roman civil war between him and Octavian later to become Caesar Augustus After the defeat of Antony and Cleopatra at the naval battle of Actium Octavian swiftly brought Egypt under direct Roman control though it took several campaigns to fully subjugate the whole country These campaigns have previously been largely neglected Judaea was a constant source of trouble for the Romans as it had been for the Seleucids the previous overlords of the region The Romans at first were content to rule through client kings like the infamous Herod but were increasingly sucked in to direct military involvement to suppress religiously inspired revolts John Grainger s clear narrative and insightful analysis of these campaigns allows the reader to understand how Rome eventually brought this strategically vital region fully within their empire
