The Lion and the Springbok Ronald Hyam,Peter Henshaw,2003-05-15 The Lion and the Springbok presents an account of the dynamics and divergences of the uneasy special relationship of Britain and South Africa From the bruising experience of the South African War 1899 1902 to South Africa's withdrawal from the Commonwealth in 1961 the authors chart this relationship in all its political economic cultural and geostrategic aspects All the major disputes are discussed including the struggle for the High Commission Territories the crisis over Seretse Khama's marriage and the transfer of the Simon's Town naval base These issues trace for the most part a continuing deterioration in relations as Afrikaner nationalist identity hardened and South African politics slid into the extremes of apartheid The perceptions each side had of the other after 1948 are examined through representations in the media and an epilogue considers the reasons for the return of the New South Africa to the Commonwealth in 1994

England's Response to Hitler in the 1930s David M. Valladares, 2023-05-05 This text explores the inner workings of the Cliveden Set Analysing the political tactics used by the group this book carefully unpicks the strategic moves played by aristocrats within 1930 s Britain Considered to be a scapegoat for Britain s Appeasement Policy by many historians the Cliveden Set utilized their influence to encourage a British foreign policy that supported Hitler s rearmament and the annexation of Austria and Czechoslovakia This book would be beneficial to all academics with a keen interest in politics history and social structures Researchers and historians will also enjoy the deep analysis of the dynamic created by this group The Cambridge History of South Africa: Volume 2, 1885-1994 Robert Ross, Anne Kelk Mager, Bill

Nasson, 2011-08-15 This book surveys South African history from the discovery of gold in the Witwatersrand in the late nineteenth century to the first democratic elections in 1994 Written by many of the leading historians of the country it pulls together four decades of scholarship to present a detailed overview of South Africa during the twentieth century It covers political economic social and intellectual developments and their interconnections in a clear and objective manner This book the second of two volumes represents an important reassessment of all the major historical events developments and records of South Africa and will be an important new tool for students and professors of African history worldwide as well as the basis for further development and research Empire, Incorporated Philip J. Stern, 2023-05-16 Brilliant ambitious and often surprising A remarkable contribution to the current global debate about Empire and a small masterpiece of research and conceptual reimagining William Dalrymple author of *The Anarchy* *The East India Company* *Corporate Violence* and *The Pillage of an Empire* An award winning historian places the corporation more than the Crown at the heart of British colonialism arguing that companies built and governed global empire raising questions about public and private power that were just as troubling four hundred years ago as they are today Across four centuries from Ireland to India the Americas to Africa and Australia British colonialism was above all the business of corporations Corporations conceived promoted financed and governed overseas expansion making claims over territory and peoples while ensuring that British and colonial society were invested quite literally in their ventures Colonial companies were also relentlessly controversial frequently in debt and prone to failure The corporation was well suited to overseas expansion not because it was an inevitable juggernaut but because like empire itself it was an elusive contradiction public and private person and society subordinate and autonomous centralized and diffuse immortal and precarious national and cosmopolitan a legal fiction with very real power Breaking from traditional histories in which corporations take a supporting role by doing the dirty work of sovereign states in exchange for commercial monopolies Philip Stern argues that corporations took the lead in global expansion and administration Whether in sixteenth century Ireland and North America or the Falklands in the early 1980s corporations were key players And as *Empire Incorporated* makes clear venture colonialism did not cease with the end of empire Its legacies continue to raise

questions about corporate power that are just as relevant today as they were 400 years ago Challenging conventional wisdom about where power is held on a global scale Stern complicates the supposedly firm distinction between private enterprise and the state offering a new history of the British Empire as well as a new history of the corporation

Chinese Labour in South Africa, 1902-10 R. Bright, 2013-11-01 This book explores the decision of the British Empire to import Chinese labour to southern Africa despite the already tense racial situation in the region It enables a clearer understanding of racial and political developments in southern Africa during the reconstruction period and places localised issues within a wider historiography

Forestry and Water Conservation in South Africa Brett Bennett, Fred Kruger, 2015-11-11 This innovative interdisciplinary study focuses on the history science and policy of tree planting and water conservation in South Africa South Africa's forestry sector has sat often controversially at the crossroads of policy and scientific debates regarding water conservation economic development and biodiversity protection Bennett and Kruger show how debates about the hydrological impact of exotic tree planting in South Africa shaped the development of modern scientific ideas and state policies relating to timber plantations water conservation invasive species control and biodiversity management within South Africa as well as elsewhere in the world *Forestry and Water Conservation in South Africa* shows how scientific research on the impact of exotic and native vegetation led to the development of a comprehensive national policy for conserving water producing timber and protecting indigenous species from invasive alien plants Policies and laws relating to forests and water began to change in the late 1980s and early 1990s as a result of political and administrative changes within South Africa This book suggests that the country's contemporary policies towards timber plantations guided by the National Water Act of 1998 need to be reconsidered in light of the authors findings Bennett and Kruger also call for more interdisciplinary research and greater emphasis on integrated policies and management plans for forestry invasive alien plants water conservation and biodiversity preservation

White Men's Dreams, Black Men's Blood Christopher M. Paulin, 2001 This book contends that one of the primary motivations of British colonialism in southern Africa at the end of the 19th century was to create a cheap readily available supply of African labour through conquest dispossession taxation and the creation of native reserves or locations doing everything in its power to reduce southern Africa's indigenous population to wage earners dependent on Europeans for their survival In doing so they laid the foundation for apartheid in the 20th century

The Imperial Horizons of British Protestant Missions, 1880-1914 Andrew N. Porter, 2003 Christian missions have long been associated with the growth of empire and colonial rule For just as long the nature and consequences of that association have provoked animated debate over such themes as culture and identity This volume brings together studies of changing attitudes and practices in Protestant missions during the hectic decades of European imperial and territorial expansion between 1880 and 1914 Written by acknowledged experts *The Imperial Horizons of British Protestant Missions* includes chapters on the imperial and ecclesiastical ambitions of the high church Society for the Propagation of the Gospel the role of empire as an arena for
