Art for Equality Jenny Woodley, 2014-06-17 A study of the NAACP's activism in the cultural realm through creative projects from 1910 to the 1960s The National Association for the Advancement of Colored People NAACP is the nation's oldest civil rights organization having dedicated itself to the fight for racial equality since 1909 While the group helped achieve substantial victories in the courtroom the struggle for civil rights extended beyond gaining political support It also required changing social attitudes The NAACP thus worked to alter existing prejudices through the production of art that countered racist depictions of African Americans focusing its efforts not only on changing the attitudes of the White middle class but also on encouraging racial pride and a sense of identity in the Black community Art for Equality explores an important and little studied side of the NAACP's activism in the cultural realm In openly supporting African American artists writers and musicians in their creative endeavors the organization aimed to change the way the public viewed the Black community By overcoming stereotypes and the belief of the majority that African Americans were physically intellectually and morally inferior to Whites the NAACP believed it could begin to defeat racism Illuminating important protests from the fight against the 1915 film *The Birth of a Nation* to the production of anti lynching art during the Harlem Renaissance this insightful volume examines the successes and failures of the NAACP's cultural campaign from 1910 to the 1960s Exploring the roles of gender and class in shaping the association's patronage of the arts Art for Equality offers an in depth analysis of the social and cultural climate during a time of radical change in America Praise for Art for Equality A well conceived and well executed study that will add significantly to the historiography of the NAACP the long civil rights movement and African American history John Kirk George W Donaghey Professor and Chair of the History Department at the University of Arkansas at Little Rock In this insightful book Woodley writes with great verve and confidence As a result Art for Equality will attract readers in a variety of fields from African American history to art history to American political history Matthew Pratt Guterl Brown University A necessary contribution to African American social and cultural histories *Journal of Southern History*

Thompson, 2023-12-11 In this book Lisa B. Thompson explores the representation of black middle class female sexuality by African American women authors in narrative literature drama film and popular culture showing how these depictions reclaim black female agency and illustrate the difficulties black women confront in asserting sexual agency in the public sphere Thompson broadens the discourse around black female sexuality by offering an alternate reading of the overly determined racial and sexual script that casts the middle class black lady as the bastion of African American propriety Drawing on the work of black feminist theorists she examines symptomatic autobiographies novels plays and key episodes in contemporary American popular culture including works by Anita Hill Judith Alexa Jackson P. J. Gibson Julie Dash Kasi Lemmons Jill Nelson Lorene Cary and Andrea Lee **The Cambridge Companion to Modernist Women Writers** Maren Tova Linett, 2010-09-23 Women played a central role in literary modernism theorizing debating writing and publishing the critical and imaginative work that resulted in a new literary culture during the early twentieth century This volume provides a thorough overview of the main genres the important issues and the key figures in women's writing during the years 1890-1945 The essays treat the work of Woolf Stein Cather H. Prentiss, 2014 Lively descriptions compelling analysis and careful attention to historical contexts Judith Weisenfeld author of *Hollywood Be Thy Name* Methodically and brilliantly probes the nuances One of the most brilliant and engaging studies on African American theater David Krasner author of *A Beautiful Pageant* *Reading for Reform* Laura R. Fisher, 2019-03-05 An unprecedented examination of class bridging reform and U.S. literary history at the turn of the twentieth century *Reading for Reform* rewrites the literary history of late nineteenth and early twentieth century America by putting social reform institutions at the center of literary and cultural analysis Examining the vibrant often fractious literary cultures that developed as part of the Progressive mandate to uplift the socially disadvantaged it shows that in these years reformers saw literature as a way to combat the myriad social problems that plagued modern U.S. society As they developed distinctly literary methods for Americanizing immigrants uplifting and refining wage earning women and educating black students their institutions gave rise to a new social purpose for literature Class bridging reform institutions the urban settlement house working girls club and African American college are rarely addressed in literary history Yet Laura R. Fisher argues they engendered important experiments in the form and social utility of American literature from minor texts of Yiddish drama

and little known periodical and reform writers to the fiction of Edith Wharton and Nella Larsen Fisher delves into reform's vast and largely unexplored institutional archives to show how dynamic sites of modern literary culture developed at the margins of social power Fisher reveals how reformist approaches to race class religion and gender formation shaped American literature between the 1880s and the 1920s In doing so she tells a new story about the fate of literary practice and the idea of literature's practical value during the very years that modernist authors were proclaiming art's autonomy from concepts of social utility

Unnatural Selections Daylanne K. English, 2005-12-15

Challenging conventional constructions of the Harlem Renaissance and American modernism Daylanne English links writers from both movements to debates about eugenics in the Progressive Era She argues that in the 1920s the form and content of writings by figures as disparate as W E B Du Bois T S Eliot Gertrude Stein and Nella Larsen were shaped by anxieties regarding immigration migration and intraracial breeding English's interdisciplinary approach brings together the work of those canonical writers with relatively neglected literary social scientific and visual texts She examines antilynching plays by Angelina Weld Grimke as well as the provocative writings of white female eugenics field workers English also analyzes the Crisis magazine as a family album filtering uplift through eugenics by means of photographic documentation of an ever improving black race English suggests that current scholarship often misreads early twentieth century visual literary and political culture by applying contemporary social and moral standards to the past Du Bois she argues was actually more of a eugenicist than Eliot Through such reconfiguration of the modern period English creates an allegory for the American present because eugenics was in its time widely accepted as a reasonable progressive ideology we need to consider the long term implications of contemporary genetic engineering fertility enhancement and control and legislation promoting or discouraging family growth
