*Interracial Lovers in Revolutionary China* D. E. Mungello, 2023-07-14 In the twentieth century, China underwent a monumental dynastic change and was transformed from an outmoded monarchy into a modern communist state. This century of revolutionary change was marked by political upheaval and social chaos. It was a period in which Chinese began to go abroad to study and conduct business while foreigners came to China for economic opportunity and adventure. In the process, Chinese and foreigners began to meet and form romantic relationships. These love affairs, *fengliu yunshi*, are notable because they coincided with the last phase of Western imperialism, including its lingering racial prejudices and even laws against interracial sexual relationships. Conversely, in China, there were periodic outbreaks of hostility and violence against foreigners. This book explores the interracial relationships of twenty-two people who transcended these obstacles to cross color lines and fall in love.

*A Study on the Influence of Ancient Chinese Cultural Classics Abroad in the Twentieth Century* Xiping Zhang, 2022-03-28 This book presents an extensive literary survey of the influence of ancient Chinese cultural classics around the globe, highlighting a mammoth research project involving over forty countries or regions and more than twenty languages. As the book reveals, ancient Chinese culture was introduced to East Asian countries or regions very early on; furthermore, after the late Ming Dynasty, Chinese knowhow and ideas increasingly made inroads into the West. In particular, the translation of and research on Chinese classics around the world have enabled Chinese culture to take root and blossom on an unprecedented scale. In addition to offering a valuable resource for readers interested in culture, the social sciences, and philosophy, the book blazes new trails for the study of ancient Chinese culture.

*A Cultural History of Civil Examinations in Late Imperial China* Benjamin A. Elman, 2000-03-22 In this multidimensional analysis, Benjamin A. Elman uses over a thousand newly available examination records from the Yuan, Ming, and Qing dynasties (1315-1904) to explore the social, political, and cultural dimensions of the civil examination system, one of the most important institutions in Chinese history. For over five hundred years, the most important positions within the dynastic government were usually filled through these difficult examinations, and every other year, some one to two million people from all levels of society attempted them. Covering the late imperial system from its inception to its demise, Elman revises our previous understanding of how the system actually worked, including its political and cultural machinery, the unforeseen consequences when it was unceremoniously scrapped by modernist reformers, and its long-term historical legacy. He argues that the Ming-Qing civil examinations from 1370 to 1904 represented a substantial break with Tang-Song dynasty literary examinations from 650 to 1250. Late imperial examinations also made Tao Learning, Neo-Confucian learning, the dynastic orthodoxy in official life and in literati culture. The intersections between elite social life, popular culture, and religion that are also considered reveal the full scope of the examination process.
