Stranger on the Earth Albert J. Lubin, 1996 *Insanity and Genius* Harry Eiss, 2014-06-02 In his book about the discovery of the structure of DNA James Watson wrote So we had lunch telling ourselves that a structure this beautiful just had to exist Indeed the quest most often asked by scientists about a scientific theory is Is it beautiful Yes beauty equals truth Scientists know mathematicians know But the beauties the truths of mathematics and science were not the truths that inspired the author as a child and he intuitively knew that the truths he needed come from a different way of knowing a way of knowing not of the world of logic and reason and explanation though they have a value but rather a way of knowing that is of the world expression a world that enters the truths beyond the grasp of logic That is what this book is all about It is an exploration of the greatest minds of human existence struggling to understand the deepest truths of the human condition This second edition updates the previous one incorporating new publications on Van Gogh recent discoveries in neurology psychology and the rapid developments in understanding DNA and biotechnology We ve come a long way already from that original discovery by Watson and his coauthor Francis Crick

Christ of the Coal Yards Harry Eiss, 2010-02-19 No one heard the shot No one ever found the gun It was Sunday July 27 1890 Vincent had recently finished *Wheatfield with Crows* thought to be his final painting one that he described as representing vast fields of wheat beneath troubled skies one where he said in a letter he meant to send to Theo I did not need to go out of my way to try to express cheerlessness and extreme loneliness The letter never got sent but was found stuffed in his smock That morning as usual he walked out into the wheat fields with his easel brushes tubes of color and folding stool perhaps hoping to reach his destination before the gang of local boys and girls were up and able to tease him and throw tomatoes Le Crau a wide plain of ripe grain fields of citron yellow tan and ochre spread out beneath the bright Provencal sun It s safe to assume he heard the cicadas singing loudly the swiping swishes of the farmers scythes already cutting through the rich wheat stalks the gusts of wind whispering through the olive branches Driven and filled with energy for months he had been quickly with an assurance that overcame and perhaps even came from his doubts and struggles putting his own dramatic visions on canvas after canvas But today he did not go into the fields to paint or perhaps in the beginning he did perhaps in the morning that was his intention No one will ever know He said he brought the revolver to frighten off the crows Possibly that was his original intention when he included it with his lunch of bread and milk In the end it s probably not relevant except for the endless attempts to analyze him to dig into his complex psyche at once brilliant and yet impelled to self destruction The Ravoux family were sitting on the terrace of their caf when he returned a bit concerned because he was late but not overly so When he finally appeared his walk was more uneven than usual and he held his hand over his stomach Monsieur Vincent Mrs Ravoux said we were worried we are glad to see you come Has anything bad happened No but I he left his reply unfinished as he passed inside Mr Ravoux followed him upstairs where he found him sitting on his bed facing the wall I wanted to kill myself This book is a critical examination of Vincent van Gogh that offers insights into his life his religious beliefs his relationships with women and of course his paintings It includes discussions of his letters and responds to many of the previous works about him dispelling some of the myths that have no foundation and pointing out how many of the claims made about him and many of the popular beliefs that have grown up around him are at best guesswork It explores psychological neurological theological philosophical aesthetic and historical paradigms for comprehending his enigmatic and enticing personality

The Letters of Vincent van Gogh Patrick Grant, 2014-05-01 When he died at the age of thirty seven Vincent van Gogh left a legacy of over two thousand artworks for which he was justly famous But van Gogh was also a prodigious writer of letters more than eight hundred of them addressed to his parents to friends such as Paul Gauguin and above all to his brother Theo His letters have long been admired for their exceptional literary quality and art historians have sometimes drawn on some of the letters in their analysis of the paintings And yet to date no one has undertaken a critical assessment of this remarkable body of writing not as a footnote to the paintings but as a highly sophisticated literary achievement in its own right Patrick Grant s long awaited study provides such an assessment and as such redresses a

significant omission in the field of van Gogh studies As Grant demonstrates quite apart from furnishing a highly revealing self portrait of their author the letters are compelling for their imaginative and expressive power as well as for the perceptive commentary they offer on universal human themes Through a subtle exploration of van Gogh s contrastive style of thinking and his fascination with the notion of imperfection Grant illuminates gradual shifts in van Gogh s ideas on religion ethics and art He also analyzes the metaphorical significance of a number of key images in the letters which prove to yield unexpected psychological and conceptual connections and probes the relationships that surface when the letters are viewed as a cohesive literary product The result is a wealth of new insights into van Gogh s inner landscape *The Biography Book*

Art Without Borders Ben-Ami Scharfstein,2009-08-01 People all over the world make art and take pleasure in it and they have done so for millennia But acknowledging that art is a universal part of human experience leads us to some big questions Why does it exist Why do we enjoy it And how do the world s different art traditions relate to art and to each other Art Without Borders is an extraordinary exploration of those questions a profound and personal meditation on the human hunger for art and a dazzling synthesis of the whole range of inquiry into its significance Esteemed thinker Ben Ami Scharfstein s encyclopedic erudition is here brought to bear on the full breadth of the world of art He draws on neuroscience and psychology to understand the way we both perceive and conceive of art including its resistance to verbal exposition

Through examples of work by Indian Chinese European African and Australian artists *Art Without Borders* probes the distinction between accepting a tradition and defying it through innovation which leads to a consideration of the notion of artistic genius Continuing in this comparative vein Scharfstein examines the mutual influence of European and non European artists Then through a comprehensive evaluation of the world's major art cultures he shows how all of these individual traditions are gradually but haltingly conjoining into a single current of universal art Finally he concludes by looking at the ways empathy and intuition can allow members of one culture to appreciate the art of another Lucid learned and incomparably rich in thought and detail *Art Without Borders* is a monumental accomplishment on par with the artistic achievements Scharfstein writes about so lovingly in its pages *Vincent Van Gogh* Jan Greenberg, Sandra Jordan, 2009-02-04 *Vincent Van Gogh Portrait of an Artist* was named a Robert F Sibert Honor book by the ALA This is the enthralling biography of the nineteenth century Dutch painter known for pioneering new techniques and styles in masterpieces such as *Starry Night* and *Vase with Sunflowers* The book cites detailed primary sources and includes a glossary of artists and terms a biographical time line notes a bibliography and locations of museums that display Van Gogh's work It also features a sixteen page insert with family photographs and full color reproductions of many of Van Gogh's paintings *Vincent Van Gogh* was named an ALA Notable Book and an ALA Best Book for Young Adults and has been selected as a Common Core State Standards Text Exemplar Grades 6-8 Historical Social Studies in Appendix B *Psychology's Grand Theorists* Amy P. Life and Art James W. Hamilton, 2018-04-19 In this volume an inquiry into the nature of the creative process is attempted by paying close attention to the lives of various artists poets novelists and playwrights and selected works of each in order to demonstrate an essential relationship between the two and that it is most difficult to delineate the nuances of the creative act by treating them as separate entities Emphasis is placed upon the effect of early trauma such as object loss and various forms of deprivation as a powerful unconscious motivating factor and upon the dream and transitional object as facilitators of the creative effort

Van Gogh and the Art of Living Anton Wessels, 2013-08-09 Vincent van Gogh believed that one had to learn to read just as one had to learn to see and learn to live Van Gogh conveyed a message in his work about the path that he himself followed that was more true to life the path that human beings walk in their turbulent existence the pilgrimage along the various stages of the road of life He does not speak about the meaning of life but about the true art of living It is fascinating to see and read the moving way in which he wrestled with the deep human questions of the whence why and whither of life He did not see himself doing this on his own but acknowledged kindred spirits and allies in preachers preacher poets painters writers and other artists who also attempted to find their own way through life in a similar fashion Van Gogh was aware like no other of his duty and task in life his vocation as human being and artist That means that he was well acquainted with loneliness fear and despair including suicidal tendencies Nevertheless he understood himself as cut out for faith rather than resignation Human beings follow their life's path through storms and dangers on land and on sea where the star of the sea the Virgin Mary helps them and provides light Van Gogh rejected the unhealthy sickly forms of religion electing instead to embrace authentic forms of piety
