The gospel pulpit. Republ Joseph Charles Philpot, 1899 **Heterogeneity** Tobias Werler, 2012 It is true that modern teaching is faced with heterogeneous students Ironically this is not a recent development students have always been different Consequently there is a broad discourse on heterogeneity in education On the normative level of meta narratives about modern democracy one will find the idea that more and more people have to be included in the modern welfare state Nevertheless before talking about inclusion one has to deal with the mechanisms of exclusion if one is interested in the phenomenon of heterogeneity At the heart of it one will find the debate on the meaning of differences between students from an age group and their implications for school based learning Even more basically Didaktik has to give a response on the dilemma arising of balancing individual and collective modes of teaching However Didaktik theory speaks in the singular and in the light of normality It normally speaks of generalized homogenized students axis constructions and vertexes in the singular denying their heterogeneity. How can the teacher's relation to this simultaneous heterogeneity be carried out in a justified way The central idea of the book is to explore whether this professional Didaktik challenge can be studied through the concept of the others strangeness This volume analyzes the constructions of heterogeneity in pedagogy based on the leitmotif of the stranger In doing so the stranger is seen as a didactic key The book shows that there is a necessity to understand the filter of strangeness otherness Beyond that it elaborates criteria for establishing the filter and didactically relevant mechanisms of this filter **Sermons ... The Guardians on Trial William H. F. Altman, 2016-07-19 Based on a conception of Reading Order introduced and developed in his Plato the Teacher The Crisis of the Republic Lexington 2012 and The Guardians in Action Plato the Teacher and the Post Republic Dialogues from Timaeus to Theaetetus Lexington 2016 William H F Altman now completes his study of Plato s so called late dialogues by showing that they include those that depict the trial and death of Socrates According to Altman it is not Order of Composition but Reading Order that makes Euthyphro Apology of Socrates Crito and Phaedo late dialogues and he shows why Plato s decision to interpolate the notoriously late Sophist and Statesman between Euthyphro

Text and Supertext in Ibsen's Drama Brian Johnston, 1989-01-01 Brian Johnston's approach to Ibsen now well known is unlike any other Johnston sees Ibsen's twelve realist plays as a single cyclical work the realist method of which hides a much larger poetic intention than has previously been suspected He believes that the cycle constitutes one of the major works of the European imagination comparable in scale to Goethe or Dante And he has shown Ibsen to be the heir to Romantic and Hegelian art and thought adapting this heritage to the circumstances of his own day This work demonstrates how the language and scene characters and props of the Ibsen dramas establish a bold and far reaching theatrical goal nothing less than an account of our biological and cultural identity in its multilayered totality Johnston argues that Ibsen's realist text while stimulating the appearance of nineteenth century life also objectively and precisely builds up an alternative image in which archetypal figures and situations from our cultural past repossess the realist stage. Thus he sees the Ibsen strategy in his realist plays as twofold 1 the dialectical subversion of the nineteenth century reality presented in the plays and 2 the forced recovery of the archetypal from the past in a procedure similar to James Joyce s in Ulysses By supertext Johnston means a reservoir of cultural reference upon which Ibsen continuously drew in his realist work just as in is earlier poetic and historical dramas Brian Johnston is Chief Editor of Theater Three He is the author of The Ibsen Cycle and To the Third Empire and is Visiting Professor Department of Drama Carnegie Mellon University World's Greatest Classics in One Volume Herman Hesse, Marcel Proust, Leo Tolstoy, Friedrich Nietzsche, Dante, Henrik Ibsen, Fyodor Dostoyevsky, Confucius, William Makepeace Thackeray, P. to this effort is its unusual utilization of the phenomenological tradition from Simmel to Schutz to Berger and Luckmann along with recent efforts in organization and negotiation theory from Blau to Goffman in order to explicate this massive data A special element in this volume is the central place accorded to voluntarism in an open culture For Mittelberg membership in the Kibbutz is at its core a voluntary act of individuals who commit their lives or a portion thereof to a collective movement in a strange land This is a study then in intentional communities rather than Utopian organizations The synthesis of the concrete and the abstract the empirical and the theoretical will establish Mittelberg s volume as a new standard in Kibbutz studies
