Stranger With A Gun:

Rethinking Homicide Terance D. Miethe, Wendy C. Regoeczi, Kriss A. Drass, 2004-01-19 Using multiple data sources and methods this book involves a micro historical analysis of the nature of change and stability in homicide situations over time It focuses on the homicide situation as the unit of analysis and explores similarities and differences in the context of homicide for different social groups For example using Qualitative Comparative Analysis we investigate whether various social groups e g men vs women teenagers vs adults strangers vs intimates Blacks vs Whites kill under qualitatively different circumstances and if so what are the characteristics of these unique profiles The analysis of over 400 000 US homicides is supplemented with qualitative analysis of narrative accounts of homicide events to more fully investigate the structure and process underlying these lethal situations Our findings of unique and common homicide situations across different time periods and social groups are then discussed in terms of their implications for criminological theory and public policy **A**
