The Discourse of Exile in Early Modern English Literature J. Seth Lee, 2017-12-06 This volume examines the literary works of English exiles seeking to navigate what Edward Said calls the perilous territory of not belonging. The study opens by asking: How did exile impact the way an early modern writer defined and constructed their personal and national identity? In seeking an answer, the project traces the development of the mind of exile, a textual phenomenon that manifests as an exiled figure whose departure and return restructures a stable traditional center of socio-political power, a narrative where a character, an author, a reader, or some combination of the three experiences a type of cognitive displacement resulting in an epiphany that helps define a sense of self or national identity and narratives that write and rewrite historical narratives to reimagine boundaries of national identity, either towards or away from exiled groups or individuals. The study includes case studies from a variety of authors and groups: Geoffrey Chaucer, Edmund Spenser, the Wycliffites, the Marian Exiles, and their Elizabethan Catholic counterparts, to provide a clearer understanding of exile as an important part of the development of a modern English national identity. Reading exilic texts through this lens offers a fresh approach to early modern narratives of marginalization while examining and clarifying the importance of the individual experience of exile filtered through literary consciousness.

Identity and Marginality in India Anwesha Ghosh, 2018-12-07 Decades of conflict and war have forced millions of men, women, and children to flee from their homes and seek refuge in other parts of the country or in foreign lands. Afghanistan is one such country. This book is a study of the displaced Afghan migrant population in India, in particular the persecuted Sikhs and Hindus who are religious minorities in Afghanistan and make up a majority of Afghan migrants in India. It explores the relationship between acculturation and identity development. By focusing on the interactions between the Afghan immigrant population and the Indian society, the author analyses how the community negotiates identity and marginality in a country that does not recognize them as refugees. The author explains how the Afghan migrant population manages and negotiates various identities bestowed upon them by the societies in their home and host countries in their day-to-day existence in India. An important study of acculturation and adaptation issues of migrant groups in the setting of a developing country, this book will be of interest to academics in the field of refugee and migration studies, ethnography of ethnic identity, and Middle East and South Asian Studies.

Calvinism and the Making of the European Mind, 2014-09-18 Calvinism must be assigned a significant place among the forces that have shaped modern European culture. Even now, despite its history of religious fragmentation and secularization, Europe continues to bear the marks of a pervasive Calvinist ethos. The character of that ethos is, however, difficult to pin down. In this volume, many of the traditional scholarly conundrums about the relationship

between Calvinism and the cultural history of Europe are revisited and re investigated to see what new light can be shed on them For example how has the ethos of Calvinism or more broadly the Reformed tradition affected economic thinking and practice the development of the sciences views on religious toleration or the constitution of European polities In general what kind of transformations did Calvinism s distinct spirituality bring about Such questions demand painstaking and detailed scholarly work a fine sample of which is published in this volume A Theology as Big as the City Raymond J Bakke,2025-07-29 As we look at the world class cities around our planet we face five new urban realities a crack cocaine epidemic assault weapons massive numbers of homeless children HIV AIDS and in the U S what Time magazine has called the browning of America The needs of the urban population are greater than ever As our cities swell with immigrants I m reminded that Jesus was born in a borrowed barn in Asia and became an African refugee in Egypt so the Christmas story is about an international migrant Furthermore a whole village full of baby boys died for Jesus before he had the opportunity to die for them on the cross Surely this Jesus understands the pain of children who die for the sins of adults in our cities How does God see the city What does Scripture have to say about urban ministry These are the questions Ray Bakke has systematically addressed beginning with Genesis and continuing through to Revelation Here is a biblical theology that will constantly surprise and challenge as you get a glimpse of how big God s view of the city really is **The Assyrian**

Genocide Hannibal Travis,2017-07-20 For a brief period the attention of the international community has focused once again on the plight of religious minorities in Iraq Syria and Turkey In particular the abductions and massacres of Yezidis and Assyrians in the Sinjar Mosul Nineveh Plains Baghdad and Hasakah regions in 2007 2015 raised questions about the prevention of genocide This book while principally analyzing the Assyrian genocide of 1914 1925 and its implications for the culture and politics of the region also raises broader questions concerning the future of religious diversity in the Middle East It gathers and analyzes the findings of a broad spectrum of historical and scholarly works on Christian identities in the Middle East genocide studies international law and the politics of the late Ottoman Empire as well as the politics of the Ottomans British and Russian rivals for power in western Asia and the eastern Mediterranean basin A key question the book raises is whether the fate of the Assyrians maps onto any of the concepts used within international law and diplomatic history to study genocide and group violence In this light the Assyrian genocide stands out as being several times larger in both absolute terms and relative to the size of the affected group than the Srebrenica genocide which is recognized by Turkey as well as by international tribunals and organizations Including its Armenian and Greek victims the Ottoman Christian Genocide rivals the Rwandan Bengali and Biafran genocides The book also aims to explore the impact of the genocide period of 1914 1925 on the development or partial unraveling of Assyrian group cohesion including aspirations to autonomy in the Assyrian areas of northern Iraq northwestern Iran and southeastern Turkey Scholars from around the world have collaborated to approach these research questions by reference to diplomatic and political archives international legal
