Memories of the Slave Trade Rosalind Shaw, 2020-04-04 How is the slave trade remembered in West Africa In a work that challenges recurring claims that Africans felt and still feel no sense of moral responsibility concerning the sale of slaves Rosalind Shaw traces memories of the slave trade in Temne speaking communities in Sierra Leone While the slave trading past is rarely remembered in explicit verbal accounts it is often made vividly present in such forms as rogue spirits ritual specialists visions and the imagery of divination techniques Drawing on extensive fieldwork and archival research Shaw argues that memories of the slave trade have shaped and been reshaped by experiences of colonialism postcolonialism and the country's ten year rebel war Thus money and commodities for instance are often linked to an invisible city of witches whose affluence was built on the theft of human lives These ritual and visionary memories make hitherto invisible realities manifest forming a prism through which past and present mutually configure each other

Making A Voice Joyce F Kirk, 2018-02-19 Since apartheid's dissolution in the early 1990s and its formal abolishment in

April 1994 there has been increasing interest in the early history of African struggles against segregation and apartheid This book focuses on the resistance to segregation in the eastern cape town of Port Elizabeth long known for its tradition of political protest Joyce Kirk presents a detailed study of men and women in South Africa as they sought to create their own space and voice within the emerging urban areas of nineteenth and early twentieth century South Africa Since apartheids dissolution in the early 1990s and its formal abolishment in April 1994 there has been increasing interest in the early history of African struggles against segregation and apartheid This book focuses on the resistance to segregation in the eastern cape town of Port Elizabeth long known for its tradition of political protest Joyce Kirk presents a detailed study of men and women in South Africa as they sought to create their own space and voice within the emerging urban areas of nineteenth and early twentieth century South Africa South Africa explores the roots of the tradition of resistance among members of the emergent African working and middle class who were much earlier than hitherto realized living permanently in the growing urban areas Also examined are the changing ideological economic and political forces that influenced the colonial government to pursue legislation aimed at depriving Africans of land housing and property in the towns as well as political rights and freedom of movement Finally Kirk identifies the ways Africans challenged the governments attempt to use public health laws to impose residential segregation the factors that undermined the largely political alliance between whites and blacks in the Cape colony and the role African women played in challenging racial segregation

The World in Guangzhou Gordon Mathews,,Linessa Dan Lin,Yang Yang,2017-11-16 Only decades ago the population of Guangzhou was almost wholly Chinese Today it is a truly global city a place where people from around the world go to make new lives find themselves or further their careers A large number of these migrants are small scale traders from Africa who deal in Chinese goods often knockoffs or copies of high end branded items to send back to their home countries In The World in Guangzhou Gordon Mathews explores the question of how the city became a center of low end globalization and shows what we can learn from that experience about similar transformations elsewhere in the world Through detailed ethnographic portraits Mathews reveals a world of globalization based on informality reputation and trust rather than on formal contracts How he asks can such informal relationships emerge between two groups Chinese and sub Saharan Africans that don t share a common language culture or religion And what happens when Africans move beyond their status as temporary residents and begin to put down roots and establish families Full of unforgettable characters The World in Guangzhou presents a compelling account of globalization at ground level and offers a look into the future of urban life as transnational connections continue to remake cities around the world

The Handbook of Research on Black Males Theodore S. Ransaw,C.P. Gause,Richard Majors,2018-11-01 Drawing from the work of top researchers in various fields The Handbook of Research on Black Males explores the nuanced and multifaceted phenomena

known as the black male. Simultaneously hyper visible and invisible black males around the globe are being investigated now more than ever before however many of the well meaning responses regarding media attention paid to black males are not well informed by research. Additionally not all black males are the same and each of them have varying strengths and challenges making one size fits all perspectives unproductive. This text which acts as a comprehensive tool that can serve as a resource to articulate and argue for policy change suggest educational improvements and advocate judicial reform fills a large void. The contributors from multidisciplinary backgrounds focus on history research trends health education criminal and social justice hip hop and programs and initiatives. This volume has the potential to influence the field of research on black males as well as improve lives for a population that is often the most celebrated in the media and simultaneously the least socially valued.

The Responsibility to Protect in International Law Natalie Oman, 2019-12-06 This book tracks the development of the emerging international legal principle of a responsibility to protect over the past two decades. It contrasts the influential version of the principle introduced by the International Commission on Intervention and State Sovereignty in 2001 with subsequent interpretations of the responsibility to protect advocated by the United Nations through its human protection agenda and reviews the dangers and inconsistencies inherent in both perspectives. The author demonstrates that the evolving responsibility to protect principle can be recruited to support a wide range of irreconcilable projects from those of cosmopolitan constitutionalism to those of hegemonic international law. However despite the dangers posed by this susceptibility to conceptual hijacking Oman argues that the responsibility to protect like human rights is an essential a modern emancipatory formation. To remedy this dangerous malleability the author advocates a third distinctive interpretation of the responsibility to protect designed to limit its cooptation by liberal anti pluralist and hegemonic international law agendas. Oman outlines the key features of such a minimalist conception and explores its fit with the RtoP version of the responsibility to protect promoted in recent years by the UN. The author argues that two crucial features missing from the UN reading of the principle should be developed in future an acknowledgement of the role of non state actors as bearers of the responsibility to protect and a recognition of the principle's legal character. Both of these aspects of the principle offer means to democratize the international law making enterprise.
