Taking Liberties A Decade Of Hard Cases Bad Laws And Bum Raps:

Taking Liberties Alan M. Dershowitz, 1989 The noted Harvard scholar presents provocative commentary on tough legal issues drawn from real cases including vigilantism vs self defense the rights of the press and considering Supreme Court nominees

The Case for Liberalism in an Age of Extremism Alan Dershowitz, 2020-05-26 Maybe the question isn't what happened to Alan Dershowitz Maybe it's what happened to everyone else Politico In The Case for Liberalism in an Age of Extremism Alan Dershowitz New York Times bestselling author and one of America's most respected legal scholars makes a classical liberal argument for centrist government in the US as the Founding Fathers and the Constitution intended Alan Dershowitz has been called one of the most prominent and consistent defenders of civil liberties in America by Politico and the nation's most peripatetic civil liberties lawyer and one of its most distinguished defenders of individual rights by Newsweek Yet he has come under intense criticism for his consistent classical liberalism in the face of a rapidly polarizing political landscape and for his steadfast support of centrist governance over either progressive or reactionary radicalism The Case for Liberalism in an Age of Extremism is a defense of liberalism and its renewed relevance today It makes the case for classic liberal values and programs over radical left and reactionary right wing agendas and for centrism over extremism in general showing why the United States has thrived throughout history because of its enduringly centrist base It seeks to restore contemporary liberalism to its important place in the American political landscape and attempts to persuade centrists from both the left and right who may today call themselves progressives or moderate conservatives that they too belong in the big tent of centrist liberalism As a professor for half a century Dershowitz never told students what values to accept or which candidates to support but helped guide them to conclusions based on their own sets of values He does the same in this book A guide for all readers rather than a piece of political advocacy for one party or another The Case for Liberalism in an Age of Extremism is Alan Dershowitz's argument for classical liberal values and their role in forming just societies and protecting against the dangers of extremism just as they must today It is essential reading for anyone interested in or concerned about political polarization on both the far right and left and for everyone seeking a middle path between the extremes

Case Against the New Censorship Alan Dershowitz, 2021-04-20 In The Case Against the New Censorship Protecting Free Speech from Big Tech Progressives and Universities Alan Dershowitz New York Times bestselling author and one of America's most respected legal scholars analyzes the current regressive war against freedom of speech being waged by well meaning but dangerous censors and proposes steps that can be taken to defend reclaim and strengthen freedom of speech and other basic liberties that are under attack Alan Dershowitz has been called one of the most prominent and consistent defenders of civil liberties in America by Politico and the nation's most peripatetic civil liberties lawyer and one of its most distinguished defenders of individual rights by Newsweek He is also a fair minded and even handed expert on the Constitution and our civil liberties and in this book offers his knowledge and insight to help readers understand the war

being waged against free speech by the ostensibly well meaning forces seeking to constrain this basic right The Case Against the New Censorship is an analysis of every aspect of the current fight against freedom of speech from the cancellations and deplatformings practiced by so called progressives to the powerful seemingly arbitrary control exerted by Big Tech and social media companies to the stifling of debate and controversial thinking at public and private universities It assesses the role of the Trump presidency in energizing this backlash against basic liberties and puts it into a broader historical context as it examines how anti Trump zealots weaponized distorted and weakened constitutional protections in an effort to get Trump by any means In the end The Case Against the New Censorship represents an icon in American law and politics exploring the current rapidly changing attitudes toward the value of free speech and assessing potential ways to preserve our civil liberties It is essential reading for anyone interested in or concerned about freedom of speech and the efforts to constrain it the possible effects this could have on our society and the significance of both freedom of speech and the battle against it in a greater historical and political context

Taking Liberties Alan M. Dershowitz, 1988 Porn whatever it is shows no link to rape Press is punished for doing its job Testing the police for drugs The Rise of the hanging jury Flying past the Fourth Amendment The New High Court our best nineteenth century minds The Senate should not rubber stamp judges Cigarette pushers have rights too Who really killed John Belushi Should we let pregnant women smoke and drink Give Zakharov his rights even if it s not fair Don t look for big shifts at the High Court yet The Price of a life depends on the color of the skin Tortured reasoning executed prisoners Supreme Court is not the people s court Judges should be a breed apart Judge was pioneer conscience of the nation Impeachment for emergency use only The Fifth Amendment it s all the rage this year Insiders and the evil intentions of the small investor Smoking at someone else should be a crime Defending a terrorist more than just a bad dream

The Case Against the Democratic House Impeaching Trump Alan Dershowitz, 2019-01-01 New York Times bestselling author One of America s most respected legal scholars a Democrat explains why impeachment proceedings against Donald Trump would be a bad idea for America In the 2018 New York Times bestseller *The Case Against Impeaching Trump* Alan Dershowitz lamented how American political discourse has devolved into hypocrisy and the criminalization of political differences in the rush to impeach President Trump Arguments to impeach Trump failed Dershowitz s shoe on the other foot test or his political golden rule Democrats must do unto Republicans what they would have Republicans do unto them and vice versa Since then we ve only become more divided and the impeachment power wielded by the Democratic majority in the House of Representative threatens to further polarize the country *The Case Against the Democratic House Impeaching Trump* includes and expands upon Dershowitz s 2018 book It puts recent political events including the hyper partisan Kavanaugh hearings the unrestrained power of the Mueller investigation and the generally intolerant current political discourse into context American democracy Dershowitz argues is suffering from political hypocrisy And two years of impeachment proceedings brought by the House and the media circus that would undoubtedly

surround them is clearly not the answer This book is Alan Dershowitz's plea for honest dialogue for arguments that would be made even if the shoe was on the other foot [The Case Against Israel's Enemies](#) Alan Dershowitz, 2008-09-29 Israel is seriously under attack from political academic religious and military enemies who are making vociferous threats against its continued existence In this important new book Dershowitz gives pro Israel supporters the ammunition necessary to defend themselves

Against the Law Paul F. Campos, Pierre Schlag, Steven Douglas Smith, 1996 A fundamental critique of American law and legal thought Against the Law consists of a series of essays written from three different perspectives that coalesce into a deep criticism of contemporary legal culture Paul F Campos Pierre Schlag and Steven D Smith challenge the conventional representations of the legal system that are articulated and defended by American legal scholars Unorthodox irreverent and provocative Against the Law demonstrates that for many in the legal community law has become a kind of substitute religion an essentially idolatrous practice composed of systematic self misrepresentation and self deception Linked by a persistent inquiry into the nature and identity of the law these essays are informed by the conviction that the conventional representations of law both in law schools and the courts cannot be taken at face value that the law as commonly conceived makes no sense The authors argue that the relentlessly normative prescriptions of American legal thinkers are frequently futile and indeed often pernicious They also argue that the failure to recognize the role that authorship must play in the production of legal thought plagues both the teaching and the practice of American law Ranging from the institutional to the psychological and metaphysical deficiencies of the American legal system the depth of criticism offered by Against the Law is unprecedented In a departure from the nearly universal legitimating and reformist tendencies of American legal thought this book will be of interest not only to the legal academics under attack in the book but also to sociologists historians and social theorists More particularly it will engage all the American lawyers who suspect that there is something very wrong with the nature and direction of their profession law students who anticipate becoming part of that profession and those readers concerned with the status of the American legal system

The Case for Vaccine Mandates Alan Dershowitz, 2021-10-26 In The Case for Vaccine Mandates Alan Dershowitz New York Times bestselling author and one of America's most respected legal scholars makes an argument against the backdrop of ideologically driven and politicized objections for mandating with medical exceptions vaccinations as a last resort if proved necessary to prevent the spread of COVID Alan Dershowitz has been called one of the most prominent and consistent defenders of civil liberties in America by Politico and the nation's most peripatetic civil liberties lawyer and one of its most distinguished defenders of individual rights by Newsweek He is also a fair minded and even handed expert on civil liberties and constitutional rights and in this book offers his knowledge and insight to help readers understand how mandated vaccination and compulsion to wearing masks should and would be upheld in the courts The Case for Vaccine Mandates offers a straightforward analytical perspective If a vaccine significantly reduces the threat of spreading a serious and potentially deadly disease without significant risks to

those taking the vaccine the case for governmental compulsion grows stronger If a vaccine only reduces the risk and seriousness of COVID to the vaccinated person but does little to prevent the spread or seriousness to others the case is weaker Dershowitz addresses these and the issue of masking through a libertarian approach derived from John Stuart Mill the English philosopher and political economist whose doctrine he summarizes as your right to swing your fist ends at the tip of my nose Dershowitz further explores the subject of mandates by looking to what he describes as the only Supreme Court decision that is directly on point to this issue decided in 1905 Jacobson v Massachusetts involved a Cambridge ordinance mandating vaccination against smallpox and a fine for anyone who refused In the end The Case for Vaccine Mandates represents an icon in American law and due process reckoning with what unfortunately has become a reflection of our dangerously divisive age where even a pandemic and the responses to it divide us along partisan and ideological lines It is essential reading for anyone interested in a non partisan civil liberties and constitutional analysis

Terror Tunnels Alan Dershowitz, 2014-09-10 The New York Times bestselling author has focused his internationally recognized expertise and clarity of vision on this evolving terrorist tactic Benjamin Netanyahu At a time when Israel is under persistent attack on the battlefield by international organizations and in the court of public opinion Alan Dershowitz presents a powerful case for Israel's just war against terrorism In the spirit of his international bestseller The Case for Israel Dershowitz shows why Israel's struggle against Hamas is a fight not only to protect its own citizens but for all democracies The nation state of the Jewish people is providing a model for all who are threatened by terrorist groups such as ISIS al Qaeda and Boko Haram Having himself been in one of the Hamas terror tunnels Dershowitz explains why Israel had no choice but to send in ground troops to protect its civilians against Hamas death squads Dershowitz wrote this book to warn the world that unless Hamas's strategy of building terror tunnels and firing rockets from behind human shields is denounced and stopped by the international community the media the academy and good people of all religions ethnicities and nationalities it will be coming soon to a theater near you Covering all the hot button issues from the BDS movement to the rise of anti-Semitism to the charge of war crimes to the prospects of peace Terror Tunnels The Case for Israel's Just War Against Hamas is a must read for all who care about Israel peace in the Mideast human rights and fairness

The Victimization of Women Michelle L. Meloy, Susan L. Miller, 2010-12-24 In The Victimization of Women Michelle Meloy and Susan Miller present a balanced and comprehensive summary of the most significant research on the victimizations violence and victim politics that disproportionately affect women They examine the history of violence against women the surrounding debates the legal reforms the related media and social service responses and the current science on intimate partner violence stalking sexual harassment sexual assault and rape They augment these victimization findings with original research on women convicted of domestic battery and men convicted of sexual abuse and other sex related offenses In these new data the authors explore the unanticipated consequences associated with changes to the laws governing domestic violence and the newer forms of sex offender

legislation Based on qualitative data involving in depth offender based interviews and analyzing the circumstances surrounding arrests victimizations and experiences with the criminal justice system The Victimization of Women makes great strides forward in understanding and ultimately combating violence against women
