Taking On The World A Sailors Extraordinary Solo Race Around The Globe:

Taking on the World Ellen MacArthur, 2002 In finishing yachtings s toughest race the Vend e Globe Ellen MacArthur became the youngest person ever to complete the race and the fastest woman ever to circumnavigate the globe This is her autobiography *Sailing - Philosophy For Everyone* Patrick Goold, 2012-05-08 This volume reveals the wisdom we can learn from sailing a sport that pits human skills against the elements tests the mettle and is a rich source of valuable lessons in life Unravels the philosophical mysteries behind one of the oldest organized human activities Features contributions from philosophers and academics as well as from sailors themselves Enriches appreciation of the sport by probing its meaning and value Brings to life the many applications of philosophy to sailing and the profound lessons it can teach us A thought provoking read for sailors and philosophers alike Round About the Earth Joyce E. Chaplin, 2013-11-19 Originally published in hardcover in 2012 Sailing Alone Richard J. King, 2024-05-21 2024 National Outdoor Book Award Silver Medal Winner A masterfully curated collection You don t have to be a sailor to be blown away by this fascinating bighearted book Nathaniel Philbrick author of *In the Heart of the Sea* *Travels with George and Second Wind* A story as vast and exhilarating as the open ocean itself *SAILING ALONE* chronicles the daring disastrous and often absurd history of those who chose to sail across the ocean in very small boats alone Sailing by yourself out of sight of land can be invigorating and terrifying compelling and tedious and sometimes all of the above in one morning But it is also a wide expanse of time in which to think *Sailing Alone* tells the story of some of the remarkable people who over the last four centuries have spent weeks and months moving slowly over the world s largest laboratory a capricious and startling place in which to observe oneself the weather the stars and countless sea creatures from the tiniest to the most massive and threatening Richard J King profiles characters famous diverse international and obscure from Joshua Slocum of 1898 to modern teenagers daring to take the challenge They see strange hallucinations lie to us and themselves on their travel logs encounter sharks befriend birds and experience ESP all part of the unnerving reality of extended isolation And some disappear altogether *Sailing Alone* also recounts the author s own nearly catastrophic solo crossing of the Atlantic and the mystery of his inexplicable survival one sunny afternoon An enormously engaging new book for skippers and armchair voyagers alike **Sexual Sports Rhetoric** Linda K. Fuller, 2010 *Sexual Sports Rhetoric* Global and Universal Contexts is concerned with wider international applications of language to sport Topics discussed range from women s volleyball uniforms ballroom dancing female athletes as victims soccer fans nudity debates homophobia misogyny Title IX NASCAR extreme sports and trekking to Japanese sports reports Canadian hockey sailors in the French press British portrayals of Wimbledon champs Australian heroes German sports editorials and masculinity relative to Mount Everest Publisher s description **A Woman's Guide to the Sailing Lifestyle** Thomas Desrosiers, 2015-09-18 A chance sailing trip with a friend from work led me to wonder if I could learn to sail After all Im a woman and the sailing world seems to favor men I am not athletic I didnt grow up in a family where we learned about

boating I would be starting late since I was in my thirties and I suffer from seasickness What I discovered over the next twenty five years is that I could indeed learn to be a competent sailor But I didnt expect to be an expert overnight Instead as a novice I layered on new knowledge slowly over time through experiential learning This book describes the process whereby this happened Using examples from trips along the coast of Maine New Hampshire and Massachusetts it reviews the essential knowledge needed to be a sailor as well as explanations about the parts of a sailboat major boat systems and tasks associated with maintaining a sailboat It also discusses some Zen like attitudes that lead to successful and fun sailing such as focusing the no blame rule and stripping down to the essentials Unlike some other sailing guides this book points out that sailing can be a lifestyle that includes many dimensions Its not just about getting a boat to sail Traveling by boat is a unique experience and visiting small coastal New England communities is an adventure Learning about history art ecology star constellations technology and birds are only a few of the kinds of activities that can be built into a rich and rewarding sailing experience This book will be helpful for people who would like to learn to sail but who are intimidated by the process particularly women fledgling sailors just starting out and families with children
