Revitalization in Education A. Camilleri,L. Huss,K. King,2014-06-17 This volume describes a wide range of educational situations where linguistic revitalization is currently taking place Beyond Comfort Zones in Multiculturalism Sandra Jackson,Jose Solis,1995-10-24 For peoples whose legal agreements treaties and other accords and conventions with the United States have been violated multiculturalism as a pedagogical tool often becomes suspect of reinforcing the continued reification and abstraction of their cultures and nations with little if any real meaning for educational and social transformation The continued oppression and repression of the exercise of self determination for African Americans the persistence of policies aimed at the destruction of indigenous populations and land the insidious continuation of classical colonialism in the case of Puerto Rico are all vivid reminders to these peoples of the racist classist sexist and homophobic patriarchy that characterizes their status In order to restore people s rights to fully determine their own histories Jackson and Solis point out that it is imperative to destroy the material foundations that breed and recycle the ideology discourse and cultural practices of domination It is not enough to celebrate diversity and difference there must be grand scale social political economic and educational transformation **Multilingual Education for South Africa** Kathleen Heugh,Amanda Siegrühn,Peter Plüddemann,1995 This publication sets out to give content to the debate about multilingual education by providing both a conceptual framework and example of successful practice in bi multilingual classrooms Based on the firm belief in the maintenance and development of first language medium of instruction throughout schooling and on the need to learn at least a second language the book argues strongly in favour of a policy of additive bi multilingualism for formal schooling Diversity and Empires Sophie Rose,Elisabeth Heijmans,2023-06-02 Examining diversity as a fundamental reality of empire this book explores European colonial empires both terrestrial and maritime to show how they addressed the questions of how to manage diversity These questions range from the local to the supra regional and from the management of people to that of political and judicial systems Taking an intersectional approach incorporating categories such as race religion subjecthood and social and legal status the contributions of the volume show how old and new modes of creating social difference took shape in an increasingly globalized early modern world and what contemporary legacies these diversity formations left behind This volume shows diversity and imperial projects to be both contentious and mutually constitutive on the one hand the conditions of empire created divisions between people through official categorizations such as racial classifications and designations of subjecthood and through discriminately applied extractive policies from taxation to slavery On the other hand imperial subjects communities and polities within and adjacent to the empire asserted themselves through

a diverse range of affiliations and identities that challenged any notion of a unilateral universal imperial authority This book highlights the multidimensionality and interconnectedness of diversity in imperial settings and will be useful reading to students and scholars of the history of colonial empires global history and race *Approaches to Reduce Youth Poverty in Cape Town, South Africa* ,2003 **The African Book Publishing Record** ,1996
