Self,2005-08-28 A gripping portrait of black power politics and the struggle for civil rights in postwar Oakland As the birthplace of the Black Panthers and a nationwide tax revolt California embodied a crucial motif of the postwar United States the rise of suburbs and the decline of cities a process in which black and white histories inextricably joined *American Babylon* tells this story through Oakland and its nearby suburbs tracing both the history of civil rights and black power politics as well as the history of suburbanization and home owner politics Robert Self shows that racial inequities in both New Deal and Great Society liberalism precipitated local struggles over land jobs taxes and race within postwar metropolitan development Black power and the tax revolt evolved together in tension *American Babylon* demonstrates that the history of civil rights and black liberation politics in California did not follow a southern model but represented a long term struggle for economic rights that began during the World War II years and continued through the rise of the Black Panthers in the late 1960s This struggle yielded a wide ranging and profound critique of postwar metropolitan development and its foundation of class and racial segregation Self traces the roots of the 1978 tax revolt to the 1940s when home owners real estate brokers and the federal government used racial segregation and industrial property taxes to forge a middle class lifestyle centered on property ownership Using the East Bay as a starting point Robert Self gives us a richly detailed engaging narrative that uniquely integrates the most important racial liberation struggles and class politics of postwar America *Social Policy Reform in Hong Kong and Shanghai: A Tale of Two Cities* Linda Wong,Lynn T. Center Church Timothy Keller, 2012-09-04 Practical and Gospel centered thoughts on how to have a fruitful ministry by one of America's leading and most beloved pastor Many church leaders are struggling to adapt to a culture that values individuality above loyalty to a group or institution There have been so many church growth and effective ministry books in the past few decades that it's hard to know where to start or which ones will provide useful and honest insight Based on over twenty years of ministry in New York City Timothy Keller takes a unique approach that measures a ministry's success neither by numbers nor purely by the faithfulness of its leaders but on the biblical grounds of fruitfulness Center Church outlines a balanced theological vision for ministry organized around three core commitments Gospel centered The gospel of grace in Jesus Christ changes everything from our hearts to our community to the world It completely reshapes the content tone and strategy of all that we do City centered With a positive approach toward our culture we learn to affirm that cities are wonderful strategic and underserved places for gospel ministry Movement centered Instead of building our own tribe we seek the prosperity and peace of our community as we are led by the Holy Spirit Between a pastor's doctrinal beliefs and ministry practices should be a well conceived vision for how to bring the gospel to bear on the particular cultural setting and

historical moment This is something more practical than just doctrine but much more theological than how to steps for carrying out a ministry Once this vision is in place it leads church leaders to make good decisions on how to worship disciple evangelize serve and engage culture in their field of ministry whether in a city suburb or small town Tim Keller Core Church

Charter Schools, Race, and Urban Space Kristen L. Buras, 2014-07-17 Charter schools have been promoted as an equitable and innovative solution to the problems plaguing urban schools Advocates claim that charter schools benefit working class students of color by offering them access to a portfolio of school choices In Charter Schools Race and Urban Space Kristen Buras presents a very different account Her case study of New Orleans where veteran teachers were fired en masse and the nation s first all charter school district was developed shows that such reform is less about the needs of racially oppressed communities and more about the production

of an urban space economy in which white entrepreneurs capitalize on black children and neighborhoods In this revealing book Buras draws on critical theories of race political economy and space as well as a decade of research on the ground to expose the criminal dispossession of black teachers and students who have contributed to New Orleans culture and history Mapping federal state and local policy networks she shows how the city s landscape has been reshaped by a strategic venture to privatize public education She likewise chronicles grassroots efforts to defend historic schools and neighborhoods against this assault revealing a commitment to equity and place and articulating a vision of change that is sure to inspire heated debate among communities nationwide
