Talents And Consciences Of Europe:

Talents and Consciences of Europe ,1992 **Europe** ,1992 *Eurosynt* ,1992 *Augustin Thierry: Social and Political Consciousness in the Evolution of a Historical Method* Rulon Nephi Smithson,1972 **Israel and Europe** Howard M. Sachar,2010-03-24 A remarkable feat clear compelling and accessible Critical background for any appreciation of the Jewish state The New York Times Book Review With his characteristic grace and lucidity Howard M Sachar renowned author of thirteen earlier books on Middle Eastern and Jewish history brings to life the complex and dramatic story of the friendships and fallings out between Israel and the various European powers over the last half century Dr Sachar chronicles the always uneasy relationship between Israel and Great Britain its early love affair and nasty break up with France the shifting Soviet policies toward Israel and the unlikely emergence of Germany as the new nation s chief European benefactor A master of historical narrative Sachar once again enlightens us with fine scholarship insightful analysis and an unerring knowledge of human and national motivations Identity Conscience Nationalism and Internationalism Mohammad Ateeque, The importance of the book Identity Conscience Nationalism and how it impacts the Identity Fourthly the Author outlines the imperatives and considerations of internationalism universalism and humanism in the era of globalization and interdependency through which the protection of Global Citizens can not only be ensured but also be propagated and nourished as a global culture and universal civilization of international community Other topics discussed in this book are the apparent crisis of institutional trust over the Governments States her mechanisms global politico ethical crisis Ethical Core Values for Nation States The Relevancy of Ethics in Social Financial and Political Business and the imperatives and considerations of Nation States for International Community Subsequently the book raises certain perceptive aspects which advocate that the United Nations should be bestowed with even more authority as an Organization and that the Organization is required to be considered as a Global Nation with international community as global citizens And last but not the least the book has advanced to touch upon the topic of global sustainability of the development and universal sensitivity for the environment and climate change which is one of the mediums to connect the people of different identities of the globe and to bring them at one platform to establish their collective duties towards nature The book concludes with a really didactic poem of the Author titled My Poem on Universalism Humanism that actually attempts to sum up the book in a real sense **The Myth and Identity of the Romantic Artist in European Literature** Elena Anastasaki,2022-08-04 This study addresses the question of artistic identity and the myth of the artist as it has been shaped by the artists themselves While the term artist is to be understood in a broad sense the focus of this study is the literature of the Romantic tradition Identity is largely perceived as a construct and a central hypothesis of this book concerns its aesthetic value and the ways it creates dominant narratives of self perception that produce powerful myths The construction of the artist s identity be it collective or personal rests on a series of aesthetic praxes Caught between the mythic idealisation of poetic genius and its social devaluation the

Romantic artist seeks to create a place for himself and in doing so he engages in his own mythmaking This process is studied in an interdisciplinary perspective approaching texts and writers from different traditions The study analyses various typologies of the artist numerous mythmaking strategies as well as several postural techniques all of which have sketched major direct or indirect fictional self portraits in the European tradition Conscience, Denied Charles E. Miller, 2010-10-22

Literate Americans encounter the word conscience yet scarcely pay any attention to its source its proscriptions in human affairs or its power to affect human conduct The Conscience is a weapon for survival and a tool to correct protect and guide the individual in the often troubled course of his or her life These pages illustrate its applications and recognition down through human history beginning at the Fall of Adam and Eve Whether or not the reader shares that biblical account of human history is irrelevant The actuality of conscience in human relations and in the historicity of world events cannot be denied Our pioneers did not underscore the word but every brave progress to settle America involved the conscience of moral and ethical decisions Is the land ours Should I risk my family's lives to make this journey What confidence should I place in our caravan leader How shall I honestly manage to survive without theft murder or mayhem The very reality of survival whether against a military enemy or on wilderness excursion calls upon the human conscience to discern the risks are or the sacrifice or potential loss of life in the doing Miller has included several interesting illustrations a poem that deals with presidential lack of discernment a river trip that involves the choice of dangerous adventure or bank side and a brief drama that illustrates the confrontation of Caesar with the original Christians The conscience is directed usually unbeknownst to the possessor by God's moral law of love for one's neighbor ie another human being made in God's image This law of the conscience accounts for this great nation's compassion toward the world and condemns abortion euthanasia and fratricide It also controls and includes the process of justice to protect the innocent The Egalitarian Conscience Christine Sypnowich, 2006-04-06

The Egalitarian Conscience pays tribute to the highly influential work of Professor G A Cohen Professor Cohen is a philosopher of international stature and tremendous achievement who has been vital to the flourishing of egalitarian political philosophy He has a significant body of work spanning issues of Marxism and distributive justice consistently characterized by original ideas and ingenious arguments The high standard of rigour he sets for progressive thinkers particularly himself has been a source of inspiration for colleagues and students alike The volume honours Professor Cohen with first rate essays on a number of significant and fascinating topics reflecting the wide ranging themes of Professor Cohen's work but united in their concern for questions of social justice pluralism equality and moral duty The contributors are scholars of international stature Joshua Cohen Jon Elster Susan Hurley Will Kymlicka Derek Parfit John Roemer T M Scanlon Samuel Scheffler Hillel Steiner and Jeremy Waldron There is an afterword by G A Cohen **Scientists in Search of Their Conscience** Anthony R. Michaelis, Hugh Harvey, 2012-12-06

Scientists in Search of Their Conscience is the edited proceedings of the European Symposium on the effects of science on society held in Brussels in 1971 Organised by

The European Committee of The Weizmann Institute Israel the Conference gave scientists from varied disciplines and many countries the platform from which to explore in depth the dilemma facing them The dilemma is the responsibility of scientists for society s use of scientific findings Though no hard and fast conclusions were reached in fact quite the contrary the discussions left no doubt that scientists were becoming aware that they can no longer claim that the pursuit of knowledge is divorced from its use Yet should they begin to face the responsibility for the application of their work it is clear that their freedom will be impaired The loss of freedom is of course part of the dilemma of science
