Tales By Moonlight II:

Tales of Moonlight and Rain Akinari Ueda, 2007 First published in 1776 the nine gothic tales in this collection are Japan's finest and most celebrated examples of the literature of the occult They subtly merge the world of reason with the realm of the uncanny and exemplify the period's fascination with the strange and the grotesque They were also the inspiration for Mizoguchi Kenji's brilliant 1953 film *Ugetsu* The title *Ugetsu monogatari* literally rain moon tales alludes to the belief that mysterious beings appear on cloudy rainy nights and in mornings with a lingering moon In *Shiramine* the vengeful ghost of the former emperor Sutoku reassumes the role of king in *The Chrysanthemum Vow* a faithful revenant fulfills a promise *The Kibitsu Cauldron* tells a tale of spirit possession and in *The Carp of My Dreams* a man straddles the boundaries between human and animal and between the waking world and the world of dreams The remaining stories feature demons fiends goblins strange dreams and other manifestations beyond all logic and common sense The eerie beauty of this masterpiece owes to Akinari's masterful combination of words and phrases from Japanese classics with creatures from Chinese and Japanese fiction and lore Along with *The Tale of Genji* and *The Tales of the Heike* *Tales of Moonlight and Rain* has become a timeless work of great significance This new translation by a noted translator and scholar skillfully maintains the allure and complexity of Akinari's original prose
