Tales Of Tahitian Waters:

Tales of Tahitian Waters Zane Grey, 2003-10-10 This book describes Grey's hair-raising tales of fishing in shark-infested Pacific waters Tales of Tahitian Waters, Profusely Illustrated with Photographs Taken by the Author Zane Grey, 1931

Tales of Tahitian Waters ... Illustrated with Photographs Taken by the Author Zane Grey, 1931 *Stairs of Sand* Zane Grey, 1928 Zane Grey Thomas H. Pauly, 2010-10-01 Zane Grey was a disappointed aspirant to major league baseball and an unhappy dentist when he belatedly decided to take up writing at the age of thirty. He went on to become the most successful American author of the 1920s, a significant figure in the early development of the film industry and a central player in the early popularity of the Western. Thomas H. Pauly's work is the first full-length biography of Grey to appear in over thirty years. Using a hitherto unknown trove of letters and journals including never-before-seen photographs of his adventures both natural and amorous, Zane Grey has greatly enlarged and radically altered the current understanding of the superstar author whose fifty-seven novels and one hundred and thirty movies heavily influenced the world's perception of the Old West. *Swordfish* Richard Ellis, 2013-04-15 A perfect fish in the evolutionary sense, the broadbill swordfish derives its name from its distinctive bill, much longer and wider than the bill of any other billfish, which is flattened into the sword we all recognize. And though the majesty and allure of this warrior fish has commanded much attention from adventurous sportfishers eager to land one to ravenous diners eager to taste one, no one has yet been bold enough to truly take on the swordfish as a biographer. Who better to do so than Richard Ellis, a master of marine natural history? *Swordfish: A Biography of the Ocean Gladiator* is his masterly ode to this mighty fighter. The swordfish, whose scientific name means gladiator, can take on anyone and anything, including ships, boats, sharks, submarines, divers, and whales, and in this book Ellis regales us with tales of its vitality and strength. Ellis makes it easy to understand why it has inspired so many to take up the challenge of epic sportfishing battles as well as the longline fishing expeditions recounted by writers such as Linda Greenlaw and Sebastian Junger. Ellis shows us how the bill is used for defense; contrary to popular opinion, it is not used to spear prey but to slash and debilitate like a skillful saber fencer. *Swordfish*, he explains, hunt at the surface as well as thousands of feet down in the depths, and like tuna and some sharks have an unusual circulatory system that gives them a significant advantage over their prey, no matter the depth in which they hunt. Their adaptability enables them to swim in waters the world over: tropical, temperate, and sometimes cold. The largest ever caught on rod and reel was landed in Chile in 1953, weighing in at 1,182 pounds. And this heavyweight fighter, like all the largest swordfish, was a female. Ellis's detailed and fascinating fact-filled biography takes us behind the swordfish's huge cornflower blue eyes and provides a complete history of the fish from prehistoric fossils to its present-day endangerment, as our taste for swordfish has had a drastic effect on their population the world over. Throughout the book is graced with many of Ellis's own drawings and paintings which capture the allure of the fish and bring its splendor and power to life for armchair fishermen and landlocked readers alike. **Leeteg CJ**
