Rebecca Fasselt, Corinne Sandwith, 2022-03-24 This book considers the key critical interventions on short story writing in South Africa written in English since the year 2000 The short story genre whilst often marginalised in national literary canons has been central to the trajectory of literary history in South Africa In recent years the short story has undergone a significant renaissance with new collections and young writers making a significant impact on the contemporary literary scene and subgenres such as speculative fiction erotic fiction flash fiction and queer fiction expanding rapidly in popularity This book examines the role of the short story genre in reflecting or championing new developments in South African writing and the ways in which traditional boundaries and definitions of the short story in South Africa have been reimagined in the present Drawing together a range of critical interventions including scholarly articles interviews and personal reflective pieces the volume traces some of the aesthetic and thematic continuities and discontinuities in the genre and sheds new light on questions of literary form Finally the book considers the place of the short story in twenty first century writing and interrogates the ways in which the short story form may contribute to or recast ideas of the post apartheid or post transitional The perfect guide to contemporary short story writing in South Africa this book will be essential reading for researchers of African literature

Reading for Storyness Susan Lohafer, 2020-03-03 The short story has been a staple of American literature since the nineteenth century taught in virtually every high school and consistently popular among adult readers But what makes a short story unique In *Reading for Storyness* Susan Lohafer former president of the Society for the Study of the Short Story argues that there is much more than length separating short stories from novels and other works of fiction With its close readings of stories by Kate Chopin Julio Cortázar Katherine Mansfield and others this book challenges assumptions about the short story and effectively redefines the genre in a fresh and original way In her analysis Lohafer combines traditional literary theory with a more unconventional mode of research monitoring the reactions of readers as they progress through a story to establish a new poetics of the genre Singling out the phenomenon of imminent closure as the genre s defining trait she then proceeds to identify preclosure points or places where a given story

could end in order to access hidden layers of the reading experience She expertly harnesses this theory of preclosure to explore interactions between pedagogy and theory formalism and cultural studies fiction and nonfiction Returning to the roots of storyness Lohafer illuminates the intricacies of classic short stories and experimental forms of surreal postmodern and minimalist fiction She also discusses the impact of social constructions such as gender on the identification of preclosure points by individual readers Reading for Storyness combines cognitive science with literary theory to present a compelling argument for the uniqueness of the short story
