Stookey, 1999-09-30 Louise Erdrich following in the Native American narrative tradition has crafted enduring tales of homecomings. Her widely acclaimed debut novel *Love Medicine* garnered prestigious awards and quickly made its way onto bestseller lists and into readers' hearts. In this full-length critical volume, Stookey uncovers the layers of wisdom and humor embedded in Erdrich's engaging writing. Stookey analyzing each novel in turn examines the characters and themes that recur in Erdrich's canon of interconnected stories. This insightful analysis helps students and lovers of fine literature approach Erdrich's work with greater appreciation for her bold narrative style. This study begins with a fascinating biographical account tracing early influences in Louise Erdrich's life. The subsequent chapter discusses Erdrich's place in literary tradition as a novelist, a poet, and a storyteller. It also offers lucid analysis of how Erdrich skillfully manages to reconcile traditional and experimental approaches to the construction of her novels. A full chapter then examines each novel in terms of literary style, plot, character development, and theme. Alternate critical approaches to Erdrich's writing are also given for each of her six major works to date. A bibliography and lists of general criticism, biographical sources, and reviews complete this volume, making it an indispensable resource for any reader seeking to develop a greater understanding of Erdrich's writings.

American Mythologies William Blazek, Michael K. Glenday, 2005-01-01 This challenging new book looks at the current reinvention of American Studies, a reinvention that among other things has put the whole issue of just what is American and what is American Studies into contention. The collection focuses in particular on American mythology. The editors themselves have written essays that examine the connections between mythologies of the United States and those of either classical European or Native American traditions. William Blazek considers Louise Erdrich's *Love Medicine* novels as chronicles combining Ojibwa mythology and contemporary U.S. culture in ways that reinvest a sense of mythic identity within a multicultural postmodern America. Michael K. Glenday's analysis of Jayne Anne Phillips' work and explores in it the contexts where myth and dream interact with each other. Betty Louise Bell is one of four essayists in this collection who focus their criticism on authors of Native American heritage. In the first part of *Indians with Voices*, Bell carefully argues that Roy Harvey Pearce's seminal Native American studies text *Savagism and Civilization* fails to acknowledge its white elitist assumptions about what constitutes The American Mind and views Native Americans along a primitive/savage binary that helped to create a twentieth-century national mythos of innocence and destiny. Other essays include Christopher Brookeman's study of the impact of Muhammad Ali on Norman Mailer's non-fiction writing about heavyweight boxing.
