The Tiger Moth Story Alan Bramson, 2020-05-05 The Tiger Moth is one of the major aviation success stories in the history of British aviation Developed by Geoffrey de Havilland and flown for the first time on October 26 1931 the biplane became the most important elementary trainer used by Commonwealth forces More than 1 000 Tiger Moths were delivered before WWII and subsequently around 4 000 were built in the UK with an extra 2 000 being manufactured in Canada Australia and New Zealand Following the end of WWII pilots could buy and modify a Tiger Moth for recreational use or agricultural crop spraying and use it relatively cheaply This combined with its popularity within the aero club movement provided employment for the Tiger Moths until the late fifties when the more modern closed cockpit aircraft began to force them into retirement This new edition provides a comprehensive account of the aircraft's origins and its development as a trainer of Commonwealth pilots in times of peace and war It also looks at some of the other roles which this versatile little aeroplane performed such as a crop duster glider tug aerial advertiser bomber coastal patrol plane and aerial ambulance Technical narrative and drawings handling ability and performance as seen through the eyes of the pilots combine to make The Tiger Moth Story the most comprehensive book of the aircraft

L.A. Cops: A Story of Honor, Sex & Tragedy Samuel Turner, 2012-11-12 L A Cops is primarily a work of fiction with a few exceptions the names of my characters as well as most of the cities and counties in the San Joaquin Valley are figments of my imagination If the reader believes that I have written about actual places as well as real crimes that is his right to do so I can only say in my defense that all writers have stored in their memory cells recollections of actual events and frequently borrow from those storage banks ideas that eventually go together to make up a story or even an entire novel That's how writers of fiction make a living unless the work is pure science fiction the more closely it resembles real life situations the more likely it will sell because we all experience something inside when we can relate to the characters events or locales in a story I have used real situations and in several instances actual places in the chapters that deal with World War II Of course built within that framework I've taken the liberty to make my characters more colorful gallant or tyrannical than may have been the actual case I wasn't old enough during that period to have had personal experiences of this nature but some of the military individuals I've introduced you to may approximately match some that I ran into during my own years in the Air Force After all no one period in time has its own special hold on good decent people nor on those who have made life less than great for those they have come in contact with You will find both types playing important roles in my book

Moonlight over England the Story of One Nightfighter Pilot Eric P. Donald, 2013-04-18 I came across an old photo recently and pondered the people in it The person in the centre was my late brother Norman G Donald of the RAF The other figures in the photo I do not know though I suspect they were his flight instructors at North Battleford Canada The photo bears my brother's script KING PINS ALL N BATTLEFORD After qualifying as a pilot he sailed back to England and was posted to RAF Hunsdon just north of London in

1942 He was soon flying Douglas Havocs and Bristol Beaufighters Night fighters were a new school of defence but it was hopeless finding enemy aircraft in the dark The Turbinlite device was fitted to the Beaufighters and Havocs and the idea was to find the enemy somehow guided by ground control using heavy ground radar units too heavy to carry in aircraft turn on the Turbinlite searchlight and illuminate the enemy aircraft A single engined Hurricane fighter flying alongside then shot down the enemy aircraft It did help to see the target as this same sky was full of thousands of Allied aircraft all trying to avoid each other

Fire and Fury Randall Hansen, 2009-09-15 National Bestseller An enlightening and utterly convincing re examination of the allied aerial bombing campaign and of civilian German suffering during World War II an essential addition to our understanding of world history During the Second World War Allied air forces dropped nearly two million tons of bombs on Germany destroying some 60 cities killing more than half a million German citizens and leaving 80 000 pilots dead Much of the bombing was carried out against the expressed demands of the Allied military leadership Hundreds of thousands of people died needlessly Focusing on the crucial period from 1942 to 1945 and using a compelling narrative approach Fire and Fury tells the story of the American and British bombing campaign through the eyes of those involved military and civilian command in America Britain and Germany aircrew in the sky and civilians on the ground Acclaimed historian Randall Hansen shows that the Commander in Chief of Bomber Command Arthur Harris was wedded to an outdated strategy whose success had never been proven how area bombing not only failed to win the war it probably prolonged it and that the US campaign which was driven by a particularly American fusion of optimism and morality played an important and largely unrecognized role in delivering Allied victory

Story of the Spitfire Ken Delve, 2025-01-30 An in depth exploration of the Spitfire s combat legacy pilot tactics and its enduring iconic status To many people the Supermarine Spitfire was Britain s saviour during the Battle of Britain and the embodiment of air combat during the Second World War The Story of the Spitfire presents a thrilling appraisal of this unique aircraft focusing on its fighting capability and the tactics of the pilots who flew it Using official evaluations and reports alongside technical and tactical developments plus the recollections of Spitfire pilots Ken Delve provides a fascinating insight into the combat career of this legendary aircraft Despite some problems with their new aircraft the Fighter Command pilots of 1938 were generally delighted with the Spitfire speed manoeuvrability and firepower were all far greater than they had been with the earlier biplanes In tactics and training the RAF was outdated but it adapted quickly and the air battles over Britain in late 1940 forged the Spitfire legend How justified was the legend There were only nineteen Spitfire squadrons in Fighter Command during the Battle of Britain it was only later as the RAF turned to the offensive that the number of Spitfire units increased dramatically At certain times the combat initiative was lost to improved Messerschmitt Bf 109s and Focke Wulf Fw 190s but with increased performance and better training the Spitfire clawed back the advantage By 1944 the Spitfire was operating as a fighter bomber in various theatres of war with new tactics and new problems Many fighter pilots thought that having bombs strapped under the aircraft verged on an insult but

with aerial targets in short supply this was the most effective if risky way of taking the war to the enemy After the war the Spitfire saw action right up to 1948 in the Arab Israeli War Today there are approximately seventy airworthy Spitfires in existence and R J Mitchell s remarkable aircraft is still the highlight of flying displays around the world The Hidden Army - MI9's Secret Force and the Untold Story of D-Day Matt Richards,2018-07-05 Almost seventy five years ago MI9 dreamt up the most audacious escape and evasion plan of World War Two Formulated by Airey Neave one of the first men ever to escape from Colditz this plan was one of subterfuge concealment and deception on a scale never seen before With numerous downed RAF and Allied pilots on the run in Europe and with the fabled Comete Escape Line having been infiltrated by double agents Neave s plan was to hide these men right under the very noses of the Nazis rather than risk repatriation Choosing a forest in the heart of France right next to one of the German Army s largest ammunition bases Neave Belgian agents and the French Resistance would secretly transport and hide Allied pilots and soldiers within feet of the enemy Nobody thought it would work but such was the success of the secret camp that a whole community of over one hundred and fifty Allied escapers lived within the forest for three months in the run up to D Day Despite numerous close shaves they were never discovered and this outrageous plan brilliant in its simplicity saw the Allied evaders make their home in the forest cooking and hunting to survive and even setting up a golf course in the forest using branches for clubs without discovery This operation remained absolutely secret to the point that the inhabitants of the villages surrounding the forest were unaware until the end of the existence of that allied force so close to them Told through interviews with evaders members of the Resistance and the children charged with smuggling food into the forest this book tells the compelling story of one of the most audacious operations in World War Two A story that has until today remained as secret as the Hidden Army of Freteval

A Tale for the Telling Brian Morache,2000-11-15 This is a collection of tales that take one back to those days when we would listen to a story before bedtime or when we were sick Each will take you to another time and place some in the far away past others the distant future and just a few in the here and now They touch the soul and heart stirring the mind to reflection and humorously reminiscing Some will remind you of those classic bedtime tales others of childhood stories you might want to share with your own children while others will hit you right in your own emotional kitchen and you will find that you are not alone As you read these pages you are invited to partake in that ultimate journey called life The Soldiers' Tale Samuel Hynes,1998-04-01 The Soldiers Tale is the story of modern wars as told by the men who did the actual fighting Hynes examines the journals memoirs and letters of men who fought in the two World Wars and in Vietnam and also the wars fought against the weak and helpless in concentration camps prisoner of war camps and bombed cities Interweaving his own reflections on war with brilliantly chosen passages from soldiers accounts he offers vivid answers to the question we all ask of men who have fought What was it like In these powerful pages the experiences of modern war which seem unimaginable to those who weren t there become comprehensible and real The wide range of writers examined includes both famous literary memoirists like Robert Graves Tim O Brien and Elie Wiesel and unknown soldiers who wrote only their war stories

Using these testimonies Hynes considers each war in terms of its special circumstances and its effects on men who fought. His understanding of the psychology of warfare and of each war's role in history gives this study its intellectual authority; the voices of the men who were there and wrote about what they saw and felt give it its powerful dramatic impact. **SR-71 Revealed : The Untold Story** Richard H. Tales from the Crewroom David Berry, 1990 **The Story of Loganair** Iain Hutchison, 1987 Written from the outside looking in, this book seeks to provide an insight into the growth and operations of a unique airline. **The Wheelwright Family Story** Steve J. Plummer, 2010-02-24 This is an illustrated history of the extraordinary Anglo American Wheelwright family. In 1636 an outspoken Puritan Reverend John Wheelwright left his native Lincolnshire and headed for the new Boston Bay Colony. His stay in Massachusetts would be short-lived. Persecuted and banished, Reverend John went on to found two New England towns and a dynasty which now spans six continents. The Wheelwrights have produced explorers, engineers, clerics, consuls, and a family of cannibals. There are philanthropists, philanderers, psychoanalysts, scientists, soldiers, and sailors. A sea captain became a pirate. A lawyer became a gold-digging sportsman, and a kidnapped child was transformed from Puritan to Catholic mother superior. The Wheelwright's story, complete with black sheep and skeletons, spans four centuries. Hundreds of illustrations and family charts drawn from years of research bring 580 pages of this most remarkable family's history to life. **The Junkers Ju 52 Story** Jan Forsgren, 2017-01-20 The iconic and legendary Junkers Ju 52 first flew in 1930. Designed and built by the Junkers Aircraft Company of Dessau, Germany, the Ju 52 was originally intended as a single-engine cargo aircraft. An upgraded model, the Ju 52 3m, was powered by three engines and excelled as an eighteen-seat airliner. By the late 1930s, hundreds of the safe, reliable, and much-loved Ju 52 3ms were serving with airlines in more than twenty countries, including the pre-war British Airways. Also, it was used as a bomber by the Luftwaffe, particularly in the Spanish Civil War. During the Second World War, the Ju 52 3m was the mainstay of Luftwaffe transport squadrons. Affectionately known as Faithful Old Annie and Ron Annie, the Ju 52 3m was used during the invasions of Norway, the Low Countries, Crete, and the resupply of Stalingrad and Rommel's Africa Korps. In all, around 5,000 were built, and after the war, production continued in France and Spain. Amazingly, captured Ju 52 3ms were rebuilt post-war and briefly operated as airliners on domestic routes in Great Britain. **British Children's Literature and the First World War** David

Budgen, 2018-05-17 Perceptions of the Great War have changed significantly since its outbreak, and children's authors have continually attempted to engage with those changes, explaining and interpreting the events of 1914-18 for young readers. **British Children's Literature and the First World War** examines the role novels, textbooks, and story papers have played in shaping and reflecting understandings of the conflict throughout the 20th century. David Budgen focuses on representations

of the conflict since its onset in 1914 ending with the centenary commemorations of 2014 From the works of Percy F Westerman and Angela Brazil to more recent tales by Michael Morpurgo and Pat Mills Budgen traces developments of understanding and raises important questions about the presentation of history to the young He considers such issues as the motivations of children s authors and whether modern children s books about the past are necessarily more accurate than those written by their forebears Why for example do modern writers tend to ignore the global aspects of the First World War Did detailed narratives of battles written during the war really convey the truth of the conflict Most importantly he considers whether works aimed at children can ever achieve anything more than a partial and skewed response to such complex and tumultuous events

A Pathfinder's Story W. W. Robinson,2007-11-12 When he died in 1946 Flight Lieutenant Jack Mossop left behind a widow and child a chest full of medals and a diary He was 25 years old The diary gave tantalizing glimpses of his career sixty years on his son has uncovered the truth It is the story of an ordinary Durham lad called upon to perform extraordinary deeds Serving initially as a Wireless Operator in 49 Squadron he progressed to 76 Squadron under the legendary Leonard Cheshire and finished as a Deputy Master Bomber with the elite Pathfinder Group in 35 Squadron To complete even one tour of duty was against the odds To complete a second and then to volunteer for a third was nigh on incredible Small wonder that one of his crewmates called him The bravest man I ever knew It is all the more tragic that he died a civilians death on board a BOAC Lancastrian after the war in suspicious circumstances which attracted the attention of the Prime Minister himself Jack saw most of the great actions of Bomber Command from the 1 000 bomber raids of 1942 to the Battles of the Ruhr and Berlin in 1943 and the daylight operations of Normandy before and after D Day His story stands as a microcosm of the entire bomber campaign Bill Robinsons account is a fascinating and stirring account of courage in war a tribute not only to one mans courage but also to the courage of the nameless thousands whose stories will now never be told

An Evacuee's Story a North Yorkshire Family in Wartime John T. Wright,2007-09-12 A poignantly written and graphically described story of the pleasure and pain endured as an evacuee during World War Two Like so many of his young friends and relatives John Wright was required to leave the love and care of his parents in Middlesbrough at a very young age to escape the attention of the Luftwaffe and to be evacuated into the hands of a crowded and unloving home in Haxby a quaint village north of the great city of York The book eloquently describes his voyage of childhood discovery in the beautiful countryside coupled with the cruel attentions of a foster mother whose motivation was not to lavish love and support to her unfortunate foster children but to hurt and belittle them It is a bittersweet story of innocent interludes and mean realities for an evacuee child set amidst the horrors and melancholy of that devastating conflict
