[The Complete Guide to Writing Effective College Applications & Essays for Admission and Scholarships](#) Kathy Lynn Hahn, Colleen M.

Loew, 2010 Book CD ROM Applying to college can be one of the most stressful times in a student's life. Not only are you faced with the task of finding the perfect school for you but you also have to find scholarships to be able to go to the school you want. These two intertwining obstacles require a lengthy application and a seemingly perfect essay. The essay topic is crucial to demonstrate your values, creativity and depth of knowledge and the writing is important because it reflects your power of persuasion, organisational skills and style. This book will teach you how to write effective applications and essays for college admissions and scholarships, helping shoulder some of the weight of applying. This guide provides you with all the tools you need to complete your application and write a winning essay. You will learn how to choose a topic, keep your focus narrow and personal, edit and revise, tweak essays to use them on various applications, choose your tone and structure, avoid the common pitfalls and how to overcome writer's block. The guide has sample essays and essay questions and even examples of the essays specific colleges use. You will find those samples on the companion CD ROM along with brainstorming exercises and sample applications. Admissions officers have chimed in with their expertise to provide insider information on how to compose impressive applications and essays for admission and scholarships.

The St. Martin's Guide to Writing Rise B. Axelrod, Charles R. Cooper, 2010-01-26 This textbook provides instruction in college level rhetoric and writing. It offers readings, a research manual, a handbook and supports a range of approaches to teaching and learning including collaboration, visual rhetoric, personal writing, writing about literature, writing in the community and the workplace, field research, portfolios, oral presentations, essay exams and ESL. It contains step by step guides to writing specific kinds of essays: remembering events, writing profiles, explaining a concept, finding common ground, arguing a position, proposing a solution, justifying an evaluation, speculating about causes and interpreting stories. Because so much college writing requires strong argumentation skills, four of the assignment chapters focus on argumentative writing and a separate strategies chapter covers theses, reasons and support, counterarguments and logical fallacies. Three full chapters on research give students useful strategies not only for conducting field, library and Internet research but also for evaluating sources, deciding whether to quote, paraphrase or summarize, avoiding plagiarism and documenting sources. The authors have included 39 readings by well known authors and various

fresh voices including 12 students providing well written examples of the different types of essays and papers that students might be asked to complete
