The Hellenistic Aesthetic:

The Hellenistic Aesthetic Barbara Hughes Fowler, 1989 Fowler's own insights are apparent throughout and they seem to distill the personal appreciation and understanding of a scholar who has devoted much of her career to both contemplating and enjoying Hellenistic poetry. This book would make an excellent background text for courses in later Greek and Roman art and it can be read with profit by anyone interested in exploring the character of Hellenistic culture. J. J. Pollitt, *American Journal of Archaeology*. Outstanding is the range of examples discussed both in poetry and art. Theocritus, Callimachus, Appollonius, the epigrammatists and others that is the major figures of the time are considered at length and in several different contexts. Passages are quoted in the original Greek translated and analyzed. Fowler's sensitivity to poetic forms evident in her other published writings is again evident here. In addition, however, the philosophical context is not overlooked. Also highly commendable are the liberal references to works of art. Sculpture in the round and in relief, portraits, terracotta figurines, original paintings, grave stelae and Campanian murals, mosaics, gold and silver vessels and jewelry are introduced at various points. Every work of art discussed is illustrated in astonishingly clear photographs which are interspersed in the body of the text. Christine Mitchell Havelock. The Hellenistic Aesthetic provides classicists with their first thorough discussion of the aesthetic unity found in Hellenistic art and literature. Fowler examines parallels both in subject matter and in artistic approach among a diverse group of literary genres and artistic forms. In twelve chapters The Hellenistic Aesthetic surveys Alexandrian epigrams, pastorals, epics, sculptural groups, mosaics, paintings and jewelry to supply a convincing and frequently unexpected picture of a unified aesthetic vision. Jeffrey Buller, *Classical Outlook*. The Hellenistic Aesthetic Barbara Hughes Fowler, 1989. An introduction to the Hellenistic Period c. 323-27 B.C. which saw the unification of the Mediterranean and Central Asia under the Greek culture and language. The author explores a range of subjects including poetry and literature, science, religion and art. A Companion to Ancient Aesthetics Pierre Destrée, Penelope Murray, 2015-04-28. The first of its kind. A Companion to Ancient Aesthetics presents a synoptic view of the arts which crosses traditional boundaries and explores the aesthetic experience of the ancients across a range of media: oral, aural, visual and literary. Investigates the many ways in which the arts were experienced and conceptualized in the ancient world. Explores the aesthetic experience of the ancients across a range of media treating literary, oral, aural and visual arts together in a single volume. Presents an integrated perspective on the major themes of ancient aesthetics which challenges traditional demarcations. Raises questions about the similarities and differences between ancient and modern ways of thinking about the place of art in society.

The Ancient Aesthetics of Deception Jonas Grethlein,2021-09-16 The concept of mimesis has dominated reflection on the nature and role in Greek literature of representation Jonas Grethlein in his ambitious new book takes this reflection a step further He argues that beyond mimesis there was an important but unacknowledged strand of reflection focused instead on the nuanced idea of *apat* often translated into English as deceit oscillating between notions of deception and aesthetic illusion Many authors from Gorgias and Plato to Philo Plutarch and Clement of Alexandria used this key concept to entwine aesthetics with ethics In creatively exploring the various reconfigurations of *apat* and placing these in their socio historical contexts the book offers a bold new history of ancient aesthetics It also explores the present significance of the aesthetics of deception unlocking the potential of ancient reflection for current debates on the ethical dimension of representation It will appeal to scholars in classics and literary theory alike

Ancient World Lawrence M. Wills, 2015-03-11 Lawrence M Wills here traces the literary evolution of popular Jewish narratives written during the period 200 BCE 100 CE In many ways these narratives were similar to Greek and Roman novels of the same era as well as to popular novels of indigenous peoples within the Roman Empire Yet as a group they demonstrated a variety of novelistic innovations the inclusion of adventurous episodes passages of description and of dialogue concern with psychological motivation and the introduction of female characters Wills focuses on five novels Greek Esther Greek Daniel Judith Tobit and Joseph and Aseneth Drawing on a wide range of theoretical works he delineates the techniques and motifs of the Jewish novel shows how the genre both initiated and distanced itself from nonfictional prose such as historical and philosophical writing discusses its relation to Greco Roman romance and describes the social conditions governing its emergence and reception Wills also places the novels in historical context situating them between the Hebrew Bible on the one hand and subsequent developments in Jewish and Christian literature on the other Wills sees the Jewish novel as a popular form of writing that provided amusement for an expanding audience of Jewish entrepreneurs merchants and bureaucrats In an important sense he maintains it was a product of the novelistic impulse the impulse to transfer oral stories to a written medium to reach a more literate audience

Curiosity and the Aesthetics of Travel-Writing, 1770-1840 Nigel Leask, 2002-01-10 The decades between 1770 and 1840 are rich in exotic accounts of the ruin strewn landscapes of Ethiopia Egypt India and Mexico Yet it is a field which has been neglected by scholars and which unjustifiably remains outside the literary canon In this pioneering book Nigel Leask

studies the Romantic obsession with these antique lands drawing generously on a wide range of eighteenth and nineteenth century travel books as well as on recent scholarship in literature history geography and anthropology Viewing the texts primarily as literary works rather than transparent adventure stories or documentary sources he sets out to challenge the tendency in modern academic work to overemphasize the authoritative character of colonial discourse Instead he addresses the relationship between narrative aesthetics and colonialism through the unstable discourse of antiquarianism exploring the effects of problems of creditworthiness and the nebulous epistemological claims of curiosity a leitmotif of the accounts studied here on the contemporary status of travel writing Attentive to the often divergent idioms of elite and popular exoticism *Curiosity and the Aesthetics of Travel Writing* plots the transformation of the travelogue through the period as the baroque particularism of curiosity was challenged by picturesque aesthetics systematic geographical narrative and the emergence of a transcendental self axiomatic to Romantic culture In so doing it offers an important reformulation of the relations between literature aesthetics and empire in the late Enlightenment and Romantic periods *Roman Love Elegy and the Eros of Empire* Phebe Lowell Bowditch, 2023-05-22 This book explores Roman love elegy from postcolonial perspectives arguing that the tropes conventions and discourses of the Augustan genre serve to reinforce the imperial identity of its elite metropolitan audience Love elegy presents the phenomena and discourses of Roman imperialism in terms of visual spectacle the military triumph literary genre epic in relation to elegy material culture art and luxury goods and geographic space as intersecting with ancient norms of gender and sexuality in a way that reinforces Rome's dominance in the Mediterranean The introductory chapter lays out the postcolonial frame drawing from the work of Edward Said among other theorists and situates love elegy in relation to Roman Hellenism and the varied Roman responses to Greece and its cultural influences Four of the six subsequent chapters focus on the rhetorical ambivalence that characterizes love elegy's treatment of Greek influence the representation of the domina or mistress as simultaneously a figure for captive Greece and a trope for Roman imperialism the motif of the elegiac triumph with varying figures playing the triumphator as suggestive of Greco-Roman cultural rivalry Rome's competing visions of an Attic and an Asiatic Hellenism The second and the final chapter focus on the figures of Osiris and Isis respectively as emblematic of Rome's colonialist and ambivalent representation of Egypt with the conclusion offering a deconstructive reading of elegy's rhetoric of orientalism *Aesthetic Value in Classical Antiquity* Ineke Sluiter, Ralph M. Landscape and the Spaces of Metaphor in Ancient Literary Theory and Criticism Nancy Worman, 2015-12-30 This study explores a previously uncharted area of ancient literary theory and criticism the ancient landscapes such as the Ilissus river in Athens and Mount Helicon that generate metaphors for distinguishing styles which dovetail with ancient conceptions of metaphor as itself spatial and mobile Ancient writers most often coordinate stylistic features with country settings where authoritative performers such as Muses poets and eventually critics or theorists view appropriate and emulate their bounties for example springs flowers rivers paths These spaces of metaphor and their elaborations provide poets and critics with a vivid means of distinguishing among styles and an influential vocabulary Together these figurative terrains shape critical and theoretical discussions in Greece and beyond Since this discourse has a remarkably wide reach the book is broad in scope ranging from archaic Greek poetry through Roman oratory and Longinus to the reception of critical imagery in Proust and Derrida

Hebrew Psalms and the Utrecht Psalter Pamela Berger, 2020-01-28 In a major departure from previous scholarship this volume argues that the illustrations in the famous and widely influential Utrecht Psalter manuscript were inspired by a late antique Hebrew version of Psalms rather than a Latin Christian version of the text Produced during the early ninth century in a workshop near Reims France the Utrecht Psalter is illustrated with pen and ink drawings in a lively

style reminiscent of Hellenistic art The motifs are largely literal renditions of words and phrases found in the book of Psalms However more than three dozen motifs cannot be explained by either the Latin text that accompanies the imagery or the commentaries of the church fathers Through a close reading of the Hebrew Psalms Pamela Berger demonstrates that these motifs can be explained only by the Hebrew text the Jewish commentary or Jewish art Drawing comparisons between the Hellenistic style of the Psalter images and the style of late antique Galilean mosaics and using evidence from recent archaeological discoveries Berger argues that the model for those Psalter illustrations dependent on the Hebrew text was produced in the Galilee Pioneering and highly persuasive this book resolves outstanding issues surrounding the origins of one of the most extensively studied illuminated manuscripts It will be mandatory reading for many historians of medieval art and literature and for those interested in the Hebrew text of the book of Psalms
