You will run with the antelope across the American plains and learn about the food chain. Climb with a monkey to the highest tree in the rainforest and discover how photosynthesis keeps leaves green. Sink to the bottom of the ocean to follow creatures who have adapted to life in total darkness. Travel with a meteor at speeds up to 160,000 miles per hour. Burrow with the earthworms in your own backyard. Through it all, you'll find out how things synergize, regenerate, and evaporate, and lots more. And don't worry about the big words; they are all defined and explained with familiar examples in this fascinating trip through the natural world.
