## **Peter Wallensteen: A Pioneer in Making Peace**

**Researchable** Peter Wallensteen, 2021-05-28 This book provides a broad overview of what peace research is all about by an author who has been involved in the field for more than half a century Among other things it gives a unique review of how peace research emerged in Sweden as the author was a key actor in the most crucial events during this formative period The book also portrays how the discipline has grown from an initial focus on alternatives to war to the comprehensive study of the many dimensions of a lasting and positive peace The author s own work covers causes of war sanctions conflict resolution conflict data mediation and quality peace They demonstrate the range of topics that have to be understood for a peace with

quality This is exemplified by some of the author's writings specifically selected for this volume plus a few ones original to it Some accounts of the author's involvements in actual peace processes in the 1990s are also included This publication offers a substantial contribution to understanding the evolution of peace research as a field and is an important reading for scholars policy makers journalists students and any aspiring peace researcher as well as for the public at large Peter Wallensteen is a global pioneer of peace research due to his involvement in the creation of the Department of Peace and Conflict Research at Uppsala University a major center in the field He served as Head of Department from 1972 to 1999 Peter Wallensteen set up and directed the well known Uppsala Conflict Data Program UCDP the global resource for the study of armed conflicts and peace negotiations 1978 2015 Peter Wallensteen was the first holder of the Dag Hammarskjöld Chair in Peace and Conflict Research at Uppsala University 1985 2012 He was also the first holder of the position as the Richard G Starmann Sr Research Professor of Peace Studies at the Kroc Institute for International Peace Studies University of Notre Dame USA 2006 2018 *The Treaty on Conventional Armed Forces in Europe* Mark Wilcox, 2024-03-04 This work examines the CFE Treaty as a factor in Russia's foreign and security policy Moscow showed amazing persistence in their relationship with the cornerstone of European security Their approach to the treaty was a genuine attempt to shape the security environment in Europe and the former USSR The treaty also enabled the dismantling of large conventional forces as they returned from Eastern Europe and transitioned into the armies of the newly independent states of the former USSR The CFE Treaty though proved ineffective at constraining the enlargement of NATO Simultaneously Moscow's foreign and security policy evolved from one that focused on the domestic development of the country to that of a more confident state reasserting itself as a great power Drawing extensively on primary sources and analyses by Russian authors this book employs two historical narratives case studies and a conceptual framework to show that while Moscow remained engaged with the CFE Treaty undesired effects on Russia's national interests gradually accrued at the expense of desired ones leading Vladimir Putin to withdraw Russia from the treaty as an act of decoupling from the collective West This book is relevant to scholars and policymakers who want to understand Russia's approach to arms control as an element of military security **Proceedings**

world It identifies what factors have led to this rise and positions these in historical and global contexts This important study also provides case studies and first hand accounts from journalists working in some of the most dangerous places in the world today and seeks to understand the different pressures they must confront It also examines industry and political responses to these trends and pressures as well as the latest international initiatives aimed at challenging cultures of impunity and keeping journalists safe Throughout the authors argue that journalism contributes a vital if often neglected role in the formation and conduct of civil societies This is why reporting from uncivil places matters and this is why journalists are often positioned in harm s way The responsibility to report in a globalizing world of crises and human insecurity and the responsibility to try and keep journalists safe while they do so it is argued belongs to us all

*Developing a Normative Framework for the Protection of Internally Displaced Persons* Simon Bagshaw,2021-10-01 The author presents a systematic review of the role of treaties in international law and seeks to demonstrate that their importance is today somewhat overstated given the extent to which States and other organizations tend to resort to more flexible means of standard setting in order to promote respect for human rights As this text demonstrates the collaboration of various governmental intergovernmental and non governmental representatives can result in an instrument which may be broader in scope and more progressive in content If reinforced by suitable implementation measures it can be even more effective than a treaty in regulating States activities Published under the Transnational Publishers imprint
