### **Depression and Narrative Hilary**

Clark,2008-10-09 Depression and Narrative examines stories of depression in the context of recent scholarship on illness and narrative which up to this point has largely focused on physical illness and disability Contributors from a number of disciplinary perspectives address these narrative accounts of depression by both sufferers and those who treat them as they appear in memoirs diaries novels poems oral interviews fact sheets blogs films and television shows Together they explore the stories we tell about depression its contested causes its gendering the transformations in identity that it entails and the problems it presents for communication associated as it is with stigma and shame Unlike certain physical illnesses such as cancer depression is stigmatized sometimes as a nonproblem the sufferer should snap out of it and sometimes as the slippery slope to madness Thus depression narratives have their work cut out for them This book highlights the work these stories do including bringing meaning to sufferers explaining depression justifying therapies and treatments and reducing the burden of shame accounting for a suffering that is in the end unaccountable

### **Feminism and a Vital Politics of Depression and**

**Recovery** Simone Fullagar,Wendy O'Brien,Adele Pavlidis,2019-08-13 Drawing upon insights from feminist new materialism the book traces the complex material discursive processes through which women s recovery from depression is enacted within a gendered biopolitics Within the biomedical assemblage that connects mental health policy service provision research and everyday life the gendered context of recovery remains little understood despite the recurrence and pervasiveness of depression Rather than reducing experience to discrete biological psychological or sociological categories feminist thinking moves with the biopsychosocialities implicated in both distress and lively modes of becoming well Using a post qualitative approach the book creatively re presents how women do recovery within and beyond the normalising imperatives of biomedical and psychotherapeutic practices By pursuing the affective movement of self through depression this inquiry goes beyond individualised models to explore the enactment of multiple self world relations Reconfiguring depression and recovery as bodymind matters opens up a relational ontology concerned with the entanglement of gender inequities and mental ill health

**The Vulnerable Empowered Woman** Tasha N. Dubriwny,2012-11-14 The feminist women s health movement of the 1960s and 1970s is credited with creating significant changes in the healthcare industry and bringing

women's health issues to public attention. Decades later, women's health issues are more visible than ever before, but that visibility is made possible by a process of depoliticization. *The Vulnerable Empowered Woman* assesses the state of women's healthcare today by analyzing popular media representations: television, print newspapers, websites, advertisements, blogs, and memoirs in order to understand the ways in which breast cancer, postpartum depression, and cervical cancer are discussed in American public life. From narratives about prophylactic mastectomies to young girls receiving a vaccine for sexually transmitted disease, the representations of women's health today form a single, restrictive identity: the vulnerable empowered woman. This identity defuses feminist notions of collective empowerment and social change by drawing from both postfeminist and neoliberal ideologies. The woman is vulnerable because of her very femininity and is empowered not to change the world but to choose from among a limited set of medical treatments. The media's depiction of the vulnerable empowered woman's relationship with biomedicine promotes traditional gender roles and affirms women's unquestioning reliance on medical science for empowerment. The book concludes with a call to repoliticize women's health through narratives that can help us imagine women and their relationship to medicine differently.

**Behind the Mask of the Strong Black Woman** Tamara Beauboeuf-Lafontant, 2009-06-26 Explores the restrictive myth of the strong black woman through interviews revealing the emotional and physical toll this performance can have.

**African Americans Doing Feminism** Aaronette M. White, 2012-02-01 How might ordinary people apply feminist principles to everyday situations? How do feminist ideas affect the daily behaviors and decisions of those who seek to live out the basic idea that women are as fully human as men? This collection of essays uses concrete examples to illuminate the ways in which African Americans practice feminism on a day-to-day basis. Demonstrating real-life situations of feminism in action, each essay tackles an issue such as personal finances, parenting, sexual harassment, reproductive freedom, incest, depression, and addiction, or romantic relationships and articulates a feminist approach to engaging with the problem or concern. Contributors include African American scholars, artists, activists, and business professionals who offer personal accounts of how they encountered feminist ideas and are using them now as a guide to living. The essays included reveal how feminist principles affect people's perceptions of their ability to change themselves and society because the personal is not always self-evidently political.

**When Older Women Speak** Ester Carolina Apesoa-Varano, Charles Varano, 2020-03-17 Studying the interaction of gender, class, race, ethnicity, and aging in the depression experience of older women provides a unique opportunity to understand how aging plays a significant role in shaping conceptions of self and emotional health trajectories for women. Based on author interviews with mostly working-class, depressed elderly women, this book contributes to the theoretical understanding of femininity and aging and the practical implications for policy and effective health care treatment. Cultivating an alternative self can reduce older women's suffering and provide the emotional resources to change their inner worlds, even if the outer world stretches beyond their control. Depression affects women twice as often as men. Up to 40 percent of older adults

respond poorly to depression treatment and depression is linked to higher morbidity and mortality rates and cognitive decline Older adults with depression have 50 percent higher health care costs yet depression is accurately recognized in less than one half of older adults in primary care While older men are more likely to die by suicide older women are two to three times more likely to attempt suicide and depression is the best predictor of suicide in older adults Latina and African American women have lower rates of depression treatment compared to non minority women From issues of health care access to the stigma of depression older Latinas and African American women are at an increased risk for untreated depression This book seeks to address some of the significant gaps in our knowledge of late life depression in women especially in ethnic minorities ranging from detection and efficacy of depression treatment to informal influences e g family on formal depression care seeking *Feminist Narrative Research* Jo Woodiwiss, Kate Smith, Kelly Lockwood, 2017-07-04 This book explores the rich diverse opportunities and challenges afforded by research that analyses the stories told by for and about women Bringing together feminist scholarship and narrative approaches it draws on empirical material social theory and methodological insights to provide examples of feminist narrative studies that make explicit the links between theory and practice Examining the story as told and using examples of narratives told about childhood sexual abuse domestic relationship abuse motherhood and seeking asylum it raises wider issues regarding the role of storytelling for understanding and making sense of women s lives This thought provoking work will appeal to students and scholars of women s studies feminist and narrative researchers social policy and practice sociology and research methods **Modernism, Feminism and the Culture of Boredom** Allison Pease, 2012-08-27 Bored women populate many of the most celebrated works of British modernist literature Whether in popular offerings such as Robert Hitchens s *The Garden of Allah* the esteemed middlebrow novels of May Sinclair or H G Wells or now canonized works such as Virginia Woolf s *The Voyage Out* women s boredom frequently serves as narrative impetus antagonist and climax In this book Allison Pease explains how the changing meaning of boredom reshapes our understanding of modernist narrative techniques feminism s struggle to define women as individuals and male modernists preoccupation with female sexuality To this end Pease characterizes boredom as an important category of critique against the constraints of women s lives arguing that such critique surfaces in modernist fiction in an undeniably gendered way Engaging with a wide variety of well and lesser known modernist writers Pease s study will appeal especially to researchers and graduates in modernist studies and British literature **The SAGE Handbook of Qualitative Research Ethics** Ron Iphofen, Martin Tolich, 2018-02-05 This handbook is a much needed and in depth review of the distinctive set of ethical considerations which accompanies qualitative research This is particularly crucial given the emergent dynamic and interactional nature of most qualitative research which too often allows little time for reflection on the important ethical responsibilities and obligations Contributions from leading international researchers have been carefully organised into six key thematic sections Part One Thick Descriptions Of Qualitative Research Ethics Part Two Qualitative

Research Ethics By Technique Part Three Ethics As Politics Part Four Qualitative Research Ethics With Vulnerable Groups Part Five Relational Research Ethics Part Six Researching Digitally This Handbook is a one stop resource on qualitative research ethics across the social sciences that draws on the lessons learned and the successful methods for surmounting problems the tried and true and the new      **Feeling Trapped** James Ptacek, 2023-02-07 The relationship between class and intimate violence against women is much misunderstood While many studies of intimate violence focus on poor and working class women few examine the issue comparatively in terms of class privilege and class disadvantage James Ptacek draws on in depth interviews with sixty women from wealthy professional working class and poor communities to investigate how social class shapes both women s experiences of violence and the responses of their communities to this violence Ptacek s framing of women s victimization as social entrapment links private violence to public responses and connects social inequalities to the dilemmas that women face      Journal of Moral Theology, Volume 14, Issue 1 M.
