Slomannyi Mech Imperii:

Russian Nuclear Orthodoxy Dmitry Adamsky, 2023-05-25 A richly documented analysis of the post Soviet nexus between religion nationalism and nuclear weapons An important pioneering work David Holloway Stanford University A nuclear priesthood has arisen in Russia From portable churches to the consecration of weapons systems the Russian Orthodox Church has been integrated into every facet of the armed forces to become a vital part of Russian national security politics and identity This extraordinary intertwining of church and military is nowhere more visible than in the nuclear weapons community where the priesthood has penetrated all levels of command and the Church has positioned itself as a guardian of the state s nuclear potential Russian Nuclear Orthodoxy considers how since the Soviet collapse in 1991 the Church has worked its way into the nuclear forces of one of the world s most powerful militaries Dmitry Adamsky describes how the Orthodox faith has merged with Russian national identity as the Church continues to expand its influence on foreign and domestic politics The Church both legitimizes and influences Moscow s assertive national security strategy in the twenty first century This book highlights the implications of this phenomenon for international security and interrogates how the confluence of religion and security could influence other members of the nuclear club beyond Russia **Una guerra**

ortodoxa: Rusia, Ucrania y la religión, 1988-2024 Jean Meyer, 2025-03-10 Este libro estaba pensado como el tomo II de la Historia religiosa de Rusia y sus imperios que va desde el a o 988 hasta el fin de la Uni n Sovi tica El inicio de la segunda fase de la guerra de agresi n rusa contra Ucrania en 2022 impuso una nueva lectura del material acumulado por el autor desde 1988 Si bien es cierto que los gobiernos de la Federaci n de Rusia nunca renunciaron a su misi n imperial no es menos cierto que los sujetos del Imperio no renunciaron a su independencia incluso al costo de la guerra En ese conflicto b lico la dimensi n religiosa est presente algo que puede sorprender si uno piensa que Rusia Georgia y Ucrania son pueblos de mayor a ortodoxa Para entender la presencia del factor religioso el autor analiza de manera detallada y profunda el crecimiento institucional de la Iglesia ortodoxa rusa y su alianza estrecha con los gobiernos de Yeltsin y Putin y con las Fuerzas Armadas de la Federaci n de Rusia contrastando las diferencias en las pr cticas religiosas de los ortodoxos rusos y ucranianos

Religion as Securitization in Central and Eastern Europe András Máté-Tóth, Kinga Povedák, 2024-09-18 Religion as Securitization in Central and Eastern Europe examines the significance of securitization theory as a reference point in understanding current religious socio cultural and political processes in Central and Eastern Europe CEE It explores contemporary social processes and discourses on security linked to religion and religious institutions CEE has experienced many confluences of security issues with religious interpretations and world views For instance the international refugee and migration crisis could not be separated from the counterpoint between Christianity and Islam in political discussions Similarly the debates on LGBT family recognition and the traditional family model are inseparable from the Christian family as a reference point The security needs of the region are particularly acute trigger points which can be instrumentalized by

political power. In other words, the threat sensitivities of collective identity make the region particularly well suited to being a focus of securitization both from the host side and from the discourses that are enforced from above. In this volume, the authors approach the validity of securitization in relation to religion and religion itself as securitization from a broader perspective. They show not only what religious facts and aspects have become threatening in the process of securitization but also that the function of religion in the CEE region can be described and understood primarily as securitization. This unique collection of studies offers a comprehensive theoretical and methodological approach while the case studies are drawn from more than seven countries in the region by leading scholars. The book will be of interest to scholars from a wide range of disciplines including political science, history, anthropology, and religious studies. It will also function as an important introductory work for students to this specific area of research.
