THE MAKING OF AMERICANS (Family Saga) Gertrude Stein, 2023-12-30 In *The Making of Americans* Being a History of a Family's Progress Gertrude Stein embarks on a profound exploration of identity and the American experience through the lens of a single family saga. Written in her signature experimental prose, the book eschews conventional narrative structure for a rich tapestry of repetition and cumulative language that captures the essence of personal and cultural evolution over time. Stein situates her work within the context of early 20th-century American modernism, reflecting on themes of continuity, transformation, and the intricate web of familial relationships that illuminate the broader societal changes of the era. Gertrude Stein, a prominent figure of the avant-garde movement, was deeply influenced by her experiences in both Europe and America. Her novel reflects her fascination with the nuances of identity shaped by her connections to the expatriate artistic community in Paris and her desire to articulate the complexities of American life. Stein's keen observational skills, coupled with her innovative approach to language, provide a unique insight into the psyche of a nation and the intricate dynamics of family. Readers seeking a challenging yet rewarding literary experience will find *The Making of Americans* to be an essential work that provokes deep reflection on identity and belonging. As much a philosophical treatise as a narrative, this book offers timeless insights into the American condition, making it a recommended read for anyone interested in literature history and the evolution of cultural identity.

Craft Entrepreneurship Annette Naudin, Karen Patel, 2020-12-10 Craft practice has experienced a sharp rise in popularity since the late 2000s, partly through the aura of the analogue and the desire for authentic handmade products in an increasingly fast-paced digitalised world (Luckman 2015) but also because of digital platforms such as Etsy and social media enabling anyone to become a craft entrepreneur. This book brings together historical policy and individual narratives to inform a broad understanding of craft entrepreneurship. Drawing on case studies from around the world, *Craft Entrepreneurship* considers questions of identity, community, and the digital in craft entrepreneurship. In doing so, it finds craft activities to be positioned between or across the arts heritage, notions of a bohemian lifestyle, and the challenges of micro-entrepreneurship. By engaging with the contradictions and fragility of sustaining a craft practice, the chapters in this book contribute to different perspectives for entrepreneurship studies. The contributions to this volume illustrate the craft entrepreneurs' identity, motivation, and sense of creative purpose through their craft as these collide with the tensions brought about through entrepreneurship.
