**The Power of Scent** Hanns Hatt,Regine Dee,2025-07-07 Nothing is possible without the nose We breathe smell and taste with it Smells warn us of dangers and scents can awaken memories and feelings All without including the mind The nose decides who we find seductive or who we simply can t smell We often only realize how important smell is when illnesses like corona rob us of this sense Everyone s scent preferences are individual Just like our own scent which sends out messages and helps us find a partner The exciting thing is We don t just perceive these messages

with our nose scents have an effect on the whole body As the latest scientific research has shown they can also accelerate the healing of wounds change the heartbeat and improve hair growth and digestion They also influence the brain we may become calmer or more active Even tumor cells react to scents and reduce their growth Conversely tumor cells themselves emit odorous substances which trained dogs can recognize This book is a translation of the original German edition *Die Lust am Duft* by Hanns Hatt and Regine Dee published by Springer Verlag GmbH DE in 2023 The translation was done with the help of an artificial intelligence machine translation tool The authors subsequently revised and added new content and the text was copy edited to enhance its style
