A History of Global Anglicanism Kevin Ward, 2006-11-23 Anglicanism can be seen as irredeemably English In this book Kevin Ward questions that assumption He explores the character of the African Asian Oceanic Caribbean and Latin American churches which are now a majority in the world wide communion and shows how they are decisively shaping what it means to be Anglican While emphasising the importance of colonialism and neo colonialism for explaining the globalisation of Anglicanism Ward does not focus predominantly on the Churches of Britain and N America nor does he privilege the idea of Anglicanism as an expansion of English Christianity At a time when Anglicanism faces the danger of dissolution Ward explores the historically deep roots of non Western forms of Anglicanism and the importance of the diversity and flexibility which has so far enabled Anglicanism to develop cohesive yet multiform identities around the world

America and the Far East George Waldo Browne, Nathan Haskell Dale, 1910 **The Glory of Israel**, 1903 Essays in the History of Canadian Law Hamar Foster, John McLaren, 1995-12-15 This sixth volume in the Osgoode Society's distinguished series on the history of Canadian law turns to a central theme in the history of British Columbia and the Yukon: law and order. In the early days of British sovereignty the frenzied activity of the fur trade and the gold rush along with clashes between settlers and Natives made law enforcement a difficult business. Later, although law and order were more firmly established, tensions continued between the dominant populations committed to the practice and rhetoric of British justice and those groups owing allegiance to other value systems such as Native peoples, Asian immigrants and Doukhobors or those resisting authority, criminals and the criminally insane. These essays look at key social, economic and political issues of the times and show how they influenced the developing legal system. The essays cover a wide range of topics and explore the human as well as the legal dimensions of their subjects, relating specific cases to broader theory. They demonstrate that English law has been flexible enough to accommodate diversity and is therefore pragmatic. The volume also proves that there is no single Canadian legal culture; geography, demography, politics, economics and military considerations have had an impact on the shape of our legal culture. The introduction by John McLaren and Hamar Foster pulls together the many regional themes to provide a clear overview of the legal complexities of the period.

Dictionary of Canadian Biography / Dictionnaire Biographique Du Canada Frances G. Halpenny, Jean Hamelin, 1990-05 These biographies of Canadians are arranged chronologically by date of death. Entries in each volume are listed alphabetically with bibliographies of source material and an index to names.

New Histories for Old Theodore Binnema, Susan Neylan, 2011-11-01 Scholarly depictions of the history of Aboriginal people in Canada have changed dramatically since the 1970s when Arthur J. Skipper entered the field. *New Histories for Old* examines this transformation while extending the scholarship on Canada's Aboriginal history in new directions. The collection combines essays by prominent senior historians, geographers and anthropologists with contributions by new voices in these fields. The chapters reflect the core themes studied by Skipper himself, including Native struggles for land and resources under colonialism, the fur trade, Indian policy and treaties, mobility and migration, disease and well-being and Native newcomer relations. This book sheds new light on the history of scholarship on Canada's Aboriginal past and the leading role played by one of Canada's foremost historians. It also provides a fascinating snapshot of the lines of inquiry pursued by emerging scholars in the field. *New Histories for Old* is a major contribution to understanding Native newcomer relations, Native struggles for land and resources under colonialism, Indian policy and treaties, mobility and migration, disease and well-being and questions about doing Native history. It will appeal to scholars and students in history, Native studies, geography, anthropology and related fields.
