The Parable of His-Story Nick Taylor, 2011-12-16 If History is written by the victors then this is His Story as corrected by the losers The Parable of His Story is a telling of the age where men have been in charge Inspired by ideas of feminism

and spirituality it suggests that eternal rules are temporary examples of a one sided story repeatedly told to glorify the masculine and denigrate the feminine Charting the origin of this story at the dawn of civilization the book details how his story spread across the world through successive masculine driven empires and affected our ideas of sex gender sexuality and race As the financial system crumbles as religious and political ideologies grow more extreme and as more of us contribute to a collective consciousness through the Internet The Parable offers suggestions as to what we need to remember in order to bring ourselves and our relations with our planet back into balance If you ve ever wondered why zero has been taught to mean nothing why gay has come to be synonymous with rubbish and why all the major monotheistic gods are blokes then this book is for you *The Invisible Bestseller* Kenneth A. Jonathan Marks,2021-06-15 The evidence for the ancestry of the human species among the apes is overwhelming But the facts are never just facts Human evolution has always been a value laden scientific theory and as anthropology makes clear the ancestors are always sacred They may be ghosts or corpses or fossils or a naked couple in a garden but the idea that you are part of a lineage is a powerful and universal one Meaning and morals are at play which most certainly transcend science and its quest for maximum accuracy With clarity and wit Jonathan Marks shows that the creation evolution debate is not science versus religion After all modern anti evolutionists reject humanistic scholarship about the Bible even more fundamentally than they reject the science of our simian ancestry Widening horizons on both sides of the debate Marks makes clear that creationism is a theological not a scientific debate and that thinking perceptively about values and meanings should not be an alternative to thinking about science it should be a key part of it **Wandering, Not Lost** Barry L. Shema,2012-10-22 Our creator finally provides the actual details of his design in the long sort after Theory of Everything
Now our eyes finally open to fully understand the world which we have studied The tribes and so called races of man have all
been given pieces of this massive puzzle When put together it weaves a tapestry of one beautiful story The bible provides the
structure the Africans provide a first person account Native Americans hold vital elements the Aztecs tell us the thoughts of
God and his expectations for his designs Asian theology focuses on living today and Christianity takes us to a new tomorrow
But no story could be complete without the details the process used the illusive How for this we thank the final seers of
science The bible tells us that to achieve the design of man God cursed man to become weaker naked to have pain during
labor and the entire event is triggered in the process of eating Geneticist confirm that the genetic mutations which
transformed man are weaker muscles a narrower pelvic cavity a significant loss of body hair and a redesign in the jaw
muscles which allows the brain to grow much larger than other primates From this we discover that what science refers to as
a genetic mutation is considered a biblical curse And from this every curse from those relating to incest and over eating are
connected to mutations From the weaving of the universe to the wiring of the brain every question you ve ever asked about
life and death and who we are is finally answered God is not dead he is life **Legendlore - Volume 1: The Realm**
