subsequent chapters he covers the period from Waterloo to the Crimea and the various small wars Ashanti China Kaffir Sikh and then the Crimean War when it became the Land Transport Corps and the Military Train The Army Service Corps was authorised under that title in November 1869 and the rest of the book is the record of the Corps up to the end of the S African War There is a very useful appendix which provides a tabulated history of the Corps and its predecessors from 1794 to 1894 highlighting all the significant dates and events The second volume is essentially concerned with the Great War with a lengthy introduction by John Fortescue followed by a detailed survey of the Corps progress during the period from the end of the war in S Africa to the eve of the Great War Then comes the detailed study of the activities of the Corps in that war and in every theatre of that war including operations on the NW Frontier This is a fine history and it is a salutary reminder that the history of the Corps is very much the history of the British Army
