research on the topic *Buddha* Tammy Gagne,2019-09-04 Buddha is known throughout the world today as one of the greatest spiritual leaders in history But at one time he was the prince of a small kingdom in India However Siddhartha as he was once known didn't fit into his royal world very well Although he tried in many ways Siddhartha just didn't care about wealth and power the way other young men his age would have Instead he dreamed of achieving enlightenment and helping others to discover this highest state of human existence At the age of 29 Siddhartha walked away from his life in the palace What he did after that departure would change the lives of countless others up to the present day *Junior Assembly Book* Doreen Vause,Liz Beaumont,1989 A source of assembly ideas for the busy teacher this book presents stories and poems many from around the world The material for the 8 to 13 age group is designed to encourage children to think about themselves their world and their feelings fostering understanding and tolerance of the cultures and beliefs of others *The Story of the Buddha* Jonathan Landaw,1980 **Buddhism For Dummies** Jonathan Landaw,Stephan Bodian,2011-03-08 From the outside Buddhism seems like a bundle of contradictions wrapped inside a paradox It is a religion without a god a belief system without rules and a faith that encourages its adherents to question everything including its own teachings You could spend a lifetime studying Buddhist texts and following its observances and still feel like you've only just barely scratched the surface Yet over the past 2500 years this lovely religion that preaches compassion generosity tolerance selflessness and self awareness has commanded the fervent devotion of hundreds of millions of people around the world who believe it to be the true path to enlightenment If you're curious about Buddhism but feel intimidated by all the exotic jargon and strange trappings this book is for you Written by two leading American Buddhist teachers and scholars it offers you a uniquely friendly way to explore the fascinating history of Buddhism and discover Who Buddha was and his significance in world history and spirituality How the practice of Buddhism can enrich your everyday life How Buddha's teachings combine to create a path to enlightenment Daily observances and meditation practices How to fulfill your highest potential through Buddhism In plain English experts Jonathan Landaw and Stephan Bodian define the important terms explain the key concepts and explore in depth a wide range of topics including Buddha's life and teachings and the evolution of the major Buddhist traditions How Buddhism works as a religion philosophy of life and a practical approach to dealing with life's problems all rolled into one The idea that the mind is the source of all happiness and suffering How the practices of wisdom and compassion can connect you with your inner spiritual resources Meditation and other core Buddhist practices and how they can affect your everyday life How to apply Buddhist teachings at each stage along the spiritual path Whether you're a searcher of truth a student of religions or just curious about what's got Richard Gere and all the rest of those celebrity Buddhists so excited Buddhism For Dummies is your intro to Buddhism basics **Buddhist Festivals Through the Year** Anita Ganeri,2003-08-01 Buddhist Festivals throughout the Year tells the story behind each festival and describes how it is celebrated around the world today **The Quest** ,2000 *Persian Words of Wisdom* Bahman Solati,2015-10-05 What is the

secret of happiness What is the nature of love What makes us good hosts or good guests What traits should we seek out in friends and seek to embody as friends ourselves How should we approach the sensual beauties of this world when do they induce us to error and when are they signs of God The poets and bards of many traditions have long sought answers to such questions but perhaps no culture has taken up this challenge with more passionate urgency than that of Persia from the ninth century AD to modern day Iran These eleven centuries of poetic tradition include poets who have become well known in the West such as Umar Khayyam Rumi and Hafiz as well as many others whom Westerners have yet to discover In Iran these poems remain part of everyday popular culture with people of all classes and levels of education able to recite them from memory even if they may not always be sure who the poets were where they came from or what precisely was the spiritual intent behind the verse In *Persian Words of Wisdom* the US based Iranian scholar Bahman Solati has compiled hundreds of examples reflecting his country's religious and spiritual traditions especially the Shia branch of Islam and Islamic Sufism but also the Zoroastrian faith This bilingual edition with his own English translations further illuminates the sometimes enigmatic poems with parallel Western proverbs as well as comparison quotations from Christian Jewish and Buddhist scripture and secular sources ranging from Mark Twain to Dale Carnegie One of Solati's goals in this anthology is to build a cultural bridge through poetry between the West and Iran making these treasures of Persian culture more available both to Westerners generally and most specifically to young people of Iranian descent who have grown up in the English speaking world perhaps without fully understanding the wealth of their heritage For them and all readers this will be a book of discovery
