Helen could read entire books In May 1888 Helen went north to visit Boston with her mother and teacher She spent some time studying at the Perkins Institute for the Blind and quickly befriended the other blind girls who were her age They spent a vacation at Brewster in Cape Cod where Helen experienced the ocean for the first time Following this they spent nearly every winter up north Once she had learned to read Helen was determined next to learn how to speak Her teacher and many others believed it would be impossible for her to ever speak normally but she resolved to reach that point Miss Sullivan took her to the Horace Mann School in 1890 to begin learning with Miss Sarah Fuller and Helen learned by feeling the position of Miss Fuller s lips and tongue when she spoke The moment she spoke her first words It is warm was a powerful memory for her she was thrilled that she might be able to speak to her family and friends at last The winter of 1892 was a troubling time for Helen Seemingly inspired by the beautiful fall foliage around her she wrote a story called The Frost King and sent it up to her teacher at the Perkins Institute as a gift It soon came out that Helen s story was quite like another in a published book called The Frost Fairies Helen had been read the original story as a child and the words had remained so ingrained in her mind that she d unwittingly plagiarized them when she wrote her own story This tainted Helen s relationship with her Perkins Institute teacher Mr Anagnos and made her distrust her own mind and the originality of her thoughts for a long time In 1894 Helen attended the Wright Humanson School for the Deaf in New York City and began studying formal subjects like history Latin French German and arithmetic In 1896 she began her studies at the Cambridge School for Young Ladies in Massachusetts which would prepare her to eventually attend Radcliffe College the women s college affiliated with Harvard University This was her first time attending school with girls who could see or hear rather than other students who were also deaf or blind
