*The Illustrated History of American Military Commissaries* Peter D. Skirbunt, 2008 Presents a comprehensive history spanning the 233 years of the four major services sales commissaries     **The Illustrated History of American Military Commissaries: The Defense Commissary Agency and its predecessors, since 1989** Peter D. Skirbunt, 2008 Presents a comprehensive history spanning the 233 years of the four major services sales commissaries     *Southern Region Through the 1960s* Michael Hymans, 2017-10-15 A year by year journey through Southern Region in the 1960s     **Surfing the South** Steve Estes, 2022-02-23 When most Americans think of surfing they often envision waves off the coasts of California Hawai i or even New Jersey What few know is that the South has its own surf culture To fully explore this unsung surfing world Steve Estes undertook a journey that stretched more than 2 300 miles traveling from the coast of Texas to Ocean City Maryland Along the way he interviewed and surfed alongside dozens of people wealthy and poor men and women Black and white all of whom opened up about their lives how they saw themselves and what the sport means to them They also talked about race class the environment and how surfing has shaped their identities The cast includes a retired Mississippi riverboat captain and alligator hunter who was one of the first to surf the Gulf Coast of Louisiana a Pensacola sheet metal worker who ran the China Beach Surf Club while he was stationed in Vietnam and a Daytona Beach swimsuit model who shot the curl in the 1966 World Surfing Championships before circumnavigating the globe in search of waves and adventure From these varied and surprising stories emerge a complex sometimes troubling but nevertheless beautiful picture of the modern South and its people     **The Story of the Southern USA Tanks** Howard Sprenger, 2004     [War Stories of the Tankers](#) Michael Green, 2008-02-15 This military history chronicles nearly a century of armored combat through firsthand accounts of soldiers from WWI to Iraq Starting with the century s first tanks as they entered no man s land during World War I War Stories of the Tankers continues through a century of military conflict all the way to Operation Desert Storm Here are the stories of green American tankers taking on massive and well armored German Tigers and fighting through a screaming sea of Red Chinese soldiers in Korea And here also are the personal tales of American tankers defending Western Europe from the threat of Soviet tanks during the Cold War From the American soldiers who pitted their tanks against the Viet Cong in the jungles of Southeast Asia to those who put their lives on the line in the streets of Baghdad these are the heroes of our time taking that rare moment to tell us what it is like to face the enemy in tank warfare     *Almanac of American Military History* Spencer C. Tucker, 2012-11-21 This almanac provides a comprehensive chronological overview of all American military history serving as the standard reference work of its type Almanac of American Military History is yet another reference work from acclaimed historian Dr Spencer C Tucker and ABC CLIO offering an unprecedented resource for a wide range of students and researchers A comprehensive four volume title this almanac traces all of American military history from the European voyages of discovery through 2011 chronicling the pivotal moments that have shaped the United States into the country it is

today In addition to documenting key events this title presents biographies of more than 250 key individuals and provides information on more than 250 historically significant technologies and weapons systems A detailed glossary is included as are discussions of ranks and military awards and decorations Divided into conflict periods each chapter includes a detailed chronology reference entry sidebars statistical information primary source documents and a bibliography *A People's History of the Cold War* Colin Turbett,2023-03-23 Between the closing battles of the Second World War and the collapse of the Soviet Union in 1991 the Cold War cast a shadow over the lives of people throughout the world while open conflict was avoided between the ideologically competing superpowers and their principal allies millions died in battlegrounds in parts of the world that were usually far from Moscow Washington and London The threat of nuclear annihilation was omnipresent but at the same time mutually assured destruction tempered conflict and focused minds Subtle and not so subtle attempts to influence popular opinion either way were apparent in everyday life on both sides of the divide while the power of the dollar and the burgeoning costs of the arms race eventually broke the Soviet economy the idea that capitalism won the the Cold War seems misplaced especially if one considers events that have happened since including very recent armed conflict The book takes the reader through main events of the period but focuses on the impact on ordinary citizens East and West and the view of events from their perspective This is a story of how economies on both sides were built around war preparations and the advance of destructive technologies that had no social benefits apart from the provision of employment Sources used are unusual in not fitting the western based narratives that pervade both academic histories and popular accounts However this book is not an apology for the more oppressive aspects of Soviet policy as the USSR struggled to build really existing socialism within its own borders and the Eastern Bloc countries under its immediate influence Instead it brings a people s perspective from both sides onto this important period of recent history whose consequences are very much still with us as we face modern challenges around climate change and growing inequality across our world *A People s History of the Cold War Stories from East and West* captures the mood of the times with its extensive contemporary illustrations **Patton's Vanguard** Don M. **The Columbia History of the Vietnam War** David L. Anderson, 2010-11-26 Rooted in recent scholarship The Columbia History of the Vietnam War offers profound new perspectives on the political historical military and social issues that defined the war and its effect on the United States and Vietnam Laying the chronological and critical foundations for the volume David L. Anderson opens with an essay on the Vietnam War's major moments and enduring relevance Mark Philip Bradley follows with a reexamination of Vietnamese revolutionary nationalism and the Vietminh led war against French colonialism Richard H. Immerman revisits Eisenhower's and Kennedy's efforts at nation building in South Vietnam and Gary R. Hess reviews America's military commitment under Kennedy and Johnson Lloyd C. Gardner investigates the motivations behind Johnson's escalation of force and Robert J. McMahon focuses on the pivotal period before and after the Tet Offensive Jeffrey P. Kimball then makes sense of Nixon's paradoxical decision to end U.S. intervention while pursuing a destructive air war John Prados and Eric Bergerud devote essays to America's military strategy while Helen E. Anderson and Robert K. Brigham explore the war's impact on Vietnamese women and urban culture Melvin Small recounts the domestic tensions created by America's involvement in Vietnam and Kenton Clymer traces the spread of the war to Laos and Cambodia Concluding essays by Robert D. Schulzinger and George C. Herring account for the legacy of the war within Vietnamese and American contexts and diagnose the symptoms of the Vietnam syndrome evident in later debates about U.S. foreign policy America's experience in Vietnam continues to figure prominently in discussions about strategy and defense not to mention within discourse on the identity of the United States as a nation Anderson's expert collection is therefore essential to understanding America's entanglement in the Vietnam War and the conflict's influence on the nation's future interests abroad

The Times When Men Must Die: The Story of the Destruction of the Philippine Army During the Early Months of World War II in the Pacific, December 1941-May 1942 , *The Last Thousand Days of the British Empire* Peter Clarke, 2010-09-01 A sweeping brilliantly vivid history of the sudden end of the British empire and the moment when America became a world superpower I have not become the King's First Minister in order to preside over the liquidation of the British

Empire Winston Churchill's famous statement in November 1942 just as the tide of the Second World War was beginning to turn pugnaciously affirmed his loyalty to the world wide institution that he had served for most of his life Britain fought and sacrificed on a worldwide scale to defeat Hitler and his allies and won Yet less than five years after Churchill's defiant speech the British Empire effectively ended with Indian Independence in August 1947 and the end of the British Mandate in Palestine in May 1948 As the sun set on Britain's Empire the age of America as world superpower dawned How did this rapid change of fortune come about Peter Clarke's book is the first to analyze the abrupt transition from Rule Britannia to Pax Americana His swiftly paced narrative makes superb use of letters and diaries to provide vivid portraits of the figures around whom history pivoted Churchill Gandhi Roosevelt Stalin Truman and a host of lesser known figures though whom Clarke brilliantly shows the human dimension of epochal events The Last Thousand Days of the British Empire is a captivating work of popular history that shows how the events that followed the war reshaped the world as profoundly as the conflict itself
