Storytime For 6 Year Olds:

Storytime for 6 Year Olds Joan Stimson, 2001 Storytimes for Children Stephanie G. Bauman, 2010-11-10 This text presents a compilation of the best of ideas from a group of library science graduate students providing creative and engaging programs geared especially for children ages 0-12. What are the concepts, activities and topics that will hold the attention of today's children? And what are the best ways to provide a valuable learning experience while they're having fun and being entertained? Many of the most original, creative and wildly effective ideas in storytime are contained in *Storytimes for Children*, a collection of fresh and vibrant programs created to be relevant, interesting and fun for today's youngest generations. This collection of themed storytimes includes suggestions for opening and closing sessions, crafts and activities, songs, poems, fingerplays and movements, as well as the accompanying literature. Several of the included storytimes comprise a series of programs allowing for related activities that build upon each other. The text is organized into six chapters, each prefaced by an introduction that clarifies the strengths of the programs within. Each chapter covers a highly targeted age range to give practitioners the ability to easily choose the most appropriate storytimes for any given audience. **Six Skills by Age Six** Anna Foote, Bradley Debrick, 2015-11-23 This one-stop guide to nurturing six core early literacy skills at your library also offers practical tips for sharing these skills with parents, teachers and other caregivers so they can institute them in playgroups in school or at home. Though libraries have been presenting early literacy activities for decades, library staff may lack an in-depth understanding of early literacy skills and their place in preparing children for a lifetime of learning. Based on the program 6 by 6 Ready to Read, this book is chock-full of practical, everyday ideas on how you can foster the six core early literacy skills children should ideally acquire by age six. The volume begins by introducing the importance of early literacy and explaining how to start or expand an early literacy program in your library regardless of its size. Subsequent chapters explore the six core skills and offer suggestions on how to showcase them in library programs and services. The book also includes activities that relate to each skill, suggests books that are especially useful in exploring each skill and tells you how to create early literacy spaces. Three sets of storytime plans, one each for babies, toddlers and preschoolers, are presented as well. Written primarily for public librarians and library staff, this guide will also be informative for parents and for educators who work with young girls and boys. *Storytime for 4 Year Olds* Joan Stimson, John Astrop, Caroline Astrop, 1989 Crash Course in Children's Services Penny Peck, 2014-09-26 Useful for newcomers to the children's library staff as well as longtime children's librarians, the second edition of this popular handbook provides easy-to-follow instructions to make innovations in children's library materials work for you. Addressing everything from the basics of reference to the complex and highly specialized duties of program development, this handbook is perfect for both librarians and support staff who are assigned to the children's department of a library. This second addition of *Crash Course in Children's Services* covers many of the new issues facing children's library staff, including eBooks, using apps in programming, other online reading.
