## **Straight Lick The Cinema Of Oscar Micheaux:**

*Straight Lick* J. Ronald Green, 2000-09-22 A critical examination of the films of Oscar Micheaux One of the most original and successful filmmakers of all time Oscar Micheaux was born into a rural working class African American family in mid America in 1884 yet he created an impressive legacy in commercial cinema Between 1913 and 1951 he wrote directed and distributed some forty three feature films more than any other black filmmaker in the world a record of production that is likely to stand for a very long time Micheaux s work was founded upon the concern for class mobility or uplift for African Americans Uplift provided the context for Micheaux s extensive commentary on racist cinema such as D W Griffith s 1915 blockbuster *The Birth of a Nation* which Micheaux answered with his very early films *Within Our Gates* and *Symbol of the Unconquered* Uplift explains Micheaux s use of negative images of African Americans as well as his multi pronged campaign against stereotype and caricature in American culture His campaign produced a body of films saturated with a nuanced intertextual signifying boldly and repeatedly treating controversial topics that face white censorship time after time topics ranging from white mob and Klan violence to light skin color fetish to white financing of black cultural productions **With**

**a Crooked Stick—The Films of Oscar Micheaux** J. Ronald Green, 2004 Readers will find this an invaluable guide to the preoccupations and features of Micheaux s remarkable career and the insight it provides into the African American experience of the 1920s and 30s *With a Crooked Stick* J. Ronald Green, 2004 With a crooked stick filmmaker Oscar Micheaux 1884 1951 sought to hit a straight lick by stressing the strategic importance of class mobility or uplift for African Americans A theme in all of his more than 40 feature length black produced black directed black cast and black audience films uplift would allow for the better things in life fast cars and fancy clothes freedom of belief financial security and an unencumbered intellectual life Although racism was an impediment to uplift for Micheaux and other African Americans race as a category was of a secondary order for him in the larger game of class In *With a Crooked Stick* J Ronald Green pursues this seeming contradiction in a detailed analysis of each of Micheaux s 15 surviving films He presents critical commentary on each film s plot and action and its contribution to the overall theme of uplift Readers will also find this an invaluable guide to the preoccupations and features of Micheaux s remarkable career and the insight it provides into the African American experience of the 1920s and 30s **Hollywood Fantasies of Miscegenation** Susan Courtney, 2021-12-07 Hollywood

*Fantasies of Miscegenation* analyzes white fantasies of interracial desire in the history of popular American film From the first interracial screen kiss of 1903 through the Production Code s nearly thirty year ban on depictions of miscegenation to the contemplation of mixed marriage in *Guess Who s Coming to Dinner* 1967 this book demonstrates a long popular yet underexamined record of cultural fantasy at the movies With ambitious new readings of well known films like D W Griffith s 1915 epic *The Birth of a Nation* and of key forgotten films and censorship documents Susan Courtney argues that dominant fantasies of miscegenation have had a profound impact on the form and content of American cinema What does it mean

Courtney asks that the image of the black rapist became a virtual cliché while the sexual exploitation of black women by white men under slavery was perpetually repressed. What has this popular film legacy invited spectators to remember and forget? How has it shaped our conceptions of and relationships to race and gender? Richly illustrated with more than 140 images, *Hollywood Fantasies of Miscegenation* carefully attends to cinematic detail, revising theories of identity and spectatorship as it expands critical histories of race, sex, and film. Courtney's new research on the Production Code's miscegenation clause also makes an important contribution, inviting us to consider how that clause was routinely interpreted and applied and with what effects.

**Race in American Film** Daniel Bernardi, Michael Green, 2017-07-07 This expansive three-volume set investigates racial representation in film, providing an authoritative cross-section of the most racially significant films, actors, directors, and movements in American cinematic history. Hollywood has always reflected current American cultural norms and ideas. As such, film provides a window into attitudes about race and ethnicity over the last century. This comprehensive set provides information on hundreds of films chosen based on scholarly consensus of their importance regarding the subject, examining aspects of race and ethnicity in American film through the historical context, themes, and people involved. This three-volume set highlights the most important films and artists of the era, identifying films, actors, or characterizations that were considered racist, were tremendously popular, or hugely influential, attempted to be progressive, or some combination thereof. Readers will not only learn basic information about each subject but also be able to contextualize it culturally, historically, and in terms of its reception to understand what average moviegoers thought about the subject at the time of its popularity and grasp how the subject is perceived now through the lens of history.

Comics and the U.S. South Brannon Costello, Qiana J. Whitted, 2012-01-20 *Comics and the U.S. South* offers a wide-ranging and long-overdue assessment of how life and culture in the United States South is represented in serial comics, graphic novels, newspaper comic strips, and webcomics. Diverting the lens of comics studies from the skyscrapers of Superman's Metropolis or Chris Ware's Chicago to the swamps, backroads, small towns, and cities of the U.S. South, this collection critically examines the pulp genres associated with mainstream comic books alongside independent and alternative comics. Some essays seek to discover what Captain America can reveal about southern regionalism and how slave narratives can help us reread *Swamp Thing*; others examine how creators such as Walt Kelly, Pogo, Howard Chaykin, *Stuck Rubber Baby*, Kyle Baker, Nat Turner, and Josh Neufeld's *A.D. New Orleans* after the Deluge draw upon the unique formal properties of the comics to question and revise familiar narratives of race, class, and sexuality; and another considers how southern writer Randall Kenan adapted elements of comics form to prose fiction. With essays from an interdisciplinary group of scholars, *Comics and the U.S. South* contributes to and also productively reorients the most significant and compelling conversations in both comics scholarship and in southern studies.

The Politics & Poetics of Black Film David C. Wall, Michael T. Martin, 2015-10-20 Written and directed by two white men and performed by an all-black cast, *Nothing But a Man* (Michael Roemer, 1964) tells the story of a drifter turned family man who struggles with the pressures

of small town life and the limitations placed on him and his community in the Deep South an area long fraught with racism Though unmistakably about race and civil rights the film makes no direct reference to the civil rights movement Despite this intentional absence contemporary audiences were acutely aware of the social context for the film s indictment of white prejudice in America To help frame and situate the film in the context of black film studies the book gathers primary and secondary resources including the original screenplay essays on the film statements by the filmmakers and interviews with Robert M Young the film s producer and cinematographer and Khalil Gibran Muhammad the Director of the Schomburg Center for Research in Black Culture Race, Gender, and Film Censorship in Virginia, 1922-1965 Melissa

Ooten,2014-12-18 This book chronicles the history of movie censorship in Virginia from the 1920s to 1960s At its most basic level it analyzes the project of state film censorship in Virginia It uses the contestations surrounding film censorship as a framework for more fully understanding the dominant political economic and cultural hierarchies that structured Virginia and much of the New South in the mid twentieth century and ways in which citizens contested these prevailing structures This study highlights the centrality of gendered and racialized discourses in the debates over the movies and the broader regulatory power of the state It particularly emphasizes ways in which issues of race class gender and sexuality framed debates over popular culture in the South It ties the regulation of racial and sexual boundaries in other areas such as public facilities schools public transportation the voting booth and residential housing to ways in which censors regulated those same boundaries in popular culture This book shows how the same racialized and gendered social norms and legal codes that placed audience members in different theater spaces also informed ways in which what they viewed on screen had been mediated by state officials Ultimately this study shows how Virginia s officials attempted to use the project of film censorship as the cultural arm of regulation to further buttress the state s political and economic hierarchies of the time period and the ways in various citizens and community groups supported and challenged these hierarchies across the censorship board s forty three year history **The Politics and Sociology of Silent Comedy Films** Richard W. popular films reflected the massive social changes that resulted from the Great Migration of African Americans from the rural South to cities in the North West and Mid West during the first three decades of the twentieth century By the onset of the Depression the Black population had become primarily urban transforming individual lives as well as urban experience and culture Massood probes into the relationship of place and time showing how urban settings became an intrinsic element of African American film as Black people became more firmly rooted in urban spaces and more visible as historical and political subjects Illuminating the intersections of film history politics and urban discourse she considers the chief genres of African American and Hollywood narrative film the black cast musicals of the 1920s and the race films of the early sound era to blaxploitation and hood films as well as the work of Spike Lee toward the end of the century As it examines such a wide range of films over much of the twentieth century this book offers a unique map of Black representations in film

**Black Hollywood** Kimberly Fain, 2015-06-30 This thought provoking work examines the dehumanizing depictions of black males in the movies since 1910 analyzing images that were once imposed on black men and are now appropriated and manipulated by them Moving through cinematic history decade by decade since 1910 this important volume explores the appropriation exploitation and agency of black performers in Hollywood by looking at the black actors directors and producers who have shaped the image of African American males in film To determine how these archetypes differentiate African American males in the public s subconscious the book asks probing questions for example whether these images are a reflection of society s fears or realistic depictions of a pluralistic America Even as the work acknowledges the controversial history of black representation in film it also celebrates the success stories of blacks in the industry It shows how blacks in Hollywood manipulate degrading stereotypes gain control advance their careers and earn money while making social statements or bringing about changes in culture It discusses how social activist performers such as Paul Robeson Sidney Poitier Harry Belafonte and Spike Lee reflect political and social movements in their movies and it reviews the interactions between black actors and their white counterparts to analyze how black males express their heritage individual identity and social issues through film

#### **Early Race Filmmaking in America**

Barbara Lupack, 2016-05-26 The early years of the twentieth century were a formative time in the long history of struggle for black representation More than any other medium movies reflected the tremendous changes occurring in American society Unfortunately since they drew heavily on the nineteenth century theatrical conventions of blackface minstrelsy and the Uncle Tom Show traditions early pictures persisted in casting blacks in demeaning and outrageous caricatures that marginalized and burlesqued them and emphasized their comic or servile behavior By contrast race films that is movies that were black cast black oriented and viewed primarily by black audiences in segregated theaters attempted to counter the crude stereotyping and regressive representations by presenting more authentic racial portrayals This volume examines race filmmaking from numerous perspectives By reanimating a critical but neglected period of early cinema the years between the turn of the century and 1930 the end of the silent film era it provides a fascinating look at the efforts of early race film pioneers and offers a vibrant portrait of race and racial representation in American film and culture

*For No Reason at All* Jeffrey A. Hinkelman, 2022-02-04 The years following the signing of the Armistice saw a transformation of traditional attitudes regarding military conflict as America attempted to digest the enormity and futility of the First World War During these years popular film culture in the United States created new ways of addressing the impact of the war on both individuals and society Filmmakers with direct experience of combat created works that promoted their own ideas about the depiction of wartime service ideas that frequently conflicted with established heroic tropes for the portrayal of warfare on film Those filmmakers spent years modifying existing standards and working through a variety of storytelling options before achieving a consensus regarding the fitting method for rendering war on screen That consensus incorporated facets of the experience of Great War veterans and these countered and undermined previously accepted narrative strategies This process reached its peak during the Pre Code Era of the early 1930s when the initially prevailing narrative would be briefly supplanted by an entirely new approach that questioned the very premises of wartime service Even more significantly the rhetoric of these films argued strongly for an antiwar stance that questioned every aspect of the wartime experience *For No Reason at All* The Changing Narrative of
