

Strands Of War

Mike Jess

Strands Of War:

Strategy as exemplified in the Second World War Alfred H. Burne (Lt Col.),1946 *Military Engineering* Great Britain. War Office,1913 Indian Warfare Surinder Kumar Bhakari,1981 Religion and War Timothy J. Demy,Gina Granados Palmer Ph.D.,2022-10-18 Looking at topics across the spectrum of America s wars religious groups personalities and ideas this volume shows that even in an increasingly secular society religious roots and values run deep throughout American society and are elevated in times of war There is a long and deep relationship between religion politics and war in U S history While there is a constitutional and legal separation of religion and the state in American society religion has been and remains a potent force in American culture and politics affecting many aspects of life including perspectives on war and peace and the experience of war in U S history From the American Revolution to the wars of the 21st century religious values have informed and influenced American attitudes toward war and peace and have provided rationale for support and non support of American participation in conflicts An overview essay surveys the background and significance of religion in American culture and provides historical context for discussions of contemporary topics A timeline highlights key events related to wars and conflicts The volume then includes more than 50 topical essays that discuss specific wars as well as religious themes within culture and politics ultimately providing a detailed overview of the intersection of religion war and politics in contemporary America

Terrorism and the Ethics of War Stephen Nathanson,2010-05-13 Most people strongly condemn terrorism yet they often fail to say how terrorist acts differ from other acts of violence such as the killing of civilians in war Stephen Nathanson argues that we cannot have morally credible views about terrorism if we focus on terrorism alone and neglect broader issues about the ethics of war His book challenges influential views on the ethics of war including the realist view that morality does not apply to war and Michael Walzer s defence of attacks on civilians in supreme emergency circumstances It provides a clear definition of terrorism an analysis of what makes terrorism morally wrong and a rule utilitarian defence of noncombatant immunity as well as discussions of the Allied bombings of cities in World War II collateral damage and the clash between rights theories and utilitarianism It will interest a wide range of readers in philosophy political theory international relations and law

Military Engineering Great Britain. War Office,1941 *Strategy in World War II* Alfred Higgins Burne,1947 Global Perspectives on Military Entrepreneurship and Innovation Ojo, Sanya,2021-02-19 Like other organizations across the world military establishments apply the concept of entrepreneurship to day to day activities However literature on the topic runs thin creating a gap in the research on this area of military involvement in entrepreneurship These studies focus heavily on three topics ex military officers in entrepreneurship entrepreneurial minded individuals still in the military and military spouses as successful entrepreneurs It is essential that researchers interrogate these three areas across different locational contexts for a clear representation and understanding of the many forms of military entrepreneurship This research focuses on outcomes the entrepreneurial

process economic activities and ontological directions Military entrepreneurship is cross cultural spans varied locations and is linked to retired retiring serving military personnel and military spouses Global Perspectives on Military Entrepreneurship and Innovation builds on existing theoretical and empirical studies in the areas of entrepreneurship and military business and enterprise to interrogate the concepts of military entrepreneurship veteran entrepreneurship military spouse entrepreneurship or military women entrepreneurship and retirees entrepreneurship The book is a collection of studies on military entrepreneurship treating the subject with emphasis on metacognition and interrogates differences in metacognitive processing across cultures and values relating to military entrepreneurship The chapters cover various concepts in military entrepreneurship and promote entrepreneurship research within the military ecosystem This book is ideal for military personnel entrepreneurs managers practitioners researchers academicians and students interested in the concept of military entrepreneurship and innovation narratives

Instruction in military engineering [afterw.] Military engineering Vol.1- . [Various eds. With] Amendments War office,1887 **Rolling Back Revolution** Ivan Molloy,2001-07-20 Ivan Molloy analyses the de facto foreign policy strategy of Low Intensity Conflict as propagated by the United States He recounts how LIC emerged during the Reagan Administration as a way of counteracting the legacy left by the Vietnam War which constrained America from getting involved in direct military intervention Part covert part overt LIC was developed as a low cost and low risk method of dealing with revolutionary movements and post revolutionary governments usually Marxist considered threatening to national interests As such this secretive strategy was an integral component of the Iran Contra affair and at the heart of the Reagan Doctrine Molloy argues that LIC was a means of civilianising and privatising America s foreign policy He reveals that LIC was always more of a political rather than military tool The United States used LIC selectively in the 1980s to combat guerrilla movements and undermine targeted regimes to achieve its foreign policy objectives The author uses Nicaragua and the Philippines as major case studies to analyse the profile of this multi dimensional strategy as it emerged in the 1980s He also demonstrates using such examples as Cuba Yugoslavia and East Timor that this complex strategy is still evident today and even pursued by other states Leaders and International Conflict Giacomo Chiozza,H. E. Goemans,2011-08-18 Chiozza and Goemans seek to explain why and when political leaders decide to initiate international crises and wars They argue that the fate of leaders and the way leadership changes shapes leaders decisions to initiate international conflict Leaders who anticipate regular removal from office through elections for example have little to gain and much to lose from international conflict whereas leaders who anticipate a forcible removal from office such as through coup or revolution have little to lose and much to gain from conflict This theory is tested against an extensive analysis of more than 80 years of international conflict and with an intensive historical examination of Central American leaders from 1848 to 1918 Leaders and International Conflict highlights the political nature of the choice between war and peace and will appeal to all scholars of international relations and comparative politics **Energy and US Foreign**

Policy Ahmed Mahdi, 2012-01-30 The quest for oil can be seen as a defining principle of global US foreign policy an imperative which has shaped and redefined the practice of American diplomacy especially in the wake of 9 11 which raised questions about the stability of global oil resources In *Energy and US Foreign Policy* Ahmed Mahdi relates the military expansion of the world s biggest superpower to its quest to gain guaranteed and secure access to the world s most important commodity Examining the foreign policy of George Bush Sr Bill Clinton and George W Bush culminating in the unprecedented military campaigns of the latter Mahdi demonstrates how and why oil has played a central role in US relations with the wider world By dissecting the failures of the US to secure its own economic and energy interests and by demonstrating the devastating impact this has had on the rest of the world especially in the Middle East Mahdi offers vital analysis for researchers and students of International Relations Diplomacy Security and Energy Studies **Understanding Conflict Resolution** Peter Wallensteen, 2007 This thoroughly revised edition of Peter Wallensteen s text provides a comprehensive guide to understanding conflict resolution in the contemporary global environment *Understanding Conflict Resolution* draws on recent and classic research from around the world linking the theory of conflict resolution to in depth case studies throughout The first part reviews the development of conflict resolution since the Cold War and demonstrates the various approaches to conflict analysis The core of the book explores the settlement of three major types of international conflict inter state internal and those arising from state formation In the final part regional and international approaches are examined and questions posed regarding the future of conflict resolution This new edition has been brought fully up to date with coverage of the ongoing war on terror as well as events in Sudan Lebanon Sri Lanka and Zimbabwe Part Three considers the developments in UN reform and the increasing importance of civil society organizations *Understanding Conflict Resolution* remains an essential text for all students lecturers and researchers of peace and conflict resolution in international relations global politics and political science *The Soldier and the State* Samuel P. Huntington, 1981-09-15 In this classic work Huntington challenges old assumptions and ideas on the role of the military in society Stressing the value of the military outlook for American national policy Huntington has performed the distinctive task of developing a general theory of civil military relations and subjecting it to rigorous historical analysis *Manual for the Quartermaster Corps, United States Army, 1916* United States. Army. Quartermaster Corps, 1917 **The Many Faces of Clio** Q. Edward Wang, Franz L. Fillafer, Georg G. Iggers, 2007 Born in Germany Georg Iggers escaped from Nazism to the United States in his adolescence where he became one of the most distinguished scholars of European intellectual history and the history of historiography In his lectures delivered all over the world and in his numerous books translated into many languages Georg Iggers has reshaped historiography and indefatigably promoted cross cultural dialogue This volume reflects the profound impact of his oeuvre Among the contributors are leading intellectual historians but also younger scholars who explore the various cultural contexts of modern historiography focusing on changes of European and American scholarship as well as non

Western historical writing in relation to developments in the West Addressing these changes from a transnational perspective this well rounded volume offers an excellent introduction to the field which will be of interest to both established historians and graduate students **Trade Agreement Digests ...: Metals and manufactures. 3 v** United States Tariff

Commission,1946 **The Two Swords** Dick Westwood,2013 Two Swords is a sweeping overview of medieval European politics in which author Dick Westwood highlights the events and forces that lead to the breakdown of the European cultural and political unity which it had enjoyed under Roman rule But a golden age of unity in Europe was not forgotten and there remained a prevailing belief not in progress but in the need to restore the unity prosperity and security that had been lost By the 10th century Europe s best minds were convinced that the Empire could be restored and further perfected as a Holy Roman Empire designed by God to be ruled by the spiritual sword of the pope and a temporal sword wielded by the emperor Together they would perfect an all embracing Christendom ready to await the return of Christ and his rule over the earth But the two swords turned against each other and a united Christendom was lost Nevertheless sentiment to restore European unity prevailed ultimately leading to the formation of the European Union Working for a multinational corporation and later for the Australian government as a senior diplomat Dick Westwood has traveled lived and worked across much of the world At the age of 20 he drove from London to Calcutta via Afghanistan and at 40 he went around the globe using surface transport As a diplomat posted to numerous foreign assignments Westwood has always strongly believed in acquiring a thorough understanding of the historical circumstances that have shaped the countries in which he served Publisher s website <http://sbpra.com/DickWestwood> **Military System of Sweden, and Other Papers Selected for Publication** United States Military Information Division,1897 Basic Military Training Paul Stanley Bond,1925
