The Constellational Novel Louis Klee, 2025-08-05 A constellational novel is a novel that has an associative essayistic digressive and densely patterned prose form The Constellational Novel aims to shed light on the field of contemporary literature by offering a definitive theory of the constellational novel These novels are recognizable by the presence of a first person narrator committed to drawing affinities and making connections among disparate things Beginning with Marcel Proust Klee's argument focuses on novels published over roughly the last two decades between 2001 and 2020 by writers such as W G Sebald Lisa Robertson Teju Cole Jacqueline Rose and Olga Tokarczuk Strikingly it is often assumed that the attunement of their narrators to an unfolding web of potential interconnections holds an ethical promise of new ways of relating to oneself others and the world Klee considers this implication of ethics and associative form to be peculiar and in some important respects unprecedented in the history of the novel How is recognizing connections between things ethical exactly Could it not simply be the working of a resourceful or possibly even deranged intelligence one that obsessively sees patterns everywhere Why should the value of literature hinge on such an idiosyncratic process And what does finding affinities have to do with the more familiar categories of novelistic form like character and narrative Taking inspiration from the work of Walter Benjamin this book analyzes the distinctive ethics of affinity offered by these novels and thus seeks to clarify one of the most intriguing and consequential developments in the contemporary novel

When the Dead Rise Christian Livermore, 2021 A survey of the motif of the revenant showing how medieval themes and motifs persist today The proliferation of books and films about the undead those literally returning from the grave in modern popular culture has been commented on as a recent phenomenon but it is in fact a storytelling tradition going back more than a millennium It drew on and was influenced by Christian eschatology gathered momentum in medieval ecclesiastical chronicles such as those written by Caesarius of Heisterbach and then migrated into imaginative literature famously in John Lydgate's *Dance of Death* and art But why did revenant stories and imagery take such a hold in the Middle Ages And why has that fascination held on into

today's world This book offers a history of these revenant narratives demonstrating how modern horror is haunted by past literature and exploring the motif of the risen dead as a focus of cultural anxiety and literary effort The author examines the long arc of revenant tales from antiquity and the Middle Ages through the Reformation and into modernity tracing their uncanny similarities and laying bare the rich traditions of narrative theme motif supernatural belief and eschatological fears and preoccupations the Middle Ages through the Reformation and into modernity tracing their uncanny similarities and laying bare the rich traditions of narrative theme motif supernatural belief and eschatological fears and preoccupations the Middle Ages through the Reformation and into modernity tracing their uncanny similarities and laying bare the rich traditions of narrative theme motif supernatural belief and eschatological fears and preoccupations the Middle Ages through the Reformation and into modernity tracing their uncanny similarities and laying bare the rich traditions of narrative theme motif supernatural belief and eschatological fears and preoccupations *Contesting Cultural Authority* Frank M.

Prynne, and Paul Muldoon Mia Gaudern,2020-07-10 This book defines analyses and theorises a late modern etymological poetry that is alive to the past lives of its words and probes the possible significance of them both explicitly and implicitly Close readings of poetry and criticism by Auden Prynne and Muldoon investigate the implications of their etymological perspectives for the way their language establishes relationships between people and between people and the world These twin functions of communication and representation are shown to be central to the critical reception of etymological poetry which is a category of difficult poetry However resonant poetic etymologising may be critics warn that it shows the poet's natural interest in language degenerating into an unhealthy obsession with the dictionary It is unavoidably pedantic in the post Saussurean era to entertain the idea that a word's history might have any relevance to its current use As such etymological poetry elicits the closest of close readings thus encouraging readers to reflect not only on its own pedantry obscurity and virtuosity but also on how these qualities function in criticism As well as presenting a new way of reading three very different late modern poet critics this book addresses an understudied aspect of the relationship between poetry and criticism Its findings are situated in the context of literary debates about difficulty and diction and in larger cultural conversations about the workings of language as a historical event
