Strategic Defenses And Arms Control:

Strategic Defenses and Arms Control Alvin Martin Weinberg, Jack N. Barkenbus, 1988 Strategy and Arms Control Thomas C. Schelling, Morton H. Halperin, 1985 This benchmark study in the field of national security and weapons control was first published in 1961 Republished with a new preface providing the perspectives of 1985 it focuses on the world's military environment and analyzes how that environment may or may not be improved through political arms control efforts The authors begin with a framework for understanding security defense and arms control relationships They also provide a framework for evaluating arms control proposals and for determining whether these proposals are in the security interests of the United States ISBN 0 08 032391 X 14 95 ISBN 0 08 032390 1 pbk 9 95 Strategic Defenses Office of the Technology Assessment, 2014-07-14 To contribute to the worldwide debate on President Reagan's Strategic Defense Initiative here are two important studies Ballistic Missile Defense Technologies and Anti Satellite Weapons Countermeasures and Arms Control Originally published in 1986 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Strategic Defences in the 1990's Ivo H. Daalder, 1991-06-18 Examines the value of deploying strategic missile defences to counter the threat of nuclear accidents It concludes that the deployment of strategic defences in the 1990s will not be strategically desirable technically feasible or economically affordable **The Reagan Strategic Defense Initiative** Sidney David Drell, Philip J. Farley, David Holloway, 1985 **Strategic Defense and Anti-satellite Weapons** United States. Congress. Senate. Committee on Foreign Relations, 1984 *The Strategic Defense Initiative* Ralph L. Dietl, 2018-08-15 The Nuclear and Space Talks revolutionized arms control The Cold War endgame commenced with the umbrella negotiations that linked START and INF negotiations to a regulation on the weaponization of space This volume reveals a US grand strategy to replace deterrence with a collective security order An entente of the superpowers was needed to transform bipolarity The US planned the replacement of mutually assured destruction by mutually assured security A global astrodome was to protect a nuclear disarmed world The Franco German special relationship in European affairs had to be amended by a US-SU special relationship to replace classic bloc politics The Reagan Administration planned a global zero agenda a joint development of a global protective system and a creation of a Common House of Europe In brief the superpowers prepared the velvet revolution that eliminated the Cold War structures Neither containment nor convergence offers a valid explanation of the Cold War endgame Co creation is the key to decipher the end of the Cold War NATO Europe challenged the transformation of bipolarity The European NWS resisted to a multilateralization of strategic arms control In Europe the classic Cold War

thinking survived the fall of the Iron Curtain European conservatism contributed to the geopolitical catastrophe of the first order the downfall of the Soviet Union The Reagan Administration developed a Grand Strategy to end the Cold War The US SU co creation of an astrodome was meant to ease a global zero agenda A global collective security structure under the United Nations was to replace deterrence The superpower project collapsed due to the penetration of US decision making by NATO Allies The European NWS totally objected to a multilateralization of strategic arms control to preserve their relative position in the international system

The Strategic Defense Debate Craig Snyder, 2016-11-11 The goal of our strategic defense research program the vision and hope of the President is to stop Soviet missiles before they could destroy any targets be they in the United States or anywhere else The goal is noble and straightforward to destroy weapons that kill people Thus based on a realistic view of Soviet military planning the transition to strategic defense would not be destabilizing In fact any initial defensive capabilities would offer many benefits This objective is far more idealistic moral and practical than the position taken by those who still embrace the mutual assured destruction MAD theory that defenses must be totally abandoned Caspar Weinberger This is basically a research program and should remain so at least for the foreseeable future In a world that relies on an exquisite strategic balance to forestall the holocaust it would be the worst of blunders to jolt the tightrope when the safety net is tied at only one end James Schlesinger Neither Star Wars I or Star Wars II in whatever form one considers them is an effective response to the public s intuitive awareness of the unacceptable risk posed by our present nuclear strategy Robert McNamara The goal of our innovative science and technology program is to establish scientific feasibility and engineering validation of revolutionary concepts concepts with potential for full SDI technological development This forward looking office has a broad research charter which focuses on advanced directed energy concepts such as gamma ray lasers on novel sensing and data preprocessing techniques on advanced materials for space applications on innovations in spacepower and on emerging space science applications and ultra high speed supercomputing Interest in such exotic areas of science and technology clearly illustrates that SDI has greatly facilitated the mobilization of our nation s scientific community Lt Gen James Abrahamson Prominent world leaders and scientists came together in 1985 to discuss the technological feasibility and the political sensibility of Star Wars Their essays presented in The Strategic Defense Debate provide for the first time a comprehensive look at this timely and controversial subject Craig Snyder s introduction and headnotes to the collection highlight the critical points of each essay as well as their conceptual significance to the overall topic Contributors include Caspar Weinberger James Schlesinger Lieutenant General James A Abrahamson Robert S McNamara Andrew Cockburn Richard Pipes Stephen F Cohen Adam Garfinkle Leon Wieseltier Michael Vlahos Franklin Long Francis Pym Major Simon P Worden Richard Garwin Robert S Cooper Colin S Gray Robert Bowman Alex Glikson and Warren Zimmerman Excerpts from President Reagan s speech Peace and National Security and Ambassador Paul H Nitze s speech On the Road to a More Stable Peace are also included The essays were originally presented at a conference

sponsored by The World Affairs Council of Philadelphia in late 1985 The Strategic Defense Debate will be invaluable to students scholars and lay persons interested in politics history military strategy and Soviet relations Report to the Congress on the Strategic Defense Initiative Strategic Defense Initiative Organization (U.S.),1989 **Defense** ,1987

Congressional Record United States. Congress,1992 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 **Energy Abstracts for Policy Analysis** ,1987 **Way Out There In the Blue** Frances FitzGerald,2001-02-21 Way Out There in the Blue is a major work of history by the Pulitzer Prize winning author of Fire in the Lake Using the Star Wars missile defense program as a magnifying glass on his presidency Frances FitzGerald gives us a wholly original portrait of Ronald Reagan the most puzzling president of the last half of the twentieth century Reagan s presidency and the man himself have always been difficult to fathom His influence was enormous and the few powerful ideas he espoused remain with us still yet he seemed nothing more than a charming simple minded inattentive actor FitzGerald shows us a Reagan far more complex than the man we thought we knew A master of the American language and of self presentation the greatest storyteller ever to occupy the Oval Office Reagan created a compelling public persona that bore little relationship to himself The real Ronald Reagan the Reagan who emerges from FitzGerald s book was a gifted politician with a deep understanding of the American national psyche and at the same time an executive almost totally disengaged from the policies of his administration and from the people who surrounded him The idea that America should have an impregnable shield against nuclear weapons was Reagan s invention His famous Star Wars speech in which he promised us such a shield and called upon scientists to produce it gave rise to the Strategic Defense Initiative Reagan used his sure understanding of American mythology history and politics to persuade the country that a perfect defense against Soviet nuclear weapons would be possible even though the technology did not exist and was not remotely feasible His idea turned into a multibillion dollar research program SDI played a central role in U S Soviet relations at a crucial juncture in the Cold War and in a different form it survives to this day Drawing on prodigious research including interviews with the participants FitzGerald offers new insights into American foreign policy in the Reagan era She gives us revealing portraits of major players in Reagan s administration including George Shultz Caspar Weinberger Donald Regan and Paul Nitze and she provides a radically new view of what happened at the Reagan Gorbachev summits in Geneva Reykjavik Washington and Moscow FitzGerald describes the fierce battles among Reagan s advisers and the frightening increase of Cold War tensions during Reagan s first term She shows how the president who presided over the greatest peacetime military buildup came to espouse the elimination of nuclear weapons and how the man who insisted that the Soviet Union was an evil empire came to embrace the Soviet leader Mikhail Gorbachev and to proclaim an end to the

Cold War long before most in Washington understood that it had ended Way Out There in the Blue is a ground breaking history of the American side of the end of the Cold War Both appalling and funny it is a black comedy in which Reagan playing the role he wrote for himself is the hero **Antiballistic Missile Defence in the 1980s** Ian Bellany, Coit D. Blacker, 1983 Examining the practicalities of ballistic missile defence this study also considers the implications for defence policies around the world and the effect on domestic politics **Congressional Record Index** ,1985 Includes history of bills and resolutions **Ballistic missile defense technologies.** ,1985 **A World Without Nuclear Weapons** Kenneth L.
